

Divoom Ditoo and Tiivoo-2

Divoom Ditoo and Tiivoo-2 Pixel Art Bluetooth Speaker User Manual

Model: Ditoo, Tiivoo-2

INTRODUCTION

This manual provides comprehensive instructions for the setup, operation, maintenance, and troubleshooting of your Divoom Ditoo and Tiivoo-2 Pixel Art Bluetooth Speakers. Please read this manual carefully before using your device to ensure optimal performance and longevity.

1. SETUP

1.1 Unboxing and Package Contents

Carefully unpack your Divoom speaker and verify that all components are present.

- Divoom Ditoo or Tiivoo-2 Speaker
- Power Cord
- Power Adapter
- User Manual (this document)

1.2 Powering On and Charging

Before first use, it is recommended to fully charge your speaker. Connect the provided power cord and adapter to the speaker's charging port and a power outlet. The charging indicator will show the charging status.

1.3 Bluetooth Pairing

1. Ensure your Divoom speaker is powered on.
2. Activate Bluetooth on your mobile device (smartphone, tablet, etc.).
3. Search for available Bluetooth devices.
4. Select "Divoom Ditoo" or "Divoom Tiivoo-2" from the list to pair.
5. A confirmation sound or message on the speaker's display will indicate successful pairing.

1.4 Divoom App Installation

To unlock the full potential of your Divoom speaker, download the official Divoom app. The app allows for pixel art creation, access to the pixel art community, advanced settings, and more.

- **For iOS devices:** Search for "Divoom" in the Apple App Store.
- **For Android devices:** Search for "Divoom" in the Google Play Store.

2. OPERATING INSTRUCTIONS

2.1 Basic Controls (Ditoo)

The Ditoo speaker features a retro keyboard and joystick for intuitive control.

Image: A close-up view of the Divoom Ditoo speaker, highlighting its mechanical keyboard-style buttons and joystick for interaction.

- **Power Button:** Press and hold to power on/off. Short press to switch display modes.
- **Joystick:** Navigate menus, adjust volume, or change tracks depending on the mode.
- **Keyboard Buttons:** Specific functions vary by mode (e.g., play/pause, next/previous track, confirm selection). Refer to the in-app guide for detailed button mappings.

2.2 Basic Controls (Tiivoo-2)

The Tiivoo-2 speaker features rotary knobs and buttons for control, resembling a vintage television.

Image: A close-up view of the Divoom Tiivoo-2 speaker, showing its two rotary knobs and central display, designed to resemble a retro TV.

- **Rotary Knobs:** Typically control volume, menu navigation, or FM radio tuning.
- **Buttons:** Power, play/pause, mode selection, etc.

2.3 Pixel Art Creation and Community

Utilize the Divoom app to design your own pixel art. You can draw images, create animations, and share them with a global community of over 1000 designers. Explore the gallery for inspiration and download existing pixel art to display on your speaker.

CREATE YOUR OWN PIXEL ART TO ENRICH YOUR LIFE

2.4 Music Playback

Once paired via Bluetooth, your Divoom speaker functions as a high-quality audio output device. Play music from your connected device, and control playback (play/pause, skip tracks, volume) using the speaker's physical controls or the Divoom app.

