

MOVE SPEED YSPBS05

MOVE SPEED 0.3" Ultra Slim MagSafe Portable Charger

INSTRUCTION MANUAL

Model: YSPBS05 | Brand: MOVE SPEED

INTRODUCTION

Thank you for choosing the MOVE SPEED 0.3" Ultra Slim MagSafe Portable Charger. This compact and powerful device is designed to provide convenient and reliable charging for your iPhone 16/15/14/13/12 series and other USB-C compatible devices. Its ultra-slim profile and strong magnetic attachment make it an ideal companion for on-the-go power needs.

KEY FEATURES

- Slim & Ultra-Portable:** At just 0.3 inches thin and featherlight, this charger easily fits into pockets, bags, or clutches, ensuring power is always at hand.
- Military-Grade Magnets:** Engineered with iPhone-matched magnetic arrays for a secure, shake-proof attachment, preventing charging interruptions during activities.
- 5,000mAh Smart Power:** Provides significant extra battery life (e.g., 18 extra talk hours) with intelligent power management that safeguards your iPhone's battery health.
- Dual-Charge Freedom:** Offers MagSafe snap-on wireless charging for iPhones and a versatile USB-C port for AirPods or Android devices, providing a single compact solution for multiple gadgets. (7.5W Wireless, 15W Wired)
- Cool-Touch Metal Design:** The glacier-gray aluminum shell actively dissipates heat, ensuring safe operation without overheating risks.

PACKAGE CONTENTS

Please ensure all items are present in your package:

- MOVE SPEED 0.3" Ultra Slim MagSafe Portable Charger (5000mAh)
- USB-C Charging Cable
- Magnetic Ring (for non-MagSafe compatible devices)
- User Manual

SETUP GUIDE

1. Initial Charge

1. Connect the provided USB-C cable to the power bank's USB-C port.
2. Plug the other end of the USB-C cable into a compatible USB power adapter (not included).
3. The LED indicator lights on the power bank will illuminate to show charging progress. A full charge is indicated when all four LEDs are solid.

2. Attaching the Magnetic Ring (Optional)

If your device is not MagSafe compatible (e.g., older iPhone models, Android phones), you can use the included magnetic ring to enable magnetic attachment.

1. Clean the back surface of your phone or phone case thoroughly.
2. Carefully peel off the adhesive backing from the magnetic ring.
3. Align the magnetic ring centrally on the back of your device or case, ensuring it does not obstruct cameras or other features. Press firmly to secure.
4. Allow the adhesive to set for a few hours before attaching the power bank for optimal adhesion.

OPERATING YOUR POWER BANK

1. Wireless Charging (MagSafe Compatible Devices)

1. Ensure your power bank is sufficiently charged.
2. Align the back of your MagSafe-compatible iPhone (iPhone 12 series or newer) with the magnetic surface of the power bank. The magnets will snap into place, and charging will begin automatically.
3. The power bank provides up to 7.5W wireless charging.

2. Wired Charging (USB-C Port)

1. Ensure your power bank is sufficiently charged.
2. Connect your device's USB-C charging cable to the USB-C port on the power bank.
3. Connect the other end of the cable to your device. Charging will begin automatically.
4. The power bank provides up to 15W wired charging.

3. Battery Indicator

The LED lights on the power bank indicate the remaining battery level:

- 4 LEDs: 75-100% charge
- 3 LEDs: 50-75% charge
- 2 LEDs: 25-50% charge
- 1 LED: 0-25% charge (recharge soon)

CARE AND MAINTENANCE

- Keep the power bank away from water, moisture, and extreme temperatures (hot or cold).
- Avoid dropping or subjecting the power bank to strong impacts.
- Clean the surface with a soft, dry cloth. Do not use harsh chemicals or abrasive materials.
- Store in a cool, dry place when not in use.
- For optimal battery life, fully charge the power bank at least once every three months if not used regularly.

TROUBLESHOOTING

Issue	Possible Solution
Power bank not charging	Ensure the USB-C cable is securely connected to both the power bank and the power adapter. Try a different cable or power adapter.
Device not charging wirelessly	Ensure your device is MagSafe compatible or has the magnetic ring properly attached. Realign the device on the power bank's magnetic surface. Remove any thick cases that might interfere with wireless charging.
Device not charging via USB-C	Ensure the cable is securely connected to both the power bank and your device. Try a different USB-C cable.
Power bank overheating	It is normal for the power bank to warm up during charging. If it becomes excessively hot, disconnect it immediately and allow it to cool down. Ensure it is used in a well-ventilated area.

TECHNICAL SPECIFICATIONS

Feature	Detail
Model Number	YSPBS05
