MODUS B0DG34G3Z9

MODUS GPS Tracker Holder for Pet Collars

Instruction Manual - Model B0DG34G3Z9

Introduction

This manual provides essential information for the proper setup, operation, and maintenance of your MODUS GPS Tracker Holder. This device is designed to securely hold a compatible smart tracker, enabling real-time location tracking for your pet via the Apple Find My network on iOS devices. Please read these instructions carefully before use.

Package Contents

Verify that all items are present in your package:

- 1 x MODUS GPS Tracker Holder
- 1 x Compatible GPS Tracker (Locator Included)
- 1 x Instruction Manual

Product Overview

The MODUS GPS Tracker Holder is crafted from durable, soft silicone, providing a secure and protective enclosure for your pet's tracker. Its design ensures the tracker remains protected from scratches, bites, and licking, while also offering water and shock resistance. The holder is compatible with most standard dog and cat collars.

Setup

1. Powering On, Off, and Resetting the Tracker

Image: Visual guide for tracker power and reset functions.

1. **Power On:** Press and hold the tracker button until you hear a long continuous beep.
2. **Power Off:** Press and hold the tracker button for 5 seconds until you hear two short beeps.
3. **Reset:** When the tracker is powered on, press the button 5 times and then hold it until a short beep is heard.
4. **Remove from App:** To remove the tracker from your device, use the 'Remove Item' function within the Find My app. A short beep will confirm removal.

2. Pairing with Apple Find My App (iOS Only)

The MODUS GPS Tracker is designed to work exclusively with Apple's Find My network. Ensure your iOS device (iPhone, iPad, or Mac) is updated to the latest software version.

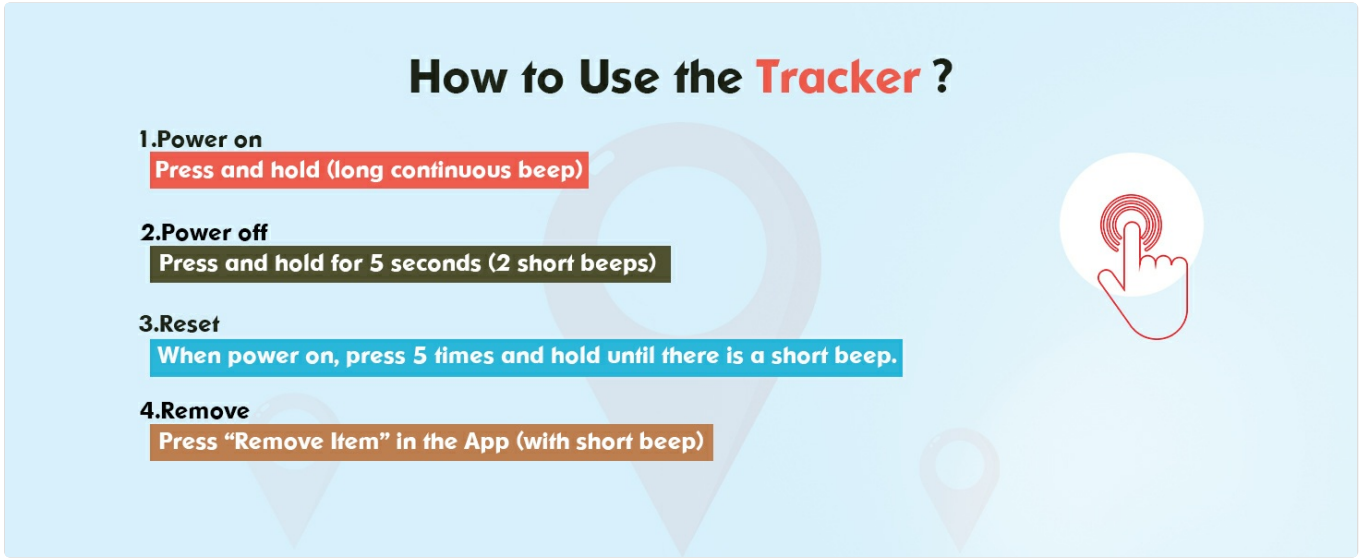

Image: Step-by-step visual guide for pairing the tracker with the Apple Find My app.

1. **Activate Tracker:** Long press the button on the tracker to turn it on.
2. **Enable Bluetooth & Network:** On your iOS device, ensure Bluetooth and Wi-Fi/cellular data are enabled. Open the 'Find My' app.
3. **Add New Item:** In the 'Find My' app, navigate to the 'Items' tab. Tap the '+' icon, then select 'Add Other Item'.
4. **Connect:** Your device will search for the tracker. Once detected, follow the on-screen prompts to connect and complete the setup.

Operating Instructions

1. Real-time Tracking and Location History

Once paired, you can monitor your pet's location directly through the Apple Find My app.

Image: A dog and cat wearing collars with the tracker holder, alongside phone screens displaying location history and current tracking within the Find My app.

