## 4. SETUP & INSTALLATION

Installation should ideally be performed by a qualified professional. If you choose to install it yourself, ensure the vehicle's battery is disconnected before starting. Refer to the wiring diagram provided in Section 2.2 and the included user manual for specific wiring instructions.

### 4.1 General Installation Steps

- Preparation:** Disconnect the negative terminal of your car battery.
- Remove Old Unit:** Carefully remove your existing car radio and trim.
- Connect Wiring:** Connect the provided power cable, RCA cable, GPS antenna, and CanBus decoder to the new head unit and your vehicle's harness. Ensure all connections are secure.
- Backup Camera:** Install the backup camera at the rear of your vehicle and route its cable to the head unit's reverse input.
- Test Connections:** Before fully mounting, reconnect the battery and perform a basic test of the unit's functions (power, audio, touch screen, camera).
- Mount Unit:** Securely mount the new head unit into the dashboard.

7. **Final Assembly:** Reinstall any removed trim pieces.

## 5. OPERATING INSTRUCTIONS

### 5.1 Wireless CarPlay & Android Auto

The unit supports wireless Apple CarPlay and Android Auto for seamless smartphone integration.

1. Ensure your phone's Bluetooth and Wi-Fi are enabled.
2. On the head unit, navigate to the CarPlay or Android Auto application.
3. Follow the on-screen prompts to pair your smartphone via Bluetooth.
4. Once paired, the system will automatically connect via Wi-Fi for wireless CarPlay/Android Auto functionality.

This allows access to navigation, calls, messages, and music directly from your phone's interface on the car radio screen.

Image: Wireless Apple CarPlay and Android Auto interfaces with voice control examples.

### 5.2 GPS Navigation & WiFi Connectivity

The unit features a built-in GPS receiver and supports both online and offline navigation.

- **Online Navigation:** Connect the unit to a Wi-Fi network (e.g., via mobile hotspot) to use online mapping applications like Google Maps or Waze.
- **Offline Navigation:** Pre-loaded offline map files are available. You can also download additional offline maps as needed.
- **WiFi:** Connect to a Wi-Fi network to download apps, browse the internet, and access online services.

## Support On-line & Off-line GPS Navigation

---

## Wifi Connection

Connected the network via mobilephone hotspot or wifi device

- Online surfing
- Download APP
- On-line Navigation

Image: GPS navigation interface and WiFi connectivity options.

### 5.3 Bluetooth Functions

Connect your smartphone via Bluetooth for hands-free calling and music playback.

- **Hands-Free Calling:** Pair your phone to make and receive calls directly from the head unit. The address book can be synchronized.
- **Music Playback:** Stream audio from your phone to the car stereo.

Image: Bluetooth calling and music streaming features.

## 5.4 MirrorLink

MirrorLink allows you to display your smartphone's screen on the head unit.

- **iOS Devices:** Supports wireless connection.
- **Android Devices:** Supports wireless or wired (USB) connection.

This feature enables access to your phone's apps, music, and videos on the larger display.

