MAINTENANCE

To ensure the longevity and optimal performance of your DMOAO Android Tablet, follow these maintenance guidelines:

- **Screen Care:** Use a soft, lint-free cloth to clean the screen. Avoid abrasive materials or harsh chemicals. The incell screen is durable, but proper care prevents scratches.
- **Battery Health:** Avoid extreme temperatures. Do not let the battery completely drain frequently. For long-term storage, charge the battery to about 50%.
- **Software Updates:** Regularly check for and install system updates to ensure your tablet has the latest features, security patches, and performance improvements.
- **Storage Management:** Periodically clear unnecessary files and uninstall unused apps to free up storage space and maintain performance.
- **Physical Protection:** Always use the provided case to protect the tablet from drops and impacts.

TROUBLESHOOTING

If you encounter issues with your tablet, refer to the table below for common problems and their solutions.

Problem	Possible Solution
Tablet does not power on.	Ensure the tablet is fully charged. Press and hold the power button for at least 10-15 seconds.
Wi-Fi connection issues.	Restart the tablet and your Wi-Fi router. Forget the network and reconnect. Ensure you are within range.
Apps are slow or crashing.	Close background apps. Clear app cache/data. Ensure sufficient storage space. Restart the tablet.
Screen is unresponsive.	Restart the tablet. Ensure the screen is clean and dry. If the screen still displays properly, functionality should not be affected even if the touch panel is damaged.
Low audio volume.	Check volume settings. Ensure no headphones are partially plugged in. Test with different audio sources.
Cannot connect keyboard/mouse.	Ensure Bluetooth is enabled on the tablet and the accessories are in pairing mode. Refer to accessory manuals for specific pairing instructions.
