2. PACKAGE CONTENTS

Please check the package for the following items:

- BoxWave SlimKeys Bluetooth Keyboard
- Charging Cable (USB)
- User Manual (this document)

3. SETUP

3.1 Charging the Keyboard

Before initial use, fully charge the keyboard. Connect the provided USB charging cable to the keyboard's charging port and to a USB power source. The charging indicator light will illuminate during charging and turn off when fully charged.

Specialized Function Keys for Quick and Convenient Access

Image 3.1: The keyboard connected to its charging cable.

To conserve battery life, use the built-in ON/OFF switch when the keyboard is not in use. The keyboard features an energy-efficient Bluetooth 3.0 design to reduce power drain.

3.2 Pairing with Your Device

1. Ensure the keyboard is charged and powered on using the ON/OFF switch located on the top right.
2. Press the **Connect** button on the keyboard. The Bluetooth indicator light will begin to flash, indicating it is in pairing mode.
3. On your device (e.g., Infinix Xpad, tablet, smartphone, computer), navigate to the Bluetooth settings.
4. Enable Bluetooth on your device and search for available devices.
5. Select "**SlimKeys Keyboard**" or a similar name from the list of found devices.
6. Follow any on-screen prompts to complete the pairing process. A successful connection will be indicated by the Bluetooth light on the keyboard turning solid or off, depending on the model.

The SlimKeys keyboard utilizes Bluetooth 3.0 for quick and reliable pairing across various operating systems, including Android, Windows, and iOS.

4. OPERATION

4.1 General Use

The SlimKeys Bluetooth Keyboard provides a full QWERTY layout with chiclet-style keys for comfortable and efficient typing. Its compact and lightweight design makes it suitable for travel and on-the-go productivity.

4.2 Specialized Function Keys

The keyboard includes specialized function keys (F1-F12) that provide quick access to common commands. These functions may vary slightly depending on your device's operating system.

Specialized Function Keys

Image 4.2: Overview of specialized function keys.

- **Esc (Home):** Returns to home screen.
- **F1 (Search):** Opens search function.
- **F2 (Select All):** Selects all content.
- **F3 (Copy):** Copies selected content.
- **F4 (Paste):** Pastes copied content.
- **F5 (Cut):** Cuts selected content.
- **F6 (Skip Back):** Skips to previous track.
- **F7 (Play/Pause):** Plays or pauses media.
- **F8 (Skip Forward):** Skips to next track.
- **F9 (Volume Down):** Decreases volume.
- **F10 (Volume Up):** Increases volume.
- **F11 (Brightness Down):** Decreases screen brightness.
- **F12 (Brightness Up):** Increases screen brightness.
- **Delete (Lock):** Locks the device.

To activate these functions, press the corresponding F-key. Some functions may require pressing the **Fn** key simultaneously, depending on your device's operating system and settings.

5. MAINTENANCE

- **Cleaning:** Use a soft, dry, lint-free cloth to clean the keyboard. For stubborn dirt, slightly dampen the cloth with water or a mild electronics cleaner. Avoid excessive moisture.
- **Storage:** When not in use for extended periods, store the keyboard in a cool, dry place. Ensure the keyboard is powered off to preserve battery life.
- **Battery Care:** Avoid fully discharging the battery frequently. Charge the keyboard regularly, even if not in constant use, to maintain battery health.
- **Avoid Liquids:** Keep the keyboard away from liquids to prevent damage to internal components.
- **Avoid Extreme Temperatures:** Do not expose the keyboard to extreme heat or cold, as this can affect battery performance and overall functionality.

6. TROUBLESHOOTING

6.1 Keyboard Not Connecting/Pairing

- **Check Power:** Ensure the keyboard is powered on and has sufficient battery charge.
- **Re-enable Bluetooth:** Turn off and then turn on Bluetooth on your device.
- **Re-pair:** Go to your device's Bluetooth settings, forget or unpair the "SlimKeys Keyboard" if it's listed, then repeat the pairing steps (Section 3.2).
- **Distance:** Ensure the keyboard is within the effective range of your device (typically up to 10 meters or 33 feet).
- **Interference:** Move away from other wireless devices that might cause interference.
- **Restart Devices:** Restart both your device and the keyboard.

6.2 Keys Not Responding

- **Battery Level:** Check if the keyboard battery is low. Charge the keyboard if necessary.
- **Connection:** Verify that the keyboard is still connected via Bluetooth to your device.
- **Clean Keys:** Ensure no debris is lodged under the keys.
- **Restart:** Turn the keyboard off and on again.

6.3 Lag or Delayed Input

- **Battery Level:** Low battery can sometimes affect performance.
- **Distance/Interference:** Reduce distance to the device and minimize potential interference sources.
- **Device Performance:** Ensure your connected device is not under heavy load, which could affect Bluetooth responsiveness.
