ANPABO 24V Ride on Shark Car Toy Instruction Manual

Model: B0DFY2MWRQ

INTRODUCTION

This manual provides essential information for the safe assembly, operation, and maintenance of your ANPABO 24V Ride on Shark Car Toy. Please read all instructions carefully before use and retain this manual for future reference.

IMPORTANT SAFETY INFORMATION

WARNING: To reduce the risk of injury, adult supervision is required. Never use in roadways, near motor vehicles, on or near steep inclines or steps, swimming pools or other bodies of water. Always wear shoes, and never allow more than the recommended number of riders.

- **Age Range:** Suitable for children aged 3 years and up.
- **Weight Capacity:** Maximum weight capacity is 110 pounds.
- **Seating:** Designed for one child aged 3-12, or two children aged 3-6.
- **Battery:** Powered by a 24V 7AH battery.
- **Adult Assembly Required:** Keep small parts away from children during assembly.
- **Charging:** Only use the provided charger. Do not overcharge.
- **Environment:** Operate on flat, dry surfaces away from traffic and hazards.

WHAT'S IN THE BOX

Before assembly, ensure all components are present:

- Car body
- Remote control (requires 2 x 1.5 AAA batteries, not included)
- Wheels (4x)
- Seats (2x)

- Steering wheel
- Front and rear fenders
- Axles and suspension components
- Charger
- Assembly hardware (screws, washers, nuts)
- Instruction Manual

SETUP AND ASSEMBLY

Follow these steps to assemble your ANPABO 24V Ride on Shark Car Toy. Refer to the installation video for visual guidance.

Assembly Steps:

1. **Unboxing:** Carefully open the packaging and remove all components. Inspect for any damage.
2. **Connect Battery:** Locate the battery compartment, usually under the seat or hood. Connect the battery terminals as instructed. Ensure a secure connection.
3. **Install Axles and Suspension:** Attach the front and rear axles to the car body. Secure the shock absorbers to the designated points.
4. **Attach Wheels:** Slide each wheel onto its respective axle. Secure with washers and nuts. Attach the wheel covers.
5. **Install Steering Wheel:** Connect the steering wheel's electrical connector to the steering column. Slide the steering wheel onto the column and secure it with the provided screw.
6. **Attach Fenders:** Secure the front and rear fenders to the car body using the provided screws.
7. **Install Seats:** Place the seats into their designated positions and secure them with screws. Ensure seat belts are accessible and functional.
8. **Remote Control Setup:** Open the battery compartment on the remote control and insert 2 x 1.5 AAA batteries (not included).

Video Description: This video provides a detailed, step-by-step guide on how to assemble the ANPABO 24V Ride on Shark Car Toy. It covers unboxing, connecting the battery, installing axles, wheels, steering wheel, fenders, and seats, and setting up the remote control. The video is produced by the seller and is highly relevant for the setup process.

Video Description: Official ANPABO installation video demonstrating the complete assembly process for the 24V Ride on Shark Car. It shows each part being attached and secured, including electrical connections and final checks.

OPERATING INSTRUCTIONS

Your ANPABO 24V Ride on Shark Car Toy offers both manual driving and parental remote control modes.

Manual Mode:

1. **Start the Vehicle:** Press the red power button on the dashboard.
2. **Select Speed:** Use the High/Low speed switch to choose your desired driving speed. The vehicle can reach a maximum speed of 5.1 MPH.
3. **Direction:** Use the forward/back joystick to select forward, park, or reverse.
4. **Accelerate:** Press the foot pedal accelerator to move the vehicle.
5. **Steering:** Use the steering wheel to control direction.

Parental Remote Control Mode:

For younger children or additional safety, parents can control the vehicle using the remote control.

1. **Pairing:** Follow the remote control's instructions to pair it with the vehicle.
2. **Controls:** The remote allows control over forward/reverse movement, left/right steering, and speed selection.
3. **Override:** The remote control typically overrides manual controls for safety.

Key Features:

- **4WD Power:** Equipped with four 24V 200W motors for robust performance on various terrains.
- **EVA Tires:** Durable, wear-resistant EVA rubber tires provide superior grip and stability on grass, rocky roads, and dirt tracks.
- **4-Wheel Suspension:** Minimizes bumps for a smooth and comfortable ride.
- **Bluetooth Connectivity:** Connect your device to the built-in music panel to play favorite songs and stories.
- **Lights:** Features bright front lights for enhanced visibility and cool aesthetics.
- **Low Center of Gravity:** Enhances stability and reduces rollover risk.

Image Description: Two young children are seated comfortably in the ANPABO 24V Ride on Shark Car, demonstrating its spacious two-seater design. The car is orange and black, with large, rugged wheels, and is being driven on a grassy area.

Image Description: A child is driving the ANPABO 24V Ride on Shark Car up a grassy incline, highlighting its powerful motors and shock absorption system. The image emphasizes the vehicle's ability to handle varied terrain.

Image Description: This image showcases the ANPABO 24V Ride on Shark Car's key power features: a 24V 7AH battery providing 1-2 hours of playtime, and durable EVA tires for all-terrain use. The car is depicted in orange and black.

Video Description: This video highlights the ANPABO 2-Seater Ride on Shark Car's features, including its spacious

design for two riders, powerful 800W motors, all-terrain EVA tires, and flexible steering. It demonstrates the vehicle's ability to navigate various surfaces and obstacles.

MAINTENANCE

Regular maintenance ensures the longevity and safe operation of your ride-on toy.

- **Battery Care:** Charge the battery fully after each use. Do not allow the battery to completely drain. Store the vehicle with a fully charged battery if not used for extended periods.
- **Cleaning:** Wipe the vehicle with a damp cloth. Do not use harsh chemicals or abrasive cleaners. Avoid spraying water directly onto electrical components.
- **Storage:** Store the vehicle in a dry, cool place away from direct sunlight and moisture.
- **Inspection:** Periodically check all screws, nuts, and connections to ensure they are tight. Inspect tires for wear and tear.

TROUBLESHOOTING

If you encounter issues, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Vehicle does not move	Battery is low or disconnected; loose wiring; blown fuse.	Charge battery; check battery connections; inspect wiring; replace fuse if necessary.
Vehicle moves slowly	Low battery charge; overloaded vehicle; operating on rough terrain.	Fully charge battery; reduce load; operate on smoother surfaces.
Remote control not working	Remote batteries are dead; remote not paired; interference.	Replace remote batteries; re-pair remote control; move away from interference sources.
Unusual noises during operation	Loose parts; debris in motor/wheels.	Check and tighten all fasteners; remove any debris from moving parts.

SPECIFICATIONS

- **Product Dimensions:** 48 x 35.4 x 24.4 inches
- **Item Weight:** 62 pounds
- **Manufacturer Recommended Age:** 3 years and up
- **Battery:** 24V 7AH
- **Motors:** 4x 200W (Total 800W)
- **Maximum Speed:** 5.1 MPH
- **Tires:** EVA Rubber
- **Suspension:** 4-Wheel Shock Absorbers
- **Seating Capacity:** 2-seater