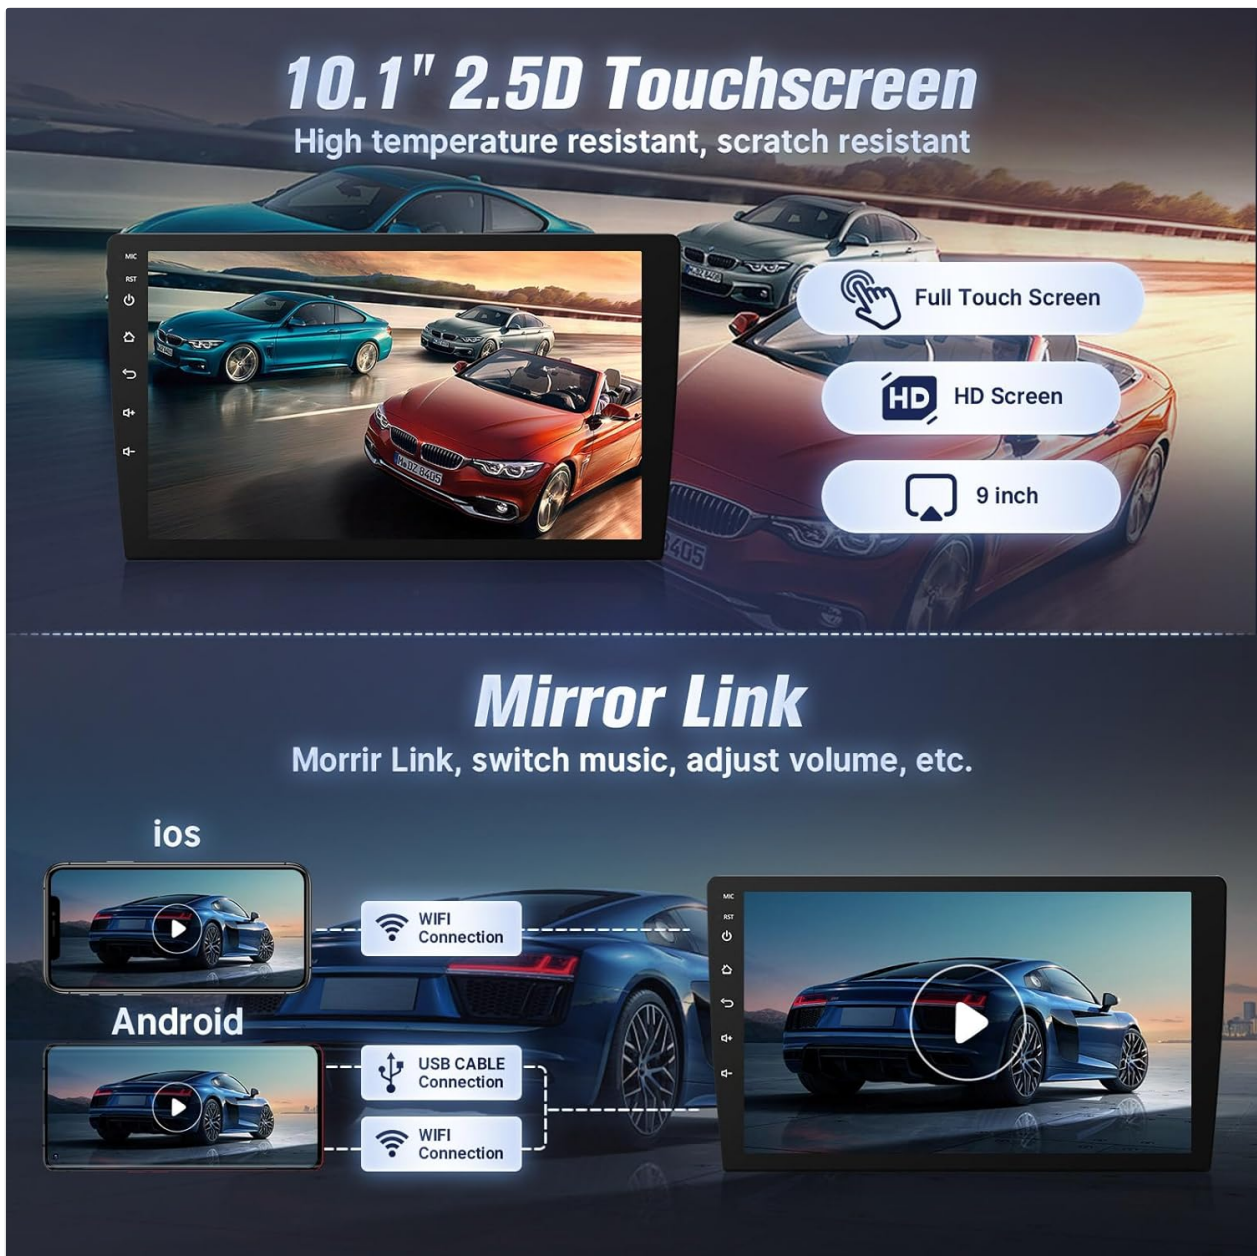

Image: MirrorLink functionality for iOS and Android devices.

## 5.5 Steering Wheel Control

The unit supports existing steering wheel controls for convenient operation.

- Program the steering wheel buttons to control functions such as volume adjustment, track changes, and answering/ending calls.
- This enhances driving safety by keeping your hands on the wheel.

### Backup Camera Support

Make easier for ypur parking

### Powerful DSP

Enjoy the Ultimate Audio Experience

### Steering Wheel

Steering wheel button control more concenient and safe

Image: Steering wheel control integration for safer operation.

