Boquaw Y2

Boquaw Y2 Smart Watch User Manual

Model: Y2

1. INTRODUCTION

This manual provides detailed instructions for the setup, operation, and maintenance of your Boquaw Y2 Smart Watch. Please read this guide thoroughly to ensure proper use and to fully utilize all features of your device.

Image: The Boquaw Y2 Smart Watch, showcasing its sleek design with both black and white strap options.

2. SETUP AND PAIRING

To begin using your Boquaw Y2 Smart Watch, you must first connect it to your smartphone via the companion application.

2.1 App Installation

1. Turn on the Bluetooth function on your smartphone.
2. Scan the QR code below or search for "FitCloudPro" in the Google Play Store (for Android) or Apple App Store (for iOS) and download the application.
3. Open the "FitCloudPro" app and follow the on-screen instructions to create an account or log in.

Answer/Make Call on Smart Watch

Set favorite contacts, check dialing records easily

Image: Visual guide for downloading the FitCloudPro app and initiating the device connection process.

2.2 Device Pairing

1. In the FitCloudPro app, tap "Connect device" or "Select device" and locate "Y2" in the list of available devices.
2. Confirm the pairing request on both your phone and the smartwatch.

2.3 Enabling Call Function

After initial pairing, perform the following steps to enable the answer/call function:

1. After selecting "Y2" to connect, on the mobile phone system popup, select "Pairing".
2. Turn on the call Bluetooth switch on the watch. (Note: If this is not enabled, the watch cannot make calls or play media sound).
3. In your phone's Bluetooth settings, grant all necessary permissions for the "Y2" device.
4. Once connected, you can use the watch to answer/make calls.

Note: If you do not intend to use the call function, you can turn off the answer/call function to extend battery life.

3. OPERATING INSTRUCTIONS

3.1 Call and Message Functions

The Boquaw Y2 Smart Watch allows you to manage calls and receive notifications directly on your wrist.

- **Make/Answer Calls:** With the call function enabled, you can dial numbers, answer incoming calls, and view call history directly from the watch. The watch features a built-in microphone and speaker.
- **Message Notifications:** Receive notifications for SMS, WhatsApp, Facebook, and other social media applications. Notifications are displayed directly on the watch screen.

Image: The smartwatch interface showing an incoming call and the dialing keypad, demonstrating call management features.

24-Hour Heart Rate Monitor

Keep track of your heart rate rhythm and know your health condition.

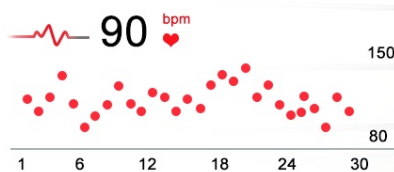

Image: A smartwatch screen showing a message notification, indicating the device's ability to display instant messages from various applications.

3.2 Health Monitoring

The Boquaw Y2 Smart Watch is equipped with advanced sensors to monitor various health metrics.

- **Heart Rate Monitoring:** Continuously tracks your heart rate throughout the day, providing data to help you understand your cardiovascular health.
- **Blood Oxygen (SpO2) Monitoring:** Measures your blood oxygen levels to ensure proper breathing and overall well-being.
- **Sleep Tracking:** Monitors your sleep patterns, including deep sleep, light sleep, and awake times, offering a comprehensive analysis of your sleep quality.

Sleep Quality Monitoring

Monitors and estimates your sleep status and offers a detailed sleep analysis with continuous recording of your sleep patterns.

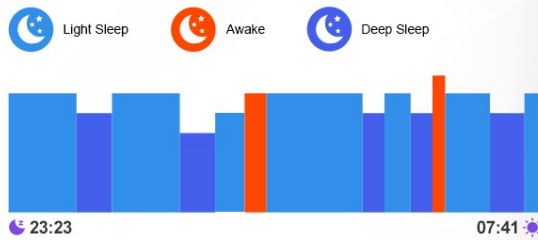

Image: A graph on the smartwatch screen illustrating 24-hour heart rate monitoring, showing fluctuations and average heart rate.

Blood Oxygen Monitoring

Continuously measure Your BLOOD OXYGEN (SpO2) throughout the day to ensure your breathing and keep you safer.

ALL DAY ACTIVITY TRACKING

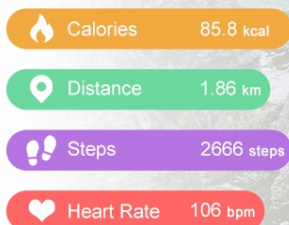

Image: The smartwatch screen showing current and historical blood oxygen (SpO2) levels, indicating continuous measurement.