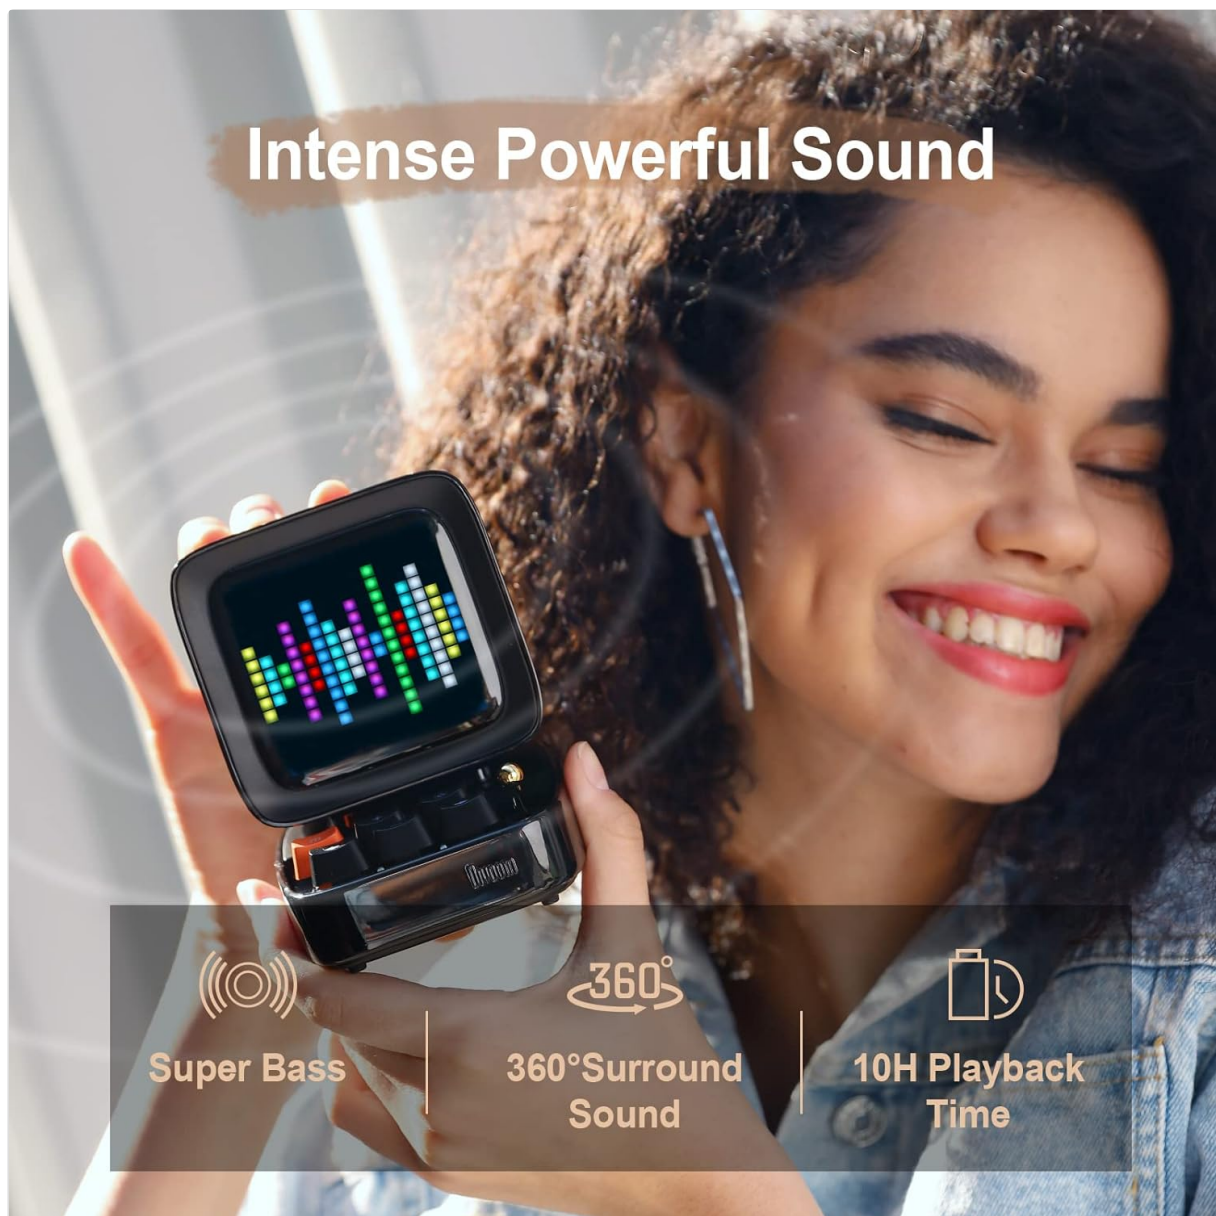

Image: A Divoom Ditoo speaker displaying an equalizer, with text overlays indicating "Super Bass," "360° Surround Sound," and "10H Playback Time," emphasizing its audio capabilities.

2.5 FM Radio (Tiivoo-2 Specific)

The Tiivoo-2 model includes an FM radio tuner. Extend the antenna for better reception. Use the rotary knobs to scan for and select FM stations. The current station frequency will be displayed on the screen.

2.6 Smart Alarm and Clock Functions

Your Divoom speaker can function as a smart alarm clock. Set alarms, customize alarm tones, and utilize built-in white noise features through the Divoom app to aid sleep or focus. The speaker can display time and weather conditions.

2.7 Social Media Notifications

Configure the Divoom app to receive visual notifications from your social media accounts directly on the speaker's display.

2.8 Pixel Games

The Divoom app offers a selection of pixel games that can be played directly on your speaker's display, providing entertainment and interaction.

2.9 Photo Album Casting

The Divoom app allows you to cast images from your photo album to the speaker's display, turning it into a digital photo frame for preserving moments.

3. MAINTENANCE

To ensure the longevity and optimal performance of your Divoom speaker, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry, lint-free cloth to clean the speaker's exterior. Avoid abrasive cleaners, solvents, or spray cleaners directly on the device.
- **Storage:** When not in use for extended periods, store the speaker in a cool, dry place away from direct sunlight and extreme temperatures.
- **Water Exposure:** The speaker is not waterproof. Avoid exposing it to water or high humidity.
- **Charging:** Use only the provided power cord and adapter.

4. TROUBLESHOOTING

If you encounter issues with your Divoom speaker, refer to the following common solutions:

- **Speaker not turning on:** Ensure the speaker is charged. Connect it to the power adapter and allow it

to charge for at least 30 minutes before attempting to power on again.

- **Cannot pair via Bluetooth:**

- Ensure Bluetooth is enabled on your mobile device and the speaker.
- Make sure the speaker is in pairing mode (usually indicated by a blinking Bluetooth icon on the display).
- Move your device closer to the speaker.
- Try unpairing and re-pairing the device.
- Restart both the speaker and your mobile device.

- **No sound or low volume:**

- Check the volume levels on both the speaker and your connected device.
- Ensure the speaker is properly paired and connected.
- Try playing audio from a different application or source.

- **App not connecting to speaker:**

- Ensure Bluetooth is active and the speaker is paired with your phone.
- Verify that the Divoom app has necessary permissions (e.g., location, Bluetooth).
- Restart the app and the speaker.

- **FM Radio reception poor (Tiivoo-2):**

- Extend the antenna fully.
- Try repositioning the speaker to improve signal reception.
- Scan for stations again.

If problems persist, contact Divoom customer support for further assistance.
