

LOVMOR 422162X

LOVMOR 2 Tier Individual Pull Out Cabinet Organizer 15½" W x 21½" D Instruction Manual

Model: 422162X

1. INTRODUCTION

Thank you for choosing the LOVMOR 2 Tier Individual Pull Out Cabinet Organizer. This manual provides essential information for the safe and efficient installation, operation, and maintenance of your new cabinet organizer. Please read these instructions thoroughly before beginning installation and retain them for future reference.

This organizer is designed to enhance accessibility and organization within your kitchen cabinets, making items stored at the back easily reachable.

2. SAFETY INFORMATION

Please observe the following safety precautions during installation and use:

- Always ensure the cabinet organizer is securely mounted to prevent tipping or instability.
- Do not exceed the maximum weight capacity of 100 pounds (45 kg) per organizer.
- Keep fingers clear of moving parts during operation to avoid pinching.
- Ensure all screws and fasteners are tightened properly. Periodically check for loose connections.
- Use appropriate tools for installation. Wear safety glasses if necessary.

3. PACKAGE CONTENTS

Verify that all components are present before beginning installation:

- 2 x Pull-Out Baskets (Upper and Lower)
- 1 x Frame Assembly with Full-Extension Ball-Bearing Slides

- 1 x Hardware Kit (Screws, Washers, etc.)
- 1 x Installation Template
- 1 x Instruction Manual

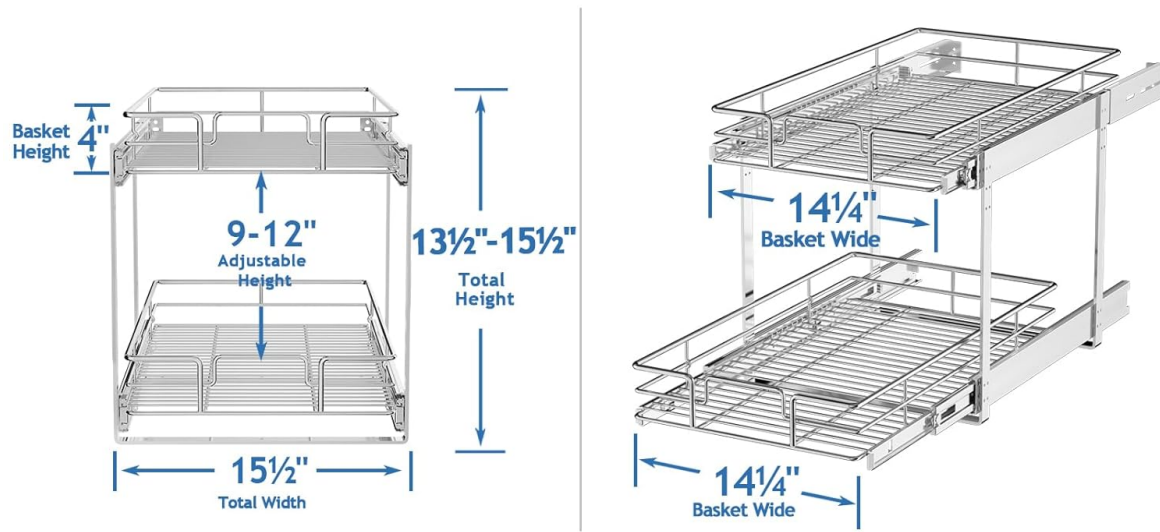

If any parts are missing or damaged, please contact customer support.

4. SPECIFICATIONS

Feature	Detail
Product Dimensions	15.5" W x 21.5" D x 15.3" H
Minimum Cabinet Opening Required	16" W x 22" D x 16" H (Do not include hinges in measurement)
Material	Stainless Steel
Weight Capacity	100 Pounds (45 kg)
Number of Tiers	2
Model Number	422162X
UPC	093337134081