- **Live Tracking:** Open the 'Find My' app and select your tracker from the 'Items' list to view its current location on a map.
- **Location History:** The app may display a history of locations where your pet has been, allowing you to see their past movements.
- **Directions:** The 'Find My' app can provide directions to your tracker's location.
- **Play Sound:** If your pet is nearby but out of sight, you can use the 'Play Sound' feature in the app to help locate them.

2. Anti-Lost Function

The Find My network provides alerts if your tracker is detected away from you, helping to prevent your pet from being lost or stolen.

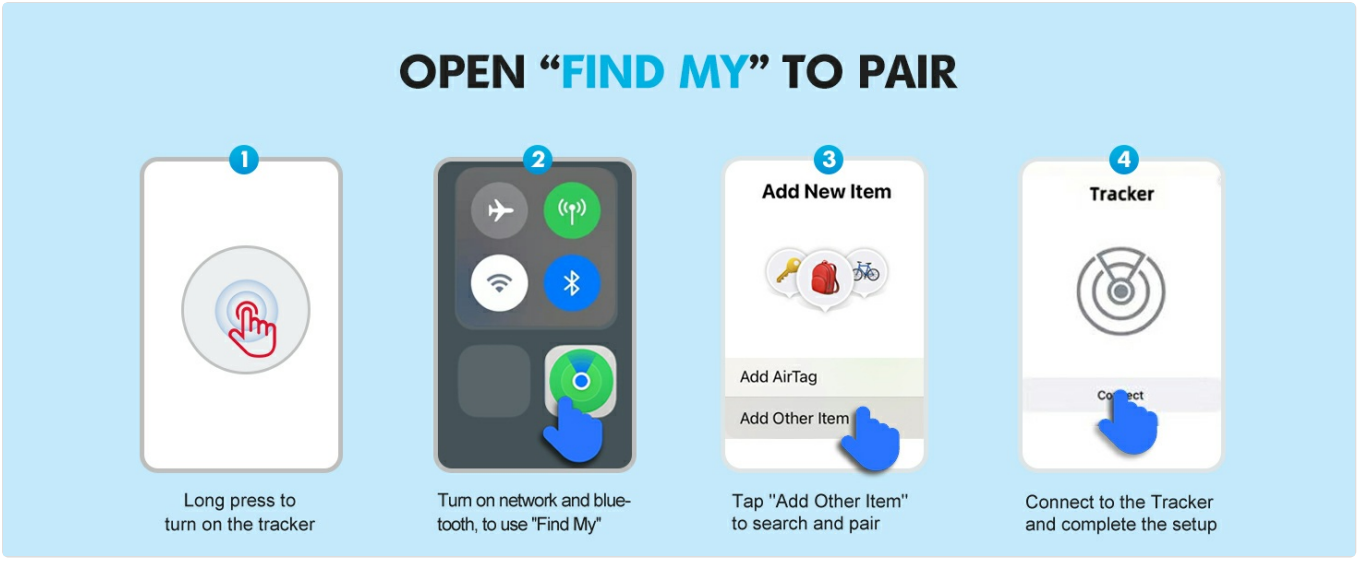

Image: Summary of key features including ease of finding pets via the Find My app, built-in privacy, over one year battery life, and no subscription fees.

Maintenance

1. Cleaning

To clean the silicone tracker holder, gently wipe it with a damp cloth. Avoid harsh chemicals or abrasive materials that could damage the silicone.

2. Battery Replacement

The tracker uses a CR2032 3V button battery, which typically lasts over one year. When the battery is low, the Find My app will notify you. To replace the battery:

1. Carefully open the tracker unit.
2. Remove the old CR2032 battery.
3. Insert a new CR2032 battery with the positive (+) side facing up.
4. Close the tracker unit securely, ensuring a tight seal for water resistance.

Troubleshooting

- **Tracker not appearing in Find My app:**
  Ensure the tracker is powered on (long continuous beep). Verify Bluetooth is enabled on your iOS device. Make sure your iOS device is connected to the internet. Try resetting the tracker (press 5 times then hold).
- **Inaccurate location or limited range:**
  The Find My network relies on nearby Apple devices to relay location information. In areas with fewer Apple devices, location updates may be less frequent or precise. Ensure the tracker is not obstructed by thick materials or deep underground.
- **Tracker holder not fitting collar:**
  The holder is designed for universal fit. Ensure your pet's collar width is compatible with the holder's loops (approximately 0.5 inches).
- **Battery draining quickly:**
  Ensure you are using a fresh, high-quality CR2032 battery. Extreme temperatures can affect battery performance.

Specifications

Feature	Detail
Model	B0DG34G3Z9
Brand	MODUS
Item Weight	1.28 ounces
Material	Plastic (Tracker), Silicone (Holder)
Color	Orange
Compatible Devices	iOS devices (iPhone, iPad, Mac) via Find My app
Battery Type	CR2032 3V Button Battery
