PETKIT PETKIT PUROBOT MAX PRO

PETKIT Purobot Max Pro AI-Camera Self Cleaning Cat Litter Box

Model: PETKIT PUROBOT MAX PRO

Brand: PETKIT

INTRODUCTION

The PETKIT Purobot Max Pro is an advanced self-cleaning cat litter box designed to simplify pet care and enhance cat well-being monitoring. Featuring AI-powered camera technology and smart app control, it offers a hygienic and convenient solution for multi-cat households.

- **AI-Powered Camera:** High-resolution camera with 210° wide viewing angle and IR night vision for real-time monitoring and health data collection.
- **No-touch Semi-automatic Bag Sealing:** Hygienic waste disposal with a patented drawstring design.
- **Smart App Control:** Connects via 2.4 & 5GHz Wi-Fi for remote control, activity monitoring, and fecal condition alerts.
- **xSecure System:** High-precision sensors and anti-pinch structure ensure maximum safety for your pet.
- **Anti-leakage Design:** 360° sealed base and waterproof Oxford fabric litter mats prevent leaks and simplify cleaning.
- **Extra Large Capacity & Super Quiet:** 8L waste bin for up to 17 days of hands-free scooping, operating at a low noise level of 35-45 decibels.
- **Triple Odor Removal:** Sealed waste bin, N60 odor eliminator, and N50 2.0 odor eliminator neutralize odors effectively.

SETUP GUIDE

Included Components

Ensure all components are present before beginning setup:

- PETKIT PUROBOT MAX PRO Main Unit x1

- N50 Odor Eliminator x1
- Waste Bag x1
- N60 Odor Eliminator x1
- Quick Start Guide x1
- User Manual x1
- Adapter x1
- Litter Sifter P99023 x1
- Magnetic Litter Remover x1
- Breezy Smart Odor Eliminator x1
- Pet Odor Eliminator N50 2.0 x1
- Sticker Set x1
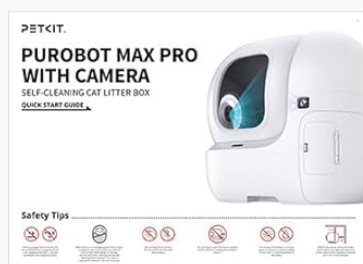

Figure 1: All components included with the PETKIT Purobot Max Pro.

Initial Setup

1. Place the main unit on a flat, hard surface.
2. Open the side compartment to access the waste bin.
3. Insert the provided waste bag into the bin, ensuring it is properly secured with the drawstring mechanism.
4. Install the N50 odor eliminator into its designated slot within the waste bin.
5. Close the waste bin compartment securely.
6. Open the magnetic side cover on the top of the unit.

7. Insert the N60 odor eliminator into its slot.

8. Close the magnetic side cover.

9. Connect the power adapter to the unit and plug it into a power outlet.

10. Download the PETKIT app from your smartphone's app store (available for iOS and Android).

11. Follow the in-app instructions to connect the litter box to your 2.4 & 5GHz Wi-Fi network.

12. Select your cat litter type (Clay/Ore, Tofu, or Mixed) within the app for optimized scooping.

13. Fill the litter box with your chosen cat litter, ensuring it does not exceed the MAX line indicated inside the drum.

OPERATING INSTRUCTIONS

AI-Powered Camera Features

The integrated AI camera provides comprehensive monitoring of your cat's litter box usage and health.

- **24/7 Live Stream:** Access a real-time video feed of the litter box via the PETKIT app.
- **Cat Facial Recognition:** The AI identifies individual cats in multi-cat households, tracking their unique data.
- **Health Monitoring:** The camera captures images of fecal matter after each cleaning, allowing the app to detect abnormalities in color or size, aiding in early health detection.
- **Night Vision:** Infrared night vision ensures clear visibility even in low-light conditions.

ALL-IN-ONE SMART APP CONTROL

Auto-scooping Modes **Deodorization Settings** **One-way Meow Audio**

**Smart Fill Light** **Device Status Check** **Pop-up Notifications**

Figure 5: Comprehensive control via the PETKIT app.

Cleaning Cycles

The litter box offers various cleaning modes for optimal hygiene:

- **Auto-scooping:** Automatically cleans after your pet leaves the litter box.
- **Delayed Cleaning:** Set a time interval before cleaning starts to ensure your cat has left the box.
- **Deep Cleaning:** Initiates a thorough cleaning cycle to remove waste residue.
- **Litter-saving Mode:** Adjusts cleaning frequency to conserve litter.

