### 3.2. Pairing with Your Smartphone

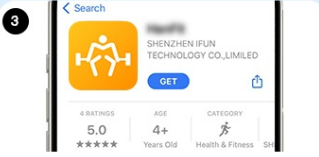

To unlock the full potential of your smart watch, pair it with your smartphone via the dedicated app.

1. **Download the App:** Scan the QR code in the included user manual or search for the companion app on the Google Play Store (for Android) or Apple App Store (for iOS).
2. **Enable Bluetooth:** Ensure Bluetooth is enabled on your smartphone.
3. **Open the App:** Launch the app and follow the on-screen instructions to add your device.
4. **Connect:** Select "P68" from the list of available devices to establish a connection.
5. **Grant Permissions:** Allow necessary permissions for notifications, health data, and other features to function correctly.

## How to connect your phone to your smartwatch?

- 

1 Turn on the Bluetooth on your Apple/Android phone.
- 

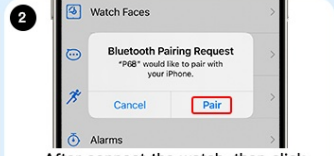

2 Open the Google Play or the App Store to search the APP
- 

3 Search for the APP and download it or scan the QR code on the annual to download it.
- 

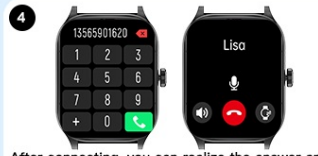

4 Open the App and tap "Add a device" button at the top, find "P68" and click it to bind.

## How to use the the answer/make calls and smart notification function?

- 

1 Slide down the watch and tap the "Phone icon" to enter "Audio setup" menu, and then turn on the "Call audio".
- 

2 After connect the watch, then click "pair" to complete the call Bluetooth connection of the watch.
- 

3 Turn on the switch to synchronize related information to smart watch.
- 

4 After connecting, you can realize the answer and make calls, AI voice, music playback and message notification functions on your watch...

## 5. HEALTH MONITORING

The P68 Smart Watch offers comprehensive health tracking features to help you monitor your well-being.

- **Heart Rate Monitoring:** Continuously tracks your heart rate throughout the day.
- **Blood Oxygen (SpO2) Monitoring:** Measures your blood oxygen saturation levels.
- **Sleep Tracking:** Monitors your sleep patterns, including deep and light sleep stages.
- **Stress Monitoring:** Provides insights into your stress levels.
- **Reminders:** Includes sedentary reminders and drink water reminders to promote healthy habits.

# Smart Health Monitoring At Your Fingertips

The image illustrates the smart health monitoring capabilities of the Odsslgw P68 Smart Watch. It features four main health metrics displayed on a smartphone interface, each accompanied by a photo of a user:

- Heart rate:** 89 bpm (Normal range 60-100 bpm). The graph shows a peak during the day and a dip at night.
- SpO2:** 98% (Normal range 95-100%). The graph shows a slight dip during the day and a peak at night.
- Stress:** 30 (Normal range 10-50). The graph shows a peak during the day and a dip at night.
- Sleep:** 07 H 45 M (Normal range 7-9 H). The graph shows a peak during the night and a dip during the day.

Image: The Odsslgw P68 Smart Watch displaying various health metrics such as heart rate, SpO2, stress, and sleep data, providing a comprehensive overview of the user's health.

## 6. SPORTS MODES & ACTIVITY TRACKING

The smart watch supports over 100 sports modes to accurately track your workouts and daily activity.

- **Multi-Sport Modes:** Select from activities like running, cycling, walking, yoga, football, and more to get specific data.
- **Activity Data:** Tracks steps, calories burned, distance, and provides insights to optimize performance.

## 7. OTHER FEATURES

The P68 Smart Watch includes several practical functions to enhance your daily life:

- **Voice Assistant:** Utilize the integrated voice assistant for quick commands.
- **Camera Control:** Remotely control your smartphone's camera.
- **Music Control:** Manage music playback on your paired device.
- **Timers & Stopwatches:** Convenient tools for various tasks.
- **Alarms:** Set alarms directly from your watch.
- **Weather Forecast:** Get real-time weather updates.
- **Find Phone:** Locate your misplaced smartphone.

*Image: The Odsslgw P68 Smart Watch showing its comprehensive menu of practical functions, from health tracking to utility tools like timers and weather.*

## 8. IP68 WATERPROOF RATING

The Odsslgw P68 Smart Watch boasts an IP68 waterproof rating, meaning it is resistant to dust and can withstand immersion in water up to 1.5 meters for up to 30 minutes. This allows for normal use during activities such as washing hands, exercising in the rain, or swimming.

**Note:** While IP68 rated, it is not recommended for hot showers, saunas, or diving, as steam and high water pressure may compromise the seal.

## 9. BATTERY LIFE AND CHARGING

---

The smart watch is equipped with a 350 mAh Lithium Polymer battery, offering extended usage on a single charge.

- **Usage Time:** 7-10 days.
- **Standby Time:** Over 30 days.
- **Charging Method:** Magnetic charging cable.
- **Charging Duration:** 1.5-2 hours.

## 10. COMPATIBILITY

---

The Odsslw P68 Smart Watch is compatible with a wide range of smartphones:

- **Android:** Compatible with Android 5.0 or higher.
- **iOS:** Compatible with iOS 9.0 or higher.

## 11. TROUBLESHOOTING

---

If you encounter any issues with your smart watch, please refer to the following common solutions:

Issue	Possible Solution
Watch not turning on	Ensure the watch is fully charged. Connect to the magnetic charger and wait a few minutes.
Unable to pair with smartphone	<ol style="list-style-type: none"><li>1. Ensure Bluetooth is enabled on your phone.</li><li>2. Make sure the watch is within range of your phone.</li><li>3. Restart both the watch and your phone.</li><li>4. Check if the app has all necessary permissions.</li></ol>
Notifications not appearing	<ol style="list-style-type: none"><li>1. Verify app notification permissions on your phone.</li><li>2. Ensure the watch is connected via Bluetooth.</li><li>3. Check notification settings within the watch app.</li></ol>
Inaccurate health data	Ensure the watch is worn snugly on your wrist, not too tight or too loose. Clean the sensor regularly.
Short battery life	Reduce screen brightness, disable unnecessary notifications, and limit continuous heart rate monitoring.
