## SETUP AND ASSEMBLY

Follow these steps for proper assembly. Adult assistance is recommended to ensure correct setup and enhance parent-child interaction.

1. Unpack all components from the box and verify against the package contents list.
2. Refer to the included instruction sheet for detailed visual guidance on connecting track pieces and structural elements.
3. Assemble the mountain structures and attach the dinosaur head feature.
4. Connect the various track sections, ensuring they snap securely into place to form a continuous path.
5. Attach any ramps, bridges, and decorative elements like signs and trees.

6. If your playset includes an electric ramp, install the required batteries (not included) as per the instructions.
7. Place the play mat on a flat surface and position the assembled track playset on top of it.
8. Apply the provided stickers to the designated areas on the track and play mat for enhanced realism.

## OPERATING INSTRUCTIONS

Once assembled, the NIPLOOOW Dinosaur Race Track Playset offers multiple interactive features:

- **Mini Racer Cars:** Place the included mini cars on the track. The cars operate via a push mechanism.
- **Electric Ramp (if applicable):** If your playset features an electric ramp, activate the switch to automatically transport cars to higher levels of the track.
- **Track Features:** Explore various track elements such as the Dinosaur Tunnel, Service Area, Hilltop Car Park, S-curves, and Tunnel Parking. Cars can navigate these sections, promoting visual tracking and hand-eye coordination.
- **Changing Track Direction:** Some track sections may allow for manual adjustment to

change the flow of traffic, offering varied play scenarios.

## MAINTENANCE

---

- **Cleaning:** Wipe the playset components with a damp cloth and mild soap. Do not immerse electronic parts (if any) in water.
- **Storage:** Store the playset in a cool, dry place away from direct sunlight when not in use. Disassemble if necessary for compact storage.
- **Battery Replacement:** If the electric ramp's performance diminishes, replace the batteries with new ones of the correct type and size.

## TROUBLESHOOTING

---

Problem	Possible Cause	Solution
Cars do not move smoothly.	Track pieces are not properly connected or are misaligned.	Check all track connections and ensure they are securely snapped together.
Electric ramp is not working.	Batteries are dead or incorrectly installed.	Replace batteries with new ones and ensure correct polarity. Check the power switch.
Track frequently comes apart.	Components are not fully engaged or excessive force is being applied during play.	Ensure all connections are firm. Supervise play to prevent rough handling.
