CHOYONG A8W Internet Radio User Manual

Portable Smart WIFI/4G Radio FM Receiver

INTRODUCTION

The CHOYONG A8W Internet Radio is a versatile and portable device designed to provide a rich listening experience. It offers seamless Wi-Fi and 4G connectivity, granting access to over 40,000 internet radio stations globally, alongside traditional FM stations. Its advanced voice search function allows for effortless navigation, while features like a rechargeable battery, alarm clock, and Micro SD card support enhance user convenience. This manual provides comprehensive instructions for setting up, operating, and maintaining your A8W radio.

PACKAGE CONTENTS

- CHOYONG A8W Internet Radio Unit
- USB Charging Cable
- User Manual (this document)
- *(Note: Specific accessories may vary. Please check your product packaging.)*

PRODUCT OVERVIEW

Figure 1: Front view of the CHOYONG A8W Internet Radio, showing the speaker grille, display screen, and control buttons.

Figure 2: Side view illustrating the Micro SD card slot and the Type-C headphone port.

Controls and Ports:

- **Display Screen:** Shows station information, time, battery status, and menu options.
- **Speaker Grille:** Integrated multimedia speaker for audio output.
- **Control Buttons:** Includes OK, Play/Pause, Skip, Menu, News, Music, Favorite, Settings, and Voice Search.
- **Volume/Navigation Knobs:** Located on the side for adjusting volume and navigating menus.
- **Micro SD Card Slot:** For playing audio files from a Micro SD card.
- **Type-C Port:** Used for charging the device and connecting Type-C headphones.

SETUP

1. Charging the Device

Before first use, fully charge the A8W radio. Connect the supplied USB charging cable to the Type-C port on the device and the other end to a standard USB power adapter (not included) or a computer's USB port. The charging indicator on the display will show the charging status.

2. Powering On/Off

- **To Power On:** Press and hold the Power button (usually integrated with one of the side knobs) until the display

lights up.

- **To Power Off:** Press and hold the Power button again until the device shuts down.

3. Network Connection (Wi-Fi/4G)

To access internet radio stations, the A8W requires a network connection.

1. From the main menu, navigate to **Settings**.
2. Select **Network** or **Wi-Fi Setup**.
3. The radio will scan for available Wi-Fi networks. Select your desired network from the list.
4. Enter the Wi-Fi password using the on-screen keyboard and navigation buttons.
5. Confirm the password and connect.

Important Note on Wi-Fi Security: For optimal compatibility, particularly with older firmware versions, this device may perform best with Wi-Fi networks configured to WPA2 security protocols. While WPA3 offers enhanced security, some devices may require a WPA2 setting for a stable connection. Consult your router's documentation for changing Wi-Fi security settings if needed.

OPERATING INSTRUCTIONS

1. Internet Radio

Access thousands of stations worldwide once connected to Wi-Fi or 4G.

- Navigate to **Internet Radio** from the main menu.
- Browse stations by continent, country, genre, or popularity.
- Select a station to begin playback.
- Use the **Favorite** button to save frequently listened stations.

2. Voice Search

The A8W features voice search for convenient station discovery.

- Press the **Voice Search** button (microphone icon).
- Speak clearly into the device's microphone, stating the name of the station or a keyword (e.g., "Play VOA").
- The radio will search and display relevant results.

Voice search station, more convenient, simpler

Figure 4: Demonstrating the voice search functionality for easy station access.

3. FM Radio

To listen to local FM broadcasts:

- Navigate to **FM Radio** from the main menu.
- Use the navigation knobs or buttons to tune to your desired frequency (87.5-108MHz).
- The radio may automatically scan and save available stations upon first use.

Figure 5: Display showing FM radio mode with a tuned frequency.

4. Micro SD Card Playback

The A8W supports playing audio files from a Micro SD card.

- Insert a Micro SD card into the designated slot (refer to Figure 2).
- Navigate to **Music Player** or **SD Card** from the menu.
- Browse and select audio files (MP3, AAC, etc.) to play.

5. Alarm Clock and Timer

Set alarms and timers for personalized use.

- Access **Alarm** or **Timer** settings from the main menu.
- Follow the on-screen prompts to set time, alarm sound (radio station or tone), and recurrence.

6. Audio Output (Headphones)

For private listening, connect Type-C headphones to the dedicated port.

- Insert Type-C headphones into the Type-C port on the side of the device.
- The audio will automatically switch from the internal speaker to the headphones.
- *Note: This device uses a Type-C port for audio output. Standard 3.5mm headphones are not directly compatible without an adapter.*

MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the exterior of the radio. Do not use liquid cleaners or abrasive materials.
- **Battery Care:** To prolong battery life, avoid fully discharging the battery frequently. Charge the device regularly, even if not in use for extended periods.
- **Storage:** Store the radio in a cool, dry place away from direct sunlight and extreme temperatures.

TROUBLESHOOTING

Problem	Possible Cause	Solution

Problem	Possible Cause	Solution
Device does not power on.	Low battery; Power button not pressed correctly.	Charge the device fully. Press and hold the Power button for a few seconds.
Cannot connect to Wi-Fi.	Incorrect password; Router too far; Wi-Fi security protocol incompatibility.	Double-check password. Move closer to router. Ensure your router is set to WPA2 security for best compatibility. Restart router and radio.
No sound from headphones.	Incorrect headphone type; Headphones not fully inserted.	Ensure you are using Type-C headphones. Insert the headphone plug firmly into the Type-C port. Check headphone functionality with another device.
Voice search not responding.	No internet connection; Microphone obstructed.	Verify Wi-Fi/4G connection. Ensure nothing is blocking the microphone opening. Speak clearly and close to the device.
Poor FM reception.	Weak signal; Environmental interference.	Relocate the radio to an area with better signal. Extend any built-in antenna if available.
