LOVMOR 421122X

LOVMOR 2 Tier Pull Out Cabinet Organizer

Model: 421122X

INTRODUCTION

This manual provides detailed instructions for the installation, operation, and maintenance of your LOVMOR 2 Tier Pull Out Cabinet Organizer. Please read this manual thoroughly before installation and retain it for future reference. This organizer is designed to enhance the accessibility and organization of your kitchen cabinets, providing a smooth and efficient storage solution.

PRODUCT FEATURES

- **Individual Pull-Out Shelves:** Both the upper and lower shelves can be pulled out independently for easy access to items.
- **High Load Capacity:** Designed to hold up to 100 lbs, suitable for heavy pots, pans, and other kitchen essentials.
- **Adjustable Height:** The upper shelf offers 3 height adjustment options, and the lower shelf offers 2 adjustment options, allowing customization for various item sizes.
- **Full-Extension Ball-Bearing System:** Ensures smooth, silent, and full extension of both shelves.
- **Durable Construction:** Made from stainless steel for long-lasting use and easy cleaning.

SAFETY INFORMATION

- Ensure the cabinet organizer is securely mounted to prevent tipping or instability.
- Do not exceed the maximum weight capacity of 100 lbs.
- Keep fingers clear of moving parts during operation to avoid pinching.
- Distribute weight evenly on the shelves to maintain balance and smooth operation.
- Always close the organizer completely when not in use to prevent accidental bumps.

INSTALLATION GUIDE

Package Contents:

- 2-Tier Pull Out Organizer Frame
- Mounting Hardware (screws, brackets)
- Installation Manual (this document)

Tools Required:

- Drill
- Phillips Head Screwdriver
- Measuring Tape
- Pencil

Installation Steps:

1. **Measure Your Cabinet:** Before beginning, measure the interior width, depth, and height of your cabinet. Ensure it meets the minimum requirements (12" W x 22" D x 16" H, excluding hinges).
2. **Assemble the Frame:** Attach the 4 rails to the main bracket of the organizer. Ensure all connections are secure.
3. **Position the Brackets:** Place the assembled frame inside your cabinet. Line up the brackets with the desired installation location. Use a pencil to mark the pilot holes for the screws.
4. **Drill Pilot Holes:** Carefully drill pilot holes at the marked locations.
5. **Secure the Frame:** Screw the frame securely into the cabinet floor and back wall using the provided hardware.
6. **Adjust Shelf Height (Optional):** If desired, adjust the height of the upper and lower baskets using the available adjustment holes on the stand.
7. **Insert Baskets:** Once the frame is securely mounted, embed the baskets onto the sliding mechanism. Ensure they snap into place.

OPERATION

To operate the LOVMOR 2 Tier Pull Out Cabinet Organizer, simply grasp the front of either the upper or lower basket and gently pull it outwards. The full-extension ball-bearing slides will allow the basket to glide smoothly and fully out of the cabinet, providing complete access to its contents. To close, push the basket back into the cabinet until it is fully retracted.

Image: The bottom shelf of the organizer extended, showing easy access to stored items.

You can pull out only the LOWER DRAWER or UPPER DRAWER

Image: Visual representation of how both the upper and lower shelves can be pulled out separately.

MAINTENANCE

- **Cleaning:** Wipe down the stainless steel surfaces with a soft, damp cloth and mild detergent. Avoid abrasive cleaners or scouring pads, which can damage the finish.
- **Lubrication:** Periodically check the ball-bearing slides for smooth operation. If they become stiff, apply a small amount of silicone-based lubricant to the tracks.
- **Inspection:** Regularly inspect all screws and connections to ensure they remain tight. Tighten any loose fasteners as needed.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Shelves do not slide smoothly.	Dirt or debris in tracks; lack of lubrication; uneven weight distribution.	Clean tracks thoroughly. Apply silicone lubricant. Redistribute items evenly.
Organizer feels wobbly or unstable.	Loose mounting screws; improper installation.	Check and tighten all mounting screws. Ensure the unit is installed on a flat, stable surface. Re-install if necessary following the guide.
Baskets are difficult to insert or remove.	Misalignment of baskets with slides; obstruction.	Ensure baskets are correctly aligned with the sliding mechanism. Check for any obstructions preventing smooth insertion.

WARRANTY AND SUPPORT

For warranty information or technical support, please refer to the contact details provided with your purchase documentation or visit the official LOVMOR website. Please have your model number (421122X) and purchase date available when contacting support.
