Setup

1. Charging the Device

Before initial use, fully charge your CUBOT C29 Smart Watch. Connect the magnetic charging cable to the charging points on the back of the watch and plug the USB end into a standard USB power adapter (not included) or a computer's USB port.

- **Battery Capacity:** 410mAh
- **Charging Time:** Approximately 2 hours for a full charge.
- **Battery Life:** 7-10 days of typical usage, up to 20-25 days standby time.

2. Downloading and Installing the App

The CUBOT C29 Smart Watch requires the "Dafit" app for full functionality and data synchronization. Search for "Dafit" in your device's app store (Google Play Store for Android, Apple App Store for iOS) and install it.

- **Android Compatibility:** OS version 6.0 and above.
- **iOS Compatibility:** OS version 9.0 and above.

3. Pairing with Your Smartphone

1. Ensure Bluetooth is enabled on your smartphone.
2. Open the "Dafit" app.
3. Follow the in-app instructions to search for and connect to your CUBOT C29 Smart Watch. The watch will typically appear as "C29" or a similar identifier.
4. Confirm the pairing request on both your watch and smartphone.

Operating the Smart Watch

Basic Navigation

- **Touch Screen:** Swipe left/right, up/down to navigate through menus and features. Tap to select.
- **Side Buttons:** The watch features multiple side buttons for quick access to functions like power, sport modes, and general navigation. Refer to the watch's on-screen prompts for specific button functionalities.

Key Features and Functions

The CUBOT C29 offers a wide range of features to enhance your daily life and fitness tracking:

- **High-Resolution TFT Screen:** 1.52-inch round screen with 360x360 resolution. Customize watch faces via the app.
- **Bluetooth Calling & Notifications:** Make and receive calls directly from your wrist using the built-in speaker and microphone. Receive notifications for calls, messages, and app alerts.
- **100+ Sports Modes:** Track various indoor and outdoor activities including walking, running, cycling, swimming, basketball, football, and more. Monitors distance, heart rate, steps, and calories.
- **Advanced Health Tracking:**
  - 24-hour Heart Rate Monitoring (VC30F-S sensor)
  - Real-time Blood Oxygen (SpO2) Levels
  - Sleep Duration and Quality Monitoring
  - Stress Level Detection
  - Pedometer (LIS2D0CTR-LGA12 G-Sensor)
- **AI Voice Assistant:** Interact with your watch using voice commands for various tasks.
- **Music Control:** Control music playback on your connected smartphone.
- **Remote Photography:** Use your watch as a remote shutter for your phone's camera.
- **Weather Information:** Get real-time weather updates.

- **Additional Functions:** Breathing training, decompression and sleep aid, timer, alarm clock, stopwatch, physiological cycle tracking, find mobile phone, calculator, do not disturb mode, power saving mode, raise wrist to wake, brightness adjustment, sound mode, vibration adjustment, dial switching, menu style switching, exercise goal setting, smart stacking, control center customization, touch pad, world clock, always on display, business card, smart drainage, off-wrist locking.

Maintenance

Cleaning Your Smart Watch

Regular cleaning helps maintain the watch's appearance and functionality.

- Wipe the screen and body with a soft, lint-free cloth.
- For stubborn dirt, dampen the cloth slightly with water. Avoid using harsh chemicals or abrasive materials.
- Clean the charging contacts periodically to ensure efficient charging.

Water Resistance

The CUBOT C29 has a **1 ATM waterproof rating**. This means it can handle splashes, rain, and brief immersion in shallow water. It is suitable for daily use and light water activities. However, it is *not recommended* for showering with hot water, diving, or high-pressure water activities.

Storage

When not in use for extended periods, store the watch in a cool, dry place away from direct sunlight and extreme temperatures.

Troubleshooting

Problem	Possible Cause	Solution
Watch does not turn on.	Low battery.	Charge the watch for at least 30 minutes.
Cannot pair with smartphone.	Bluetooth off; App not running; Watch not discoverable.	Ensure Bluetooth is on. Restart the Dafit app. Restart the watch. Try pairing again.
Inaccurate health data.	Watch not worn correctly; Sensor obstruction.	Ensure the watch is snug on your wrist. Clean the sensors on the back of the watch.
Notifications not received.	App permissions not granted; Do Not Disturb mode active.	Check app notification permissions on your phone. Disable Do Not Disturb mode on the watch or phone.

If you encounter issues not listed here, please refer to the "Support" section for further assistance.
