1. INTRODUCTION

Thank you for choosing the LOVMOR Pull Out Cabinet Organizer. This manual provides essential information for the safe and efficient installation and operation of your new cabinet organizer. This 1-tier organizer, measuring 30" W x 21½" D, is designed to enhance your kitchen cabinet space by providing easy access to items with its smooth-gliding, full-extension system.

2. SAFETY INFORMATION

- Read all instructions carefully before installation and use.
- Ensure the cabinet surface is clean, dry, and structurally sound before mounting.
- Do not exceed the maximum recommended load capacity of 55 pounds.
- Keep small parts and packaging materials away from children.
- Use appropriate tools and wear safety glasses during installation.
- Verify all screws are securely tightened after installation to prevent movement.

3. PACKAGE CONTENTS

Please check that all components are present before beginning installation:

- 1 x Pull Out Wire Basket
- 2 x Full-Extension Ball-Bearing Glides (Left and Right)
- Mounting Hardware (Screws)
- Installation Manual (this document)

4. SPECIFICATIONS

Feature	Detail
Brand	LOVMOR
Model Number	422301K
Product Dimensions	21.5"D x 30"W x 3.5"H
Minimum Cabinet Opening	30.5"W x 22"D (approx.)
Material	Metal
Maximum Load Capacity	55 Pounds
Number of Tiers	1
Mounting Type	Insert Mount
Special Feature	Expandable