Size Detail

**Note: Upper shelf has 3 height adjustment option,
lower shelf has 2 adjustment option**

FULL-EXTENSION

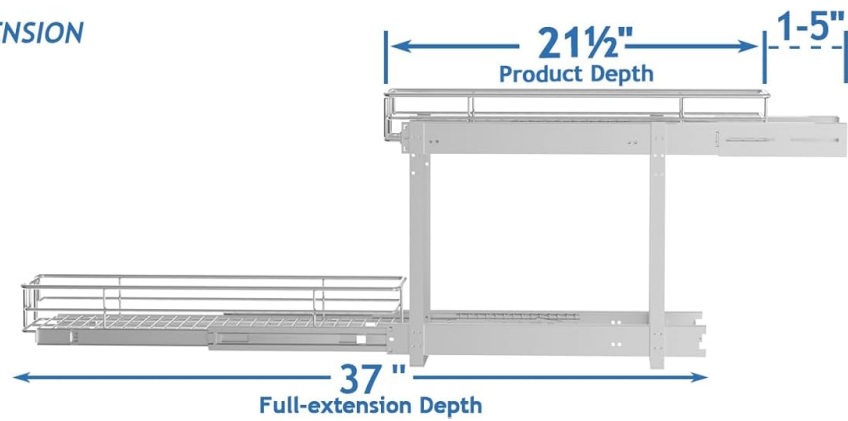

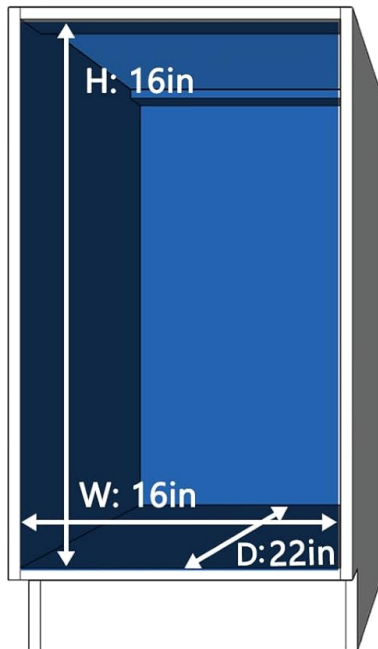

Image: Detailed dimensions of the pull-out organizer, showing total width, depth, height, and basket dimensions. The upper shelf has 3 height adjustment options, and the lower shelf has 2.

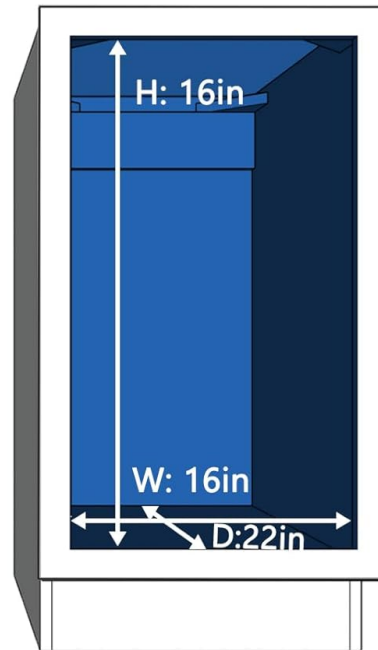

Fits Cabinet Size

**Recommended width and depth for cabinets
Please measure your cabinet size before purchasing**

FRAMELESS

FACE FRAME

Minimum cabinet interior width,depth and height required

Image: Diagram illustrating minimum cabinet interior width, depth, and height requirements for both frameless and face frame cabinets. Minimum dimensions are 16 inches wide, 22 inches deep, and 16 inches high.

5. SETUP AND INSTALLATION

Tools Required:

- Measuring Tape
- Pencil
- Drill with appropriate drill bit
- Phillips Head Screwdriver

Installation Steps:

1. **Measure Your Cabinet:** Ensure your cabinet meets the minimum dimensions specified in the Specifications section. Measure the interior width, depth, and height, taking care not to include hinges in the width measurement.
2. **Assemble the Frame:** Attach the four rails to the main frame assembly using the provided screws. Ensure they are securely fastened.
3. **Position the Template:** Place the installation template inside your cabinet at the desired location. Use a pencil to mark the screw holes for the base of the organizer.

4. **Drill Pilot Holes:** Carefully drill pilot holes at the marked locations. Ensure the drill bit size is appropriate for the screws to prevent splitting the wood.
5. **Secure the Base:** Align the organizer's base with the pilot holes and secure it to the cabinet floor using the provided screws. Tighten firmly.
6. **Install Baskets:** Slide the upper and lower baskets onto the full-extension ball-bearing slides. The baskets should click into place.
7. **Adjust Basket Height (Optional):** The upper and lower baskets have multiple height adjustment options. To adjust, remove the basket, reposition it to the desired height setting on the frame, and re-insert it until it locks securely.
8. **Test Operation:** Gently pull out and push in both baskets to ensure smooth operation. Check for any obstructions.