3.3 Activity Tracking

Track your daily activities and workouts with precision.

- **All-Day Activity:** Records steps, distance, and calories burned throughout the day.
- **112+ Sport Modes:** Supports a wide range of sports including running, cycling, badminton, hiking, and more, providing detailed insights into your performance.
- **GPS via Smartphone:** Can obtain GPS positioning through your connected mobile phone to accurately map your movement path during outdoor activities.

112 + SPORT MODES

Smart watch support 112 + sport mode: running, riding, badminton, hiking etc to give you more detailed insight into whole day activity.

Image: The smartwatch interface showing a summary of daily activity, including calories burned, distance covered, and step count.

IP68 Waterproof

Easily and perfectly meet daily waterproofing needs.

Image: A collection of icons representing over 112 sport modes available on the smartwatch, alongside a display of workout duration and heart rate.

3.4 Additional Features

Enhance your daily life with these convenient smartwatch functions:

- **Customizable Watch Faces:** Choose from over 200 built-in watch faces in the FitCloudPro app or customize your own with personal photos.
- **Camera Control:** Use your smartwatch as a remote shutter for your phone's camera.
- **Music Control:** Play, pause, skip tracks, and adjust volume for music playing on your connected phone.
- **Weather Information:** Get real-time weather updates directly on your watch.
- **Alarm Clocks:** Set multiple alarms for reminders.

- **Stopwatch & Timer:** Essential tools for timing activities.
- **Find Phone:** Locate your misplaced phone by triggering an alert from your watch.
- **Sedentary Reminder:** Receive alerts to move after periods of inactivity.

Camera Control on your wrist

You can use your smartwatch to control your phone's camera shutter.

A: First of all, please be sure to connect our smart watch through the “FitCloudPro” APP.

Step 1

1. Turn on the “Bluetooth” function of your phone.

Step 2

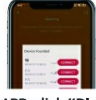

2. Open the “Google Play” or the “APP Store”.

Step 3

3. Search for “FitCloudPro” APP and download it.

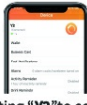

Step 1

4. Open the APP, click “Please connect device”, click “Select device”, find “Y2” and bind it.

B: Perform the following steps to enable the answer/call function.

Step 1

1. After selecting “Y2” to connect, on the mobile phone system popup pairing request, select pairing

Step 2

2. Turn on the call Bluetooth switch on the watch (used when the watch cannot make calls and play media sound).

Step 3

3. In the phone settings, in the system bluetooth, turn on these permissions of the Y2.

Step 1

4. Once connected, you could use the watch to answer/make calls anytime.

***If you don't need to use the call function, you can turn off the answer/call function so that the battery can last longer.**

Image: Three smartwatch screens illustrating additional convenience features: setting an alarm, using the 'Find Phone' function, and a sedentary reminder.

4. MAINTENANCE

4.1 Waterproofing

The Boquaw Y2 Smart Watch is IPX8 waterproof, meaning it can withstand immersion in water up to 1.5 meters for 30 minutes. You can wear it during outdoor activities, in rainy conditions, or while washing your hands. However, it is not recommended for hot showers, saunas, or diving, as steam and hot water can affect the seal.

Image: The smartwatch being splashed with water, visually representing its IP68 waterproof capability for daily use.

4.2 Battery Life

The watch is equipped with a large capacity battery designed for long life. Under typical usage, it can last 7-15 days on a single charge. Actual battery life may vary based on usage patterns and enabled features. Charging is done via the magnetic charging cable provided.

5. TROUBLESHOOTING

- **Connection Issues:** Ensure Bluetooth is enabled on your phone and the watch. Restart both devices and try pairing again. Check that the FitCloudPro app has all necessary permissions.
- **Call Function Not Working:** Verify that the call Bluetooth switch is enabled on the watch and that all phone permissions are granted for the "Y2" device in your phone's Bluetooth settings.
- **Inaccurate Readings:** Ensure the watch is worn snugly on your wrist, but not too tight. Clean the sensor area regularly.
- **Notifications Not Appearing:** Check app notification settings on your phone and within the FitCloudPro app to ensure they are enabled for the desired applications.
- **Short Battery Life:** Disable unused features like continuous heart rate monitoring or the call function if not needed. Reduce screen brightness.

For further assistance, refer to the help section within the FitCloudPro app or contact customer support.