Size Detail

FULL-EXTENSION

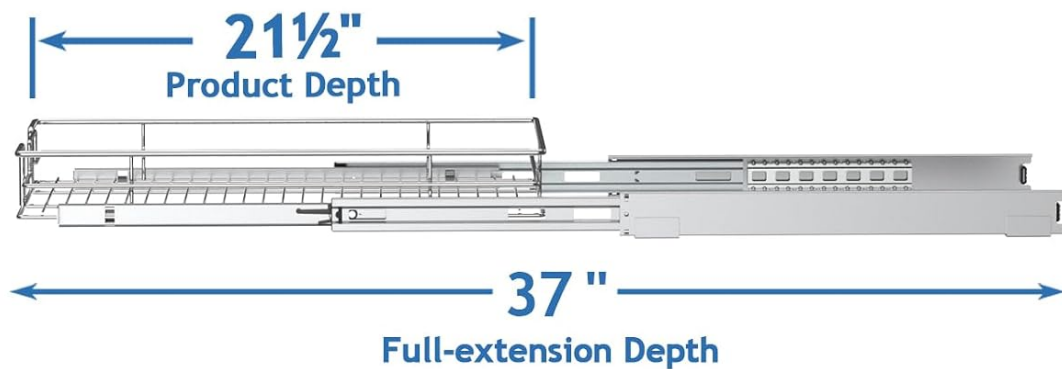

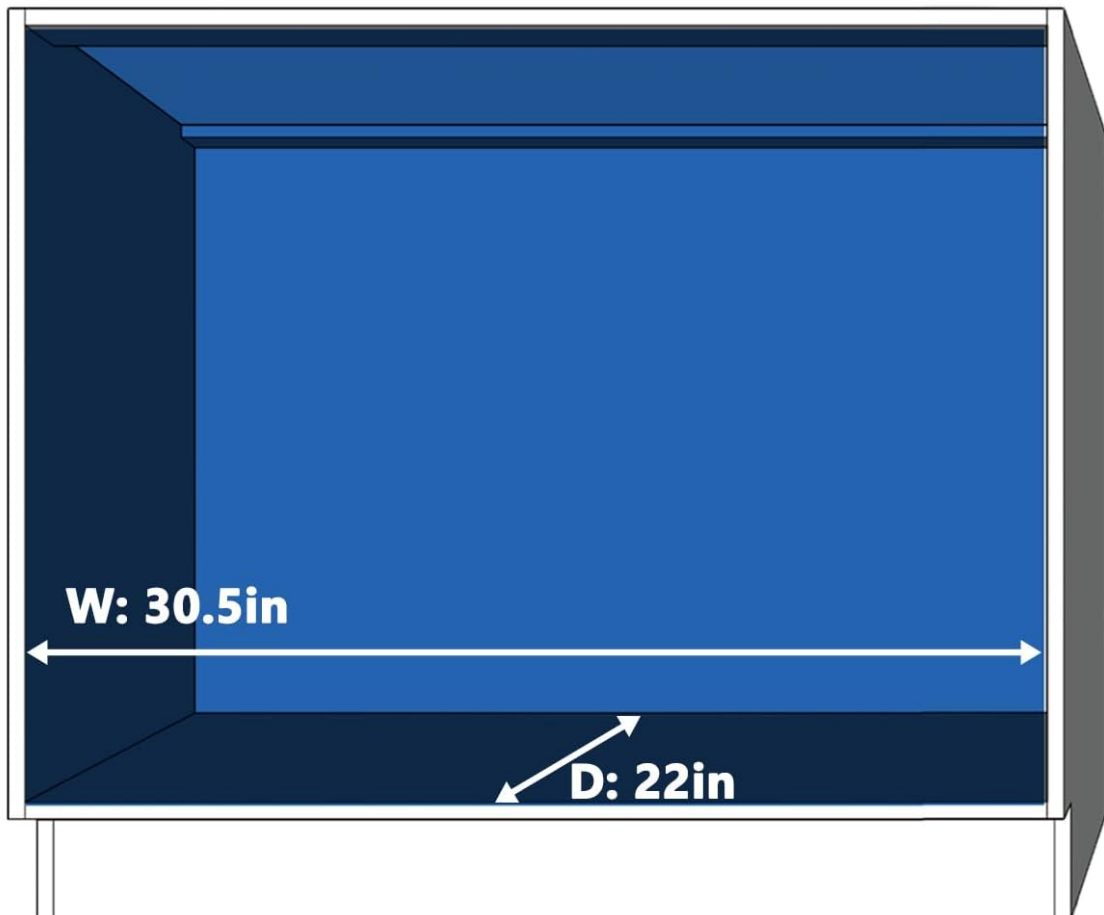

Image: Detailed dimensions including total width, product depth, and full-extension depth.

Ensure the Correct Measurement of the Cabinet

Note: Do not measure from the frame of the cabinet

If your cabinet has hinges, measure the width from the hinges otherwise the hinges will prevent the basket from being pulled out
(The following dimensions do not include the hinge width)

Minimum cabinet interior width, depth and height required

Image: Guide for measuring cabinet interior width and depth, emphasizing to account for hinges.

5. SETUP & INSTALLATION

Follow these steps to install your LOVMOR Pull Out Cabinet Organizer:

1. **Measure Your Cabinet:** Carefully measure the interior width and depth of your cabinet. Ensure the minimum cabinet opening is 30.5" W x 22" D. If your cabinet has hinges, measure the width from the hinges to ensure the basket can be pulled out without obstruction.
2. **Prepare the Mounting Template:** Use the provided mounting template. Fold it along the dotted line to fit the front edge of your cabinet.
3. **Mark Pilot Holes:** Place the template inside your cabinet, aligning it with the front edge. Use a pencil to mark the four pilot hole locations as indicated on the template.
4. **Drill Pilot Holes:** Using a drill with a 2.5mm bit, pre-drill the four marked pilot holes.

5. **Install Glides:** Secure the full-extension ball-bearing glides to the cabinet floor using the provided screws, aligning them with the pre-drilled holes. Ensure they are parallel and securely fastened.
6. **Attach Basket:** Slide the wire basket onto the installed glides. The basket should click into place.
7. **Test Operation:** Gently pull the basket in and out to ensure smooth operation.

Installation Visual Guide

Video: Illustrates the concept of an expandable drawer, showing how width and depth can be adjusted. This feature is applicable to the LOVMOR organizer.

6. OPERATING INSTRUCTIONS

The LOVMOR Pull Out Cabinet Organizer is designed for simple and efficient use:

- **Accessing Items:** Gently pull the front of the wire basket to slide it out of the cabinet. The full-extension ball-bearing system ensures a smooth and quiet glide, bringing items from the back of your cabinet to the front for easy access.
- **Storing Items:** Place items evenly within the wire basket, ensuring not to exceed the 55-pound weight limit. Push the basket back into the cabinet until it is fully retracted.
- **Smooth Operation:** The 3-section ball bearing system provides stability and smooth movement. Avoid forcing the basket if it encounters resistance.

Image: The organizer fully extended from a cabinet, demonstrating its smooth, silent, heavy-load capacity, and full pull-out feature.

Video: Showcases how the pull-out organizer maximizes cabinet space and provides easy access to stored items.

7. MAINTENANCE

- **Cleaning:** Wipe the wire basket and glides with a soft, damp cloth and mild detergent. Avoid abrasive cleaners or harsh chemicals that could damage the finish.
- **Lubrication:** Periodically check the ball-bearing glides for smooth operation. If needed, apply a small amount of silicone-based lubricant to the tracks.
- **Inspection:** Regularly inspect all screws and connections to ensure they remain tight. Re-tighten if necessary.

8. TROUBLESHOOTING

Problem	Possible Cause	Solution
Basket does not slide smoothly.	Misaligned glides, debris in tracks, or insufficient lubrication.	Check glide alignment and re-tighten screws. Clean tracks and apply lubricant.
Basket is difficult to pull out or push in.	Overloaded basket, items obstructing movement, or incorrect installation.	Reduce weight in the basket. Ensure no items are blocking the glides. Review installation steps.
Basket feels wobbly.	Loose mounting screws or uneven installation.	Check and tighten all mounting screws. Ensure the glides are installed on a flat, level surface.

9. WARRANTY & SUPPORT

LOVMOR products are manufactured with quality and durability in mind. For specific warranty details or technical support, please refer to the warranty card included with your purchase or contact LOVMOR customer service directly. Keep your purchase receipt for warranty claims.