Image: The fully assembled LOVMOR 2 Tier Pull Out Cabinet Organizer, showcasing its two sliding baskets and sturdy frame.

Pulling out the upper or lower baskets separately.

The upper and lower baskets are set with two holes to adjust the height.

3-stage slide system for smooth and heavy loads.

Full Extension Ball Bearing System

Image: A diagram illustrating the height adjustment options for the upper and lower baskets, and a detailed view of the 3-stage full-extension ball-bearing slide system.

Image: A magnified view of the screw holes on the organizer's frame, indicating where fasteners are inserted for secure mounting.

Image: A close-up view of the smooth-gliding slide mechanism, highlighting its robust construction for heavy loads.

6. OPERATING INSTRUCTIONS

The LOVMOR 2 Tier Pull Out Cabinet Organizer is designed for simple and efficient use:

- **Loading Items:** Place items evenly across the baskets. Ensure taller items do not obstruct the upper basket or the cabinet door when closed.

- **Pulling Out Baskets:** Gently pull the desired basket forward until it fully extends. The full-extension slides allow complete access to items at the back.
- **Pushing In Baskets:** Push the basket back into the cabinet until it is fully recessed. Ensure it is completely closed before closing the cabinet door.
- **Individual Operation:** Both the upper and lower baskets can be pulled out independently, allowing access to one tier without disturbing the other.

Image: The pull-out organizer installed in a cabinet, showcasing a coffee maker on the upper shelf and a pot on the lower shelf, both easily accessible.

You can pull out only the LOWER DRAWER or UPPER DRAWER

Image: A visual demonstration of how each basket can be pulled out individually, providing flexible access to stored items.

7. MAINTENANCE

Regular maintenance ensures the longevity and smooth operation of your organizer:

- **Cleaning:** Wipe down the stainless steel baskets and frame with a soft, damp cloth and mild detergent. Avoid abrasive cleaners or harsh chemicals that could damage the finish. Dry thoroughly.
- **Lubrication:** The ball-bearing slides are designed for smooth operation and typically do not require lubrication. If movement becomes stiff, a small amount of silicone-based lubricant can be applied to the slide mechanisms. Avoid oil-based lubricants as they can attract dust.
- **Fastener Check:** Periodically check all mounting screws and fasteners to ensure they remain tight. Re-tighten if necessary.

8. TROUBLESHOOTING

Problem	Possible Cause	Solution
Baskets do not slide smoothly.	Debris in slides, overtightened screws, or uneven installation.	Clean slides, check screw tightness, ensure the unit is level. Apply silicone lubricant if needed.
Organizer feels wobbly or unstable.	Loose mounting screws or insufficient support.	Re-tighten all mounting screws. Ensure the cabinet floor is sturdy.

Baskets do not fully extend or retract.	Obstruction, misaligned slides, or damaged slides.	Check for items blocking movement. Verify slides are correctly aligned and not bent.
Items fall out of baskets.	Overloaded basket or items not properly arranged.	Ensure weight capacity is not exceeded. Arrange items securely within the basket.

9. WARRANTY AND SUPPORT

Warranty Information:

LOVMOR products are manufactured with quality and durability in mind. For specific warranty details regarding your 2 Tier Individual Pull Out Cabinet Organizer, please refer to the warranty card included in your package or visit the official LOVMOR website.

Customer Support:

If you have any questions, require assistance with installation, or encounter any issues not covered in this manual, please contact LOVMOR customer support:

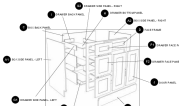

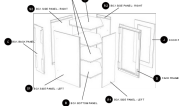

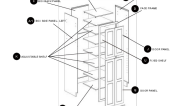

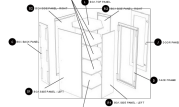

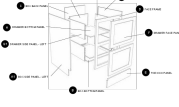

- **Online:** Visit the [LOVMOR Store on Amazon](#)
- **Email:** [Insert Customer Support Email Here, if available]
- **Phone:** [Insert Customer Support Phone Number Here, if available]

Please have your model number (422162X) and purchase date ready when contacting support.
