2. SAFETY INFORMATION

Please observe the following safety precautions to prevent injury or damage to the product:

- Keep all small parts and packaging materials away from children.
- Ensure all connections are secure before using the headboard.
- Do not overload the power outlets or USB ports.
- Avoid exposing the electrical components to moisture.
- Use only the provided hardware for assembly.
- Do not stand or climb on the headboard.
- Periodically check all screws and connections for tightness.

3. SETUP & ASSEMBLY

Assembly of the Aheaplus Queen Size Headboard requires careful attention to detail. All necessary tools, hardware, and clear instructions with labeled parts are included in the package. It is recommended to have a second person assist with assembly.

3.1. Package Contents

Verify that all components listed in the instruction manual are present before beginning assembly. If any parts are missing or damaged, contact customer support.

3.2. Assembly Steps

1. Unpack all components and lay them out on a clean, soft surface to prevent scratches.
2. Follow the step-by-step pictorial instructions provided in the included manual. Pay close attention to the orientation of parts.
3. Securely fasten all screws and connectors. Avoid overtightening.
4. Attach the bed frame adapters to the headboard. These adjustable connectors are designed to fit various bed frame sizes and styles.
5. Position the headboard against the wall or attach it to your bed frame using the provided connectors.

4.3. Storage Shelves

The headboard includes practical 2-tier storage shelves with rounded corners for safety. These shelves are ideal for organizing items such as phones, glasses, alarm clocks, books, and small decorative items.

- Place items securely on the shelves.
- Avoid placing excessively heavy objects on the shelves to prevent damage.

5. MAINTENANCE

To ensure the longevity and appearance of your Aheaplus Headboard, follow these maintenance guidelines:

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners that may damage the finish.
- **Dusting:** Regularly dust the shelves and frame to prevent buildup.
- **Inspections:** Periodically check all screws and connections to ensure they remain tight. Retighten if necessary.

- **Electrical Components:** Keep the power outlets, USB ports, and LED lights free from dust and debris. Do not attempt to repair electrical components yourself.

6. TROUBLESHOOTING

If you encounter any issues with your headboard, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Headboard is wobbly or noisy.	Loose connections or improper assembly.	Ensure all screws and connectors are securely tightened. Review assembly steps.
LED lights are not working.	Power cord not plugged in, remote battery low, or app connection issue.	Check if the main power cord is securely plugged into a working outlet. Replace remote battery. Ensure the app is correctly paired.
Power outlets/USB ports not charging.	Headboard not powered, overloaded circuit, or faulty device cable.	Verify the headboard is plugged in. Reduce the number of devices connected. Test with a different charging cable or device.
Items fall behind the lower shelves.	Open design of the shelves.	This is a design characteristic. Consider adding a custom backing or using storage bins to prevent items from falling.
Remote control functions are limited.	Some advanced features are app-exclusive.	For full functionality, including specific color combinations and advanced timer settings, use the dedicated smartphone application.
