Shocknshop W347 Digital LED Kids Watch Instruction Manual

Model: W347

INTRODUCTION

This manual provides instructions for the setup, operation, and maintenance of your Shocknshop W347 Digital LED Kids Watch. Please read this manual thoroughly before using the watch to ensure proper function and longevity.

SETUP

1. Adjusting the Wristband

The watch features an adjustable silicone wristband designed for a comfortable and secure fit for children aged 3-12 years. To adjust, locate the buckle and adjust the strap length to fit the wearer's wrist snugly but without discomfort.

OPERATING INSTRUCTIONS

The Shocknshop W347 Digital LED Kids Watch is equipped with several functions for ease of use.

Time Display and Setting

The watch features a bright digital display that clearly shows the time and day. Specific instructions for setting the time are typically found on the watch itself or require pressing specific buttons in sequence. Refer to the button labels (MODE, LIGHT, START, RESET) for navigation.

Luminous Display

Easier To See The Time In The Dark

Luminous Light Function

For visibility in low-light conditions, the watch includes a luminous light feature. Press the **LIGHT** button to activate the

backlight, making the display easier to read in the dark.

Image: The watch display illuminated, indicating the "One-touch Open Luminous Mode" for easy viewing in the dark.

Additional Functions

- **Chronograph:** Use the **START** and **RESET** buttons for stopwatch functionality.
- **Mode Selection:** The **MODE** button cycles through different display modes (e.g., time, date, alarm if available).

MAINTENANCE

Water Resistance

This watch is **30 M Waterproof Resistant**. This means it is suitable for daily use, splashes, rain, and brief immersion in water. It is not recommended for swimming, diving, or prolonged water activities. Do not press any buttons while the watch is wet.

Cleaning

Clean the watch with a soft, damp cloth. Avoid using harsh chemicals or abrasive materials, as these can damage the silicone strap or the watch face.

Battery Life

The watch is designed for a long battery life, typically around 2 years. When the display dims or functions become erratic, it may be time for a battery replacement by a qualified technician.

TROUBLESHOOTING

| Problem | Solution |
|---------------------------|---|
| Display is dim or blank. | The battery may be low or depleted. Consider battery replacement. |
| Time is incorrect. | Refer to the "Time Display and Setting" section to reset the time. |
| Buttons are unresponsive. | Ensure the watch is dry. If the issue persists, contact customer support. |
