Maintenance

Proper care will help maintain the appearance and functionality of your mirrored dresser.

- **Cleaning Frame:** For the non-mirrored frame parts, wipe with a dry cloth.
- **Dusting:** Regularly dust all surfaces with a soft, dry cloth.
- **Avoid Moisture:** Do not allow liquids to sit on the surface, especially on the edges of the mirrors, as this can cause damage.
- **Check Hardware:** Periodically check all screws and fasteners to ensure they remain tight. Retighten if necessary.

Troubleshooting

Here are solutions to common issues you might encounter:

Problem	Possible Cause	Solution
Drawers are difficult to open or close.	Misalignment, obstruction, or loose hardware.	Ensure drawers are inserted correctly on their glides. Check for any items obstructing the drawer path. Verify that drawer knob screws are not overtightened, which can cause binding. If the issue persists, remove the drawer and reinsert it carefully.
Dresser feels wobbly or unstable.	Loose leg attachments or uneven floor.	Check and tighten all leg screws. If the floor is uneven, place shims under the legs to stabilize the dresser. Ensure wall-mounting hardware is properly installed if applicable.
Mirrored surface is damaged upon arrival.	Shipping damage.	Do not attempt to assemble or use the damaged product. Contact Bonnlo customer support immediately with photos of the damage for assistance with replacement parts or a full replacement.
