### Unijoy Baby Diapers\_XL\_Pack of 1

# Unijoy Hello Sweety Ultrasoft Baby Diapers XL Instruction Manual

Model: Baby Diapers\_XL\_Pack of 1

## PRODUCT OVERVIEW

---

The Unijoy Hello Sweety Ultrasoft Baby Diapers XL are designed to provide comfort and protection for babies weighing between 12-17 kg. These disposable diapers feature hypoallergenic and unscented materials, aiming to reduce skin irritation. Each pack contains 50 diapers, offering a soft and secure fit for daily use.

COMFORTABLE DIAPER

Dermatologically tested

Super Soft

Honey Comb Channel

Breathable Back sheet

Cottony Soft

Image: Visual representation of the diaper's key features including super soft material, honeycomb channel for absorption, breathable back sheet, cottony soft texture, and dermatologically tested assurance.

## Key Features:

- **Superior Protection:** Designed for leak-proof comfort day and night.
- **Gentle on Skin:** Hypoallergenic and unscented materials for sensitive skin.
- **Ultrasoft Comfort:** Soft fabric for unrestricted movement.
- **Snug Fit:** Secure design to prevent leaks.
- **Pure Protection:** Free from harsh chemicals and fragrances.

## SETUP AND APPLICATION

Follow these steps for proper diaper application to ensure maximum comfort and protection for your baby.

1. **Prepare the Diaper:** Lay the diaper flat with the back part (usually with the brand logo) under your baby's bottom. Ensure the leg cuffs are unfolded and not tucked in.

Image: Illustration of the diaper's 360-degree fit and various features like honeycomb channel and breathable back sheet.

2. **Position Your Baby:** Gently lift your baby's legs and slide the diaper under their bottom, ensuring the top edge of the back of the diaper is at waist level.
3. **Fasten the Diaper:** Bring the front part of the diaper up between your baby's legs. Pull the adhesive tabs from

the back and fasten them securely to the front panel. Ensure a snug fit around the waist and legs, but not too tight to restrict movement or cause discomfort. You should be able to comfortably slide two fingers under the waistband.

Image: A baby sleeping peacefully, demonstrating the diaper's comfort and highlighting up to 12 hours of protection.

4. **Check for Fit:** Run your finger around the leg cuffs to ensure they are not folded inwards, which can cause leaks. The diaper should fit snugly around the thighs and waist.

## OPERATING (DAILY USE)

---

For optimal performance and your baby's comfort, consider the following guidelines during daily use:

- **Regular Changes:** Change diapers frequently, especially after bowel movements, to maintain hygiene and prevent skin irritation.
- **Wetness Indicator:** Unijoy Hello Sweetie diapers feature a wetness indicator that changes color when the diaper is wet, signaling that a change may be needed.

Indicator - Changes Colour  
When Changing Is Required

*Image: A baby demonstrating the diaper's wetness indicator, which changes color to signal when a diaper change is required.*

- **Size Appropriateness:** Ensure the diaper size (XL for 12-17 kg) is appropriate for your baby's current weight and build to prevent leaks and ensure comfort.

## MAINTENANCE AND DISPOSAL

---

### Storage:

- Store unused diapers in a cool, dry place away from direct sunlight and extreme temperatures.
- Keep the diaper packaging sealed to protect diapers from moisture and contaminants.

### Disposal:

1. Remove the soiled diaper from your baby.
2. Roll the diaper tightly, securing it with the adhesive tabs if possible.
3. Dispose of the soiled diaper in a waste bin. Do not flush diapers down the toilet.

## TROUBLESHOOTING

---

**Issue: Leaks around the legs or waist.**

**Possible Causes:** Diaper is too loose, leg cuffs are tucked in, or diaper size is incorrect for the baby's weight/build. **Solution:** Ensure the diaper is snugly fastened around the waist and thighs. Pull out any tucked-in leg cuffs. Verify that the diaper size (XL for 12-17 kg) is appropriate for your baby.

**Issue: Skin irritation or rash.**

**Possible Causes:** Infrequent diaper changes, sensitivity to materials, or prolonged exposure to wetness. **Solution:** Change diapers more frequently, especially when the wetness indicator signals a change. Ensure the baby's skin is clean and dry before applying a new diaper. Consult a pediatrician if irritation persists.

**Issue: Diaper feels bulky or uncomfortable.**

**Possible Causes:** Diaper is too large, or not properly adjusted. **Solution:** Ensure the diaper is correctly positioned and fastened. If the diaper consistently feels too large, consider if a smaller size might be more appropriate, although this XL size is for 12-17 kg.

## SPECIFICATIONS

Attribute	Detail
Brand	Unijoy
Model Number	Baby Diapers_XL_Pack of 1
Size	XL (12-17 kg)
Quantity per Pack	50 Count
Material	Cotton
