Laffizz Single Jet Flame Refillable Butane Lighters (2-Pack)

Instruction Manual

1. INTRODUCTION

Thank you for choosing the Laffizz Single Jet Flame Refillable Butane Lighters. This manual provides essential information for the safe and effective use of your new lighters. Please read it thoroughly before operation and retain it for future reference.

2. SAFETY INFORMATION

WARNING: Keep out of reach of children. This product contains flammable gas under pressure.

- Do not expose to heat above 122°F (50°C) or prolonged sunlight.
- Do not puncture or incinerate the lighter.
- Ensure the flame is completely extinguished after each use.
- Use only high-quality butane fuel for refilling. Inferior fuel may cause malfunction or damage.
- Do not attempt to repair or modify the lighter. Contact customer support if assistance is needed.
- Avoid direct contact with skin or clothing when the lighter is lit.
- Do not keep the flame lit for more than 10 seconds continuously to prevent overheating.
- Refill the lighter in a well-ventilated area, away from any open flames, sparks, or other ignition sources.
- Always check for gas leaks after refilling.

3. PRODUCT OVERVIEW

The Laffizz Single Jet Flame Lighters are designed for reliability and ease of use, featuring a robust construction and an ergonomic design.

Key Features:

- **Single Jet Flame:** Provides a concentrated, windproof blue flame for efficient ignition.
- **Durable Construction:** Features a zinc alloy top and a thick ABS rubber body for enhanced durability and a comfortable grip.
- **Visible Fuel Tank:** A U-shaped transparent tank allows for easy monitoring of butane levels.
- **Refillable & Adjustable:** Designed for refilling with butane gas and includes an adjustable flame regulator.
- **Simple Ignition:** Single-action trigger for quick and easy lighting.

Image: The U-shaped visible gas tank, allowing users to easily monitor the butane fuel level. It has a capacity of approximately 8.0g.

4. SETUP: BUTANE REFILLING INSTRUCTIONS

Your Laffizz lighters are shipped without fuel for safety reasons. Please follow these steps carefully to refill your lighter with butane gas.

1. **Prepare Butane:** Choose a high-quality butane gas can that features a long universal filling tip. Ensure the butane is clean and free of impurities.
2. **Release Air:** Before refilling, invert the lighter and use a small tool (like a screwdriver) to press the filling valve to release any residual air from the tank. This prevents air pockets that can hinder proper filling.
3. **Refill:** Invert the lighter and firmly insert the butane gas can's filling tip into the lighter's filling valve. Press down 3-4 times for a few seconds each time. You may hear a hissing sound, which is normal.
4. **Wait:** After refilling, allow the lighter to rest for at least 10 minutes before attempting to use it. This allows the butane to stabilize and reach room temperature.

Note: For safety and optimal performance, the tank can accept only about 85% of its maximum butane capacity. Overfilling may cause butane splatter or leakage.

Image: Visual guide for the butane refilling process, from selecting the correct butane can to waiting after filling.

5. OPERATING INSTRUCTIONS

Ignition:

To ignite the lighter, simply press the ignition trigger with your thumb. The single jet flame will appear. Release the trigger to extinguish the flame.

Flame Adjustment:

The flame regulator is located on the bottom of the lighter, in the outer ring of the fuel refilling port. Use a small flat-head screwdriver or a similar tool to turn the regulator:

- Turn towards the '+' symbol to increase the flame size.
- Turn towards the '-' symbol to decrease the flame size.

Adjust the flame to your desired length and intensity. A stable blue flame is ideal for most applications.

6. MAINTENANCE

- **Cleaning:** Regularly wipe the exterior of the lighter with a soft, dry cloth to remove dust and debris. Avoid using abrasive cleaners or solvents.
- **Nozzle Care:** Keep the burner nozzle clean and free from obstructions. If debris accumulates, gently remove it with a soft brush or compressed air.
- **Storage:** Store the lighter in a cool, dry place, away from direct sunlight and extreme temperatures. Ensure it is fully extinguished and depressurized before storage.

7. TROUBLESHOOTING

- **Lighter does not ignite:**
 - Check butane fuel level in the visible tank. Refill if low.
 - Ensure all air has been purged from the tank before refilling.
 - Adjust the flame regulator to a higher setting.
- **Flame is weak or inconsistent:**
 - Refill with fresh, high-quality butane.
 - Adjust the flame regulator to increase flame size.
 - Check for any obstructions in the burner nozzle.
- **Gas leaks after refilling:**
 - Ensure the butane can tip was properly seated during refilling.

- Avoid overfilling the tank.
- If leakage persists, discontinue use and contact customer support.

8. SPECIFICATIONS

Attribute	Detail
Brand	Laffizz
Model Number	B0DG253LBD
Color	Brown+black
Material	ABS rubber, Zinc alloy
Style	Modern
Item Weight	0.21 Pounds
Fuel Type	Liquefied Petroleum Gas (Butane)
Product Dimensions	3"L x 2"W x 0.8"Th
Number of Items	2
