# Vikye Cordless Rechargeable Hair Dryer User Manual

Model: Vikyex2v0tk8ugs-12

## 1. INTRODUCTION

---

Thank you for choosing the Vikye Cordless Rechargeable Hair Dryer. This portable and powerful hair dryer is designed for convenience, offering 3 adjustable cold and hot wind settings with a 15000mAh battery. Its cordless design makes it ideal for travel, camping, and use in various environments without a power outlet. This manual provides essential information for safe and effective use of your device.

# Student only Wireless hair dryer

Long lasting  
endurance

Cold and hot  
air/switching

Dormitory power  
restriction does not trip

USB&Type-C fast charging

**Blue light care**

Multiple scenarios  
available

## 2. SAFETY INFORMATION

---

- Read all instructions before using this appliance.
- Do not use this appliance near water, such as in bathtubs, showers, or swimming pools.
- Always unplug the appliance immediately after use and before cleaning.
- Keep the air inlet and outlet clear of obstructions to prevent overheating.
- Do not operate the appliance with a damaged cord or plug.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory, or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
- Do not attempt to disassemble or repair the appliance yourself. Contact customer support for assistance.
- Use only the charging cable and adapter provided or recommended by the manufacturer.

## 3. SETUP

---

### 3.1 Charging the Device

Before first use, fully charge the hair dryer. The device features a 15000mAh lithium battery and supports USB and Type-C charging. Connect the provided charging cable to the hair dryer's charging port and plug the other end into a compatible USB power adapter or power bank. A full charge typically takes approximately 4 hours.

Image 3.1: Illustration of charging time (approx. 4 hours) and estimated usage durations for cold and hot air settings.

### 3.2 Attaching the Nozzle

The hair dryer comes with a magnetic nozzle. To attach, simply align the nozzle with the front air outlet of the hair dryer until it snaps into place magnetically. To remove, gently pull the nozzle away from the device.

## 4. OPERATING INSTRUCTIONS

---

### 4.1 Power On/Off

- To turn on: Long press the power button located on the handle.
- To turn off: Long press the power button again.

## 4.2 Adjusting Temperature and Wind Speed

The hair dryer features a clear display screen and multiple buttons for controlling settings:

- **Temperature Settings:** Press the temperature button (often indicated by a thermometer icon or 'heat' symbol) to cycle through three temperature levels: Cold Air, Warm Air, and Hot Air.
- **Wind Speed Settings:** Press the wind speed button (often indicated by a fan icon or 'wind' symbol) to cycle through three speed levels: Fine Wind, Soft Wind, and Strong Wind.

The display screen will show the current power level and selected settings, allowing for personalized use.

## 4.3 Blue Light Care Feature

This hair dryer incorporates a blue light feature designed to help reduce static electricity and promote smoother hair. This feature operates automatically during use.

# Blue light hydrated ions Tame the restlessness

Effectively reducing static electricity in the head and taming restlessness Make hair shine smoothly and last for a long time.

Image 4.2: Visual representation of the blue light hydrated ions feature, illustrating its effect on hair to reduce static and enhance smoothness.

## 5. MAINTENANCE

---

### 5.1 Cleaning

- Ensure the hair dryer is turned off and unplugged from any charging source before cleaning.
- Regularly clean the air inlet filter at the back of the hair dryer to prevent dust and hair buildup, which can affect performance. Use a soft brush or cloth to gently remove debris.
- Wipe the exterior of the hair dryer with a soft, damp cloth. Do not use abrasive cleaners or immerse the device in water.

### 5.2 Storage

Store the hair dryer in a cool, dry place away from direct sunlight and moisture. Ensure the charging cable is not tightly wrapped around the device to prevent damage.

## 6. TROUBLESHOOTING

---

If you encounter any issues with your Vikye Cordless Hair Dryer, please refer to the following troubleshooting guide:

Problem	Possible Cause	Solution
Device does not turn on.	Battery is depleted. Device is not charged.	Ensure the device is fully charged using the provided USB/Type-C cable and a compatible power source.
Weak airflow or low power.	Air inlet/outlet is blocked. Battery is low.	Check and clean the air inlet filter. Recharge the battery.
Buttons are unresponsive or stuck.	Debris or manufacturing defect.	Gently clean around the buttons. If the issue persists, contact customer support.
Device is overheating.	Airflow is restricted. Prolonged use on high heat.	Ensure air inlet/outlet are clear. Allow the device to cool down before resuming use.
Charging takes too long or doesn't complete.	Faulty cable/adaptor. Insufficient power source.	Try a different USB/Type-C cable or power adapter. Ensure the power source provides adequate output.