Odor Control

The Purobot Max Pro employs a triple odor removal system:

- **Sealed Waste Bin:** Prevents unpleasant odors from escaping.
- **N60 Odor Eliminator:** Provides 45-day cylinder deodorization with smart fragrance diffusion.
- **N50 2.0 Odor Eliminator:** Effectively neutralizes 98% of ammonia from cat waste.

EFFICIENT TRIPLE ODOR CONTROL

1 45 days cylinder deodorization with smart fragrance diffusion

2 98%* ammonia neutralization for waste bin odor control

3 Odor-trapping sealed waste bin

*Testing was conducted by accredited third-party organizations.

Figure 6: Illustration of the triple odor control system.

Safety Features

The xSecure System ensures your cat's safety during operation:

- **High Precision Sensors:** The cylinder stops immediately upon pet proximity.
- **Anti-Pinch Design:** The entrance remains open at all times to prevent cats from getting stuck.

SAFETY PROTECTION FOR EVERY VISIT

Patented Anti-pinch Design

12 Sensors for Maximum Safety

Figure 7: Visual representation of the safety mechanisms.

Capacity & Quiet Operation

- **8L Waste Bin:** Provides up to 17 days of hands-free scooping for one cat.
- **Ultra-quiet:** Operates at 35-45 decibels, ensuring minimal disturbance.
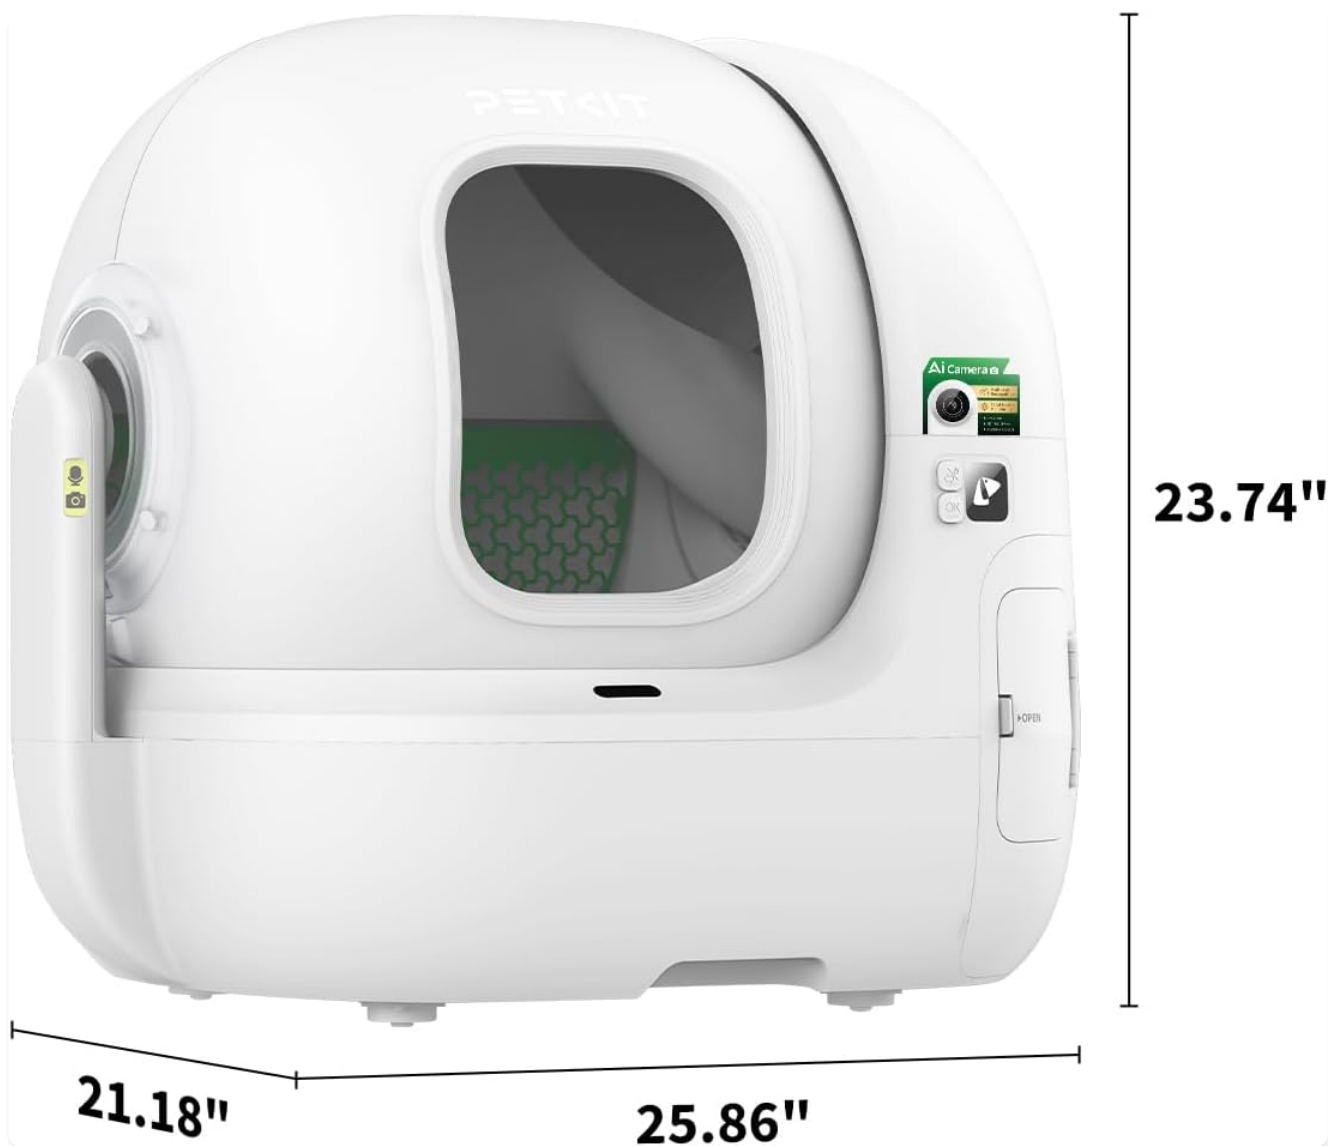

