## VISSPL Smart 4K Projector

# VISSPL Smart 4K Projector User Manual

## INTRODUCTION

This manual provides comprehensive instructions for the VISSPL Smart 4K Projector. Please read thoroughly to ensure proper setup, operation, and maintenance for optimal performance and longevity of your device.

## PRODUCT OVERVIEW

The VISSPL Smart 4K Projector is designed for versatile home entertainment, supporting Full HD 1080P resolution and 4K input. It features advanced AI Auto Focus and Auto Keystone Correction for effortless image adjustment. Equipped with WiFi 6 and Bluetooth 5.2, it offers seamless connectivity for various devices. The projector also includes a built-in HiFi speaker for enhanced audio and a high-efficiency cooling system for extended lamp life.

## WHAT'S IN THE BOX

- 
- VISSPL Smart 4K Projector
  - Power Adapter
  - Remote Control
  - User Manual
  - Mini Tripod

## SETUP

---

### Physical Setup

1. Place the projector on a stable, flat surface. The included mini tripod can be attached to the bottom of the projector for adjustable positioning and height.
2. Ensure the projection surface (wall or screen) is clean and free from obstructions.

Image: VISSPL Smart 4K Projector positioned with its mini tripod, ready for use.

### Power On

1. Connect the power adapter to the projector's DC input port and then to a power outlet.
2. Press the power button on the projector or the remote control to turn on the device. The indicator light will illuminate.

### Focus and Keystone Correction

The VISSPL Smart 4K Projector features AI Auto Focus and Auto Keystone Correction. Upon startup or movement, the projector will automatically adjust the image for clarity and correct trapezoidal distortion.

## OPERATING

---

### Connectivity

#### WiFi Connection (WiFi 6)

The projector supports dual-band WiFi (2.4G and 5.8G) for stable and smooth screen mirroring. To connect:

1. Navigate to the 'Network Settings' or 'WiFi' option in the projector's main menu.
2. Select your desired WiFi network and enter the password.
3. Once connected, you can proceed with screen mirroring from your compatible devices.

#### Bluetooth Connection (Bluetooth 5.2)

Connect external Bluetooth speakers or headphones for an enhanced audio experience.

1. Navigate to the 'Bluetooth' setting in the projector's menu.
2. Turn on Bluetooth on your external audio device and set it to pairing mode.
3. Select your device from the list on the projector screen to pair.

## Screen Mirroring

The projector supports screen mirroring for Android and iOS devices.

### Android Device Mirroring

1. Ensure your Android device and the projector are connected to the same WiFi network.
2. On your Android device, open the 'Wireless Projection' or 'Smart View' function.
3. Search for the projector's name (e.g., "V31-\*\*\*\*") and select it to connect.

Video: An official VISSPL guide demonstrating the steps to connect an Android smartphone to the projector for screen mirroring.

### iOS Device Mirroring

1. Ensure your iOS device and the projector are connected to the same WiFi network.
2. On your iOS device, open 'Screen Mirroring' from the Control Center.
3. Select the projector's name (e.g., "V31-\*\*\*\*") from the list to connect.

## External Device Connection

The projector offers multiple input ports for various devices:

- **HDMI:** Connect devices like TV sticks, gaming consoles (PS5), laptops, or Blu-ray players.
- **USB:** Connect USB flash drives for playing media files directly.
- **AV:** Connect older devices using the provided AV cable.
- **Audio Out:** Connect external speakers or headphones via a 3.5mm audio jack.

*Note: Due to HDCP copyright restrictions, streaming services like Netflix, Disney+, and Hulu may not play directly via screen mirroring. Please use a TV Stick (not included) connected via HDMI for these services. An extra HDMI adapter may be needed for phone connections.*

Image: The projector's multiple connectivity options are shown, including HDMI, USB, and AV ports, allowing connection to

smartphones, laptops, gaming consoles, and TV sticks.

## Adjusting Display Size (Zoom Function)

The projector supports a display size of 35-160 inches. You can adjust the image size from 100% down to 50% using the zoom function in the settings menu without physically moving the projector.

## MAINTENANCE

---

### Cooling System and Lamp Life

The VISSPL Smart 4K Projector incorporates high-efficiency cooling technology, which significantly reduces fan noise by 50% compared to other projectors and extends the lamp life to over 55,000 hours. To ensure optimal cooling and longevity:

- Ensure proper ventilation around the projector. Do not block air vents.
- Regularly clean the air vents to prevent dust accumulation.

Image: A diagram illustrating the projector's efficient cooling system, showing airflow through the device to maintain optimal operating temperature.

### Lens Care

To maintain clear image quality, keep the projector lens clean. Use a soft, lint-free cloth specifically designed for optical lenses. Avoid abrasive materials or harsh chemicals.

Image: A close-up view of the projector's optical lens, emphasizing the importance of keeping it clean for clear projection.

## TROUBLESHOOTING

---

- **No image/power:** Ensure the power adapter is securely connected and the power button is pressed.
- **Blurry image:** Use the auto-focus feature or manually adjust the focus ring on the projector.
- **Trapezoidal image:** The projector features auto keystone correction. If needed, manually adjust keystone settings in the menu.
- **No sound:** Check volume settings on both the projector and the connected device. Ensure external audio devices are correctly paired via Bluetooth or connected via audio cable.
- **Screen mirroring issues:** Verify both devices are on the same WiFi network. For streaming services, use an HDMI-connected TV stick due to copyright restrictions.
- **Google Phone compatibility:** Note that Google phones are not compatible with screen mirroring due

to mirroring protocol limitations.