## 5.6 EQ Settings & FM Radio

- **EQ Settings:** Customize your audio experience with the built-in equalizer, supporting various sound effects.
- **FM Radio:** Enjoy your favorite radio stations with clear FM reception.

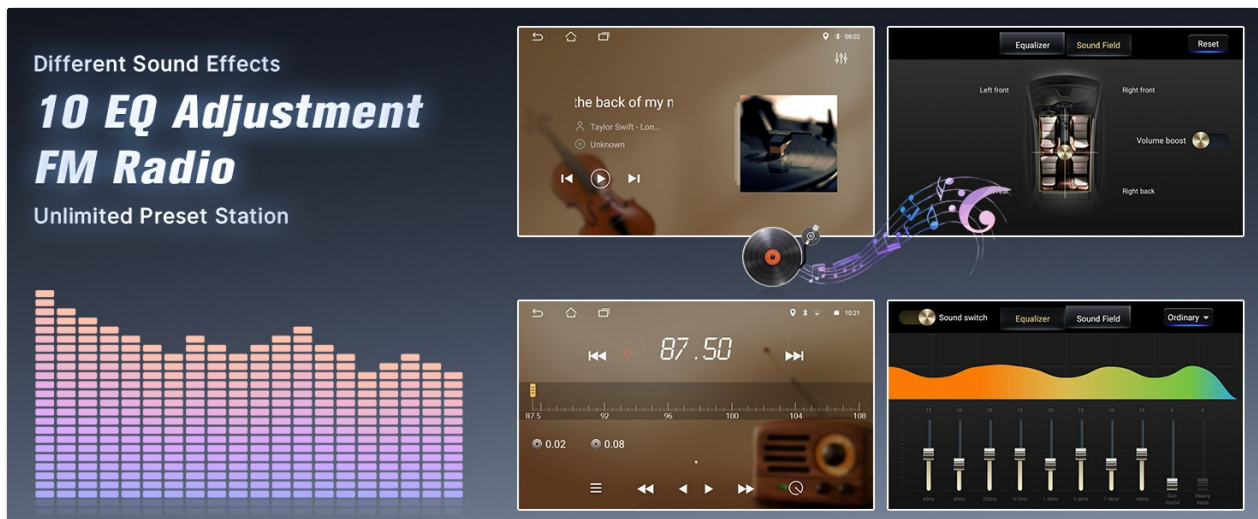

Image: EQ sound adjustment and FM radio interface.

## 5.7 Split-Screen Mode

The split-screen feature allows you to run two applications simultaneously on the display.

- For example, you can use navigation on one side while playing music or browsing on the other.

## Voice Control & Hands Free

Support bluetooth hands-free phone call, phone-book download & bluetooth music.

## Split-Screen Mode

Now you can switch apps and run two apps on-screen side by side. So go ahead listening to music in Spotify while navigating. Or making phone calls with your browser open.

Image: Split-screen mode in action, showing two applications running concurrently.

### 5.8 Backup Camera

A waterproof AHD rear view camera with night vision is included to assist with parking.

- When the vehicle is shifted into reverse, the display will automatically switch to the camera view.

## 6. MAINTENANCE

- **Screen Cleaning:** Use a soft, lint-free cloth to clean the touchscreen. Avoid abrasive cleaners or solvents.
- **Software Updates:** Periodically check for software updates to ensure optimal performance and access to new features. Updates can typically be downloaded via Wi-Fi.
- **General Care:** Avoid exposing the unit to extreme temperatures or direct sunlight for prolonged periods.

## 7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Unit does not power on	Incorrect wiring, blown fuse, vehicle battery issue	Check power connections, inspect vehicle fuses, ensure battery is charged.
No sound	Volume too low, incorrect audio settings, speaker wiring issue	Increase volume, check EQ settings, verify speaker connections.
Touchscreen unresponsive	Software glitch, screen protector interference	Restart the unit. If a screen protector is installed, ensure it is properly applied.
CarPlay/Android Auto not connecting	Bluetooth/Wi-Fi off, phone compatibility, app issues	Ensure phone's Bluetooth/Wi-Fi is on. Restart phone and head unit. Check phone's compatibility with CarPlay/Android Auto.
Backup camera not displaying	Incorrect wiring, camera malfunction	Verify camera power and video signal connections. Ensure reverse trigger wire is correctly connected.

For further assistance, refer to the support section.