Figure 8: Contactless drawstring waste packing for easy disposal.

Litter Compatibility

The PUROBOT MAX PRO is compatible with all types of clumping cat litters.

- Includes two replaceable sifters for large and finer particles of cat litter.

MAINTENANCE

Cleaning the Unit

- The new upgraded drum features a 360° sealed base for leak-proof and seamless maintenance.
- Upgraded litter mats are made of waterproof Oxford fabric, which is anti-scratch, anti-sticking, and anti-leakage, making them easy to clean and replace.
- For deep cleaning, remove the drum and wipe down all surfaces.

Odor Eliminator Replacement

The N60 and N50 2.0 odor eliminators should be replaced periodically to maintain optimal odor control. Check the PETKIT app for remaining days.

Litter Refilling and Emptying

- **Easy Refilling:** In maintenance mode, the drum rotates upward for effortless litter refilling.
- **One-click Litter Emptying:** Empty the remaining cat litter in the cylinder instantly with one click via the app or control panel.

TROUBLESHOOTING

- **"Pet in toilet, deodorization canceled" or unit not cleaning:** The unit's safety sensors detect the cat's presence. Ensure the cat has left the box before initiating cleaning cycles. For kittens, enable "Kitten Protection" in the app to disable automatic cleaning and require manual initiation for safety.

- **Live camera feed does not work / Loading Timeout:** Ensure the unit is properly connected to your 2.4 & 5GHz Wi-Fi network. Check your internet connection. If the issue persists, try restarting the unit and the app.

- **Litter sticking to the drum or not fully cleaning:** Ensure you are using compatible clumping litter. Adjust the litter level to below the MAX line. For persistent issues, consider enabling "Waste Covering" in the app settings.

- **Foul odors despite odor eliminators:** Check if the waste bin is sealed properly. Verify that the N60 and N50 2.0 odor eliminators are correctly installed and have not expired. Replace them if necessary.

- **Unit not recognizing cat or inaccurate weight tracking:** Ensure the AI camera lens is clean and unobstructed. For multi-cat households, ensure each cat has a clear frontal photo uploaded for facial recognition in the app.

- **Unit delivered with damage:** If your unit arrived damaged, do not proceed with setup. Contact PETKIT customer support immediately for assistance with replacement or repair.

- **General Safety:** This product is suitable for cats weighing 3.3 lbs to 17.6 lbs and older than 6 months. Always follow the instructions provided in the user manual to prevent accidental injury.

SPECIFICATIONS

Attribute	Value
