InvisiClean AquaNova-Water-Filter

InvisiClean AquaNova Replacement Humidification Filter User Manual

Model: AquaNova-Water-Filter

1. PRODUCT OVERVIEW

The InvisiClean AquaNova Replacement Humidification Filter is an essential component designed specifically for the InvisiClean AquaNova 2-in-1 Air Purifier and Humidifier. This genuine replacement filter plays a crucial role in the humidification process by absorbing water and allowing it to evaporate into the air, thereby increasing humidity levels. It is engineered to effectively remove impurities from the water before humidification, ensuring clean and healthy moisture is dispersed into your environment.

This image displays the InvisiClean AquaNova Replacement Humidification Filter. It is a cylindrical filter, predominantly blue, with a pleated design to maximize surface area for humidification. The top and bottom edges feature black rings for structural integrity and easy handling during installation.

Humidification Filter for the InvisiClean AquaNova

This image shows the InvisiClean AquaNova 2-in-1 Air Purifier and Humidifier, the main unit for which this replacement filter is designed. It is a sleek, white cylindrical appliance with a perforated lower section for air intake and a top panel housing controls and air output. The filter is installed internally within this unit.

2. SETUP AND INSTALLATION

This section provides instructions for replacing the humidification filter in your InvisiClean AquaNova 2-in-1 Air Purifier and Humidifier. Ensure the unit is unplugged before proceeding.

- 1. Prepare the Unit:** Unplug the InvisiClean AquaNova unit from the power outlet.
- 2. Access the Filter Compartment:** Carefully remove the top cover and any other components as instructed in your main AquaNova user manual to access the filter compartment. This typically involves lifting or twisting the top section.
- 3. Remove Old Filter:** Gently lift and remove the old humidification filter from its housing. Dispose of the old filter responsibly.
- 4. Unpack New Filter:** Remove the new InvisiClean AquaNova Replacement Humidification Filter from its

packaging.

5. **Install New Filter:** Insert the new filter into the filter compartment, ensuring it is seated correctly and securely. The filter should fit snugly without forcing.
6. **Reassemble Unit:** Replace all covers and components that were removed, ensuring they are properly aligned and secured.
7. **Power On:** Plug the InvisiClean AquaNova unit back into the power outlet. The unit is now ready for operation with the new humidification filter.

3. OPERATING PRINCIPLES

The InvisiClean AquaNova Replacement Humidification Filter operates passively as part of the AquaNova unit's humidification system. Water from the reservoir is absorbed by the filter's pleated material. A fan then draws dry air through the moistened filter, where the water naturally evaporates into the air, increasing the humidity. The filter's design ensures maximum surface area for efficient evaporation and helps prevent the release of mineral dust into the air.

4. MAINTENANCE

Regular maintenance of your humidification filter is crucial for optimal performance and air quality.

- **Replacement Schedule:** It is recommended to replace the InvisiClean AquaNova Humidification Filter every 6 to 12 months. The actual replacement frequency may vary based on usage intensity, water hardness, and environmental conditions. If the unit is not used often, the filter may last longer, but it should still be inspected periodically.
- **Filter Inspection:** Periodically inspect the filter for signs of mineral buildup, discoloration, or mold growth. A hardened or discolored filter indicates it needs replacement.
- **Cleaning:** This humidification filter is not designed to be cleaned or washed. Attempting to clean the filter can damage its structure and reduce its effectiveness. Always replace with a genuine InvisiClean replacement filter.
- **Storage:** If storing the unit for an extended period, remove the filter and allow it to dry completely before discarding or storing separately in a cool, dry place if it's still within its useful life.

5. TROUBLESHOOTING

If you experience issues related to humidification, consider the following troubleshooting steps concerning the filter:

Problem	Possible Cause	Solution
Reduced Humidification Output	Filter is clogged with mineral deposits or is old.	Replace the humidification filter. Ensure the water reservoir is filled.
Unpleasant Odor from Unit	Filter has developed mold or bacteria due to prolonged use or stagnant water.	Immediately replace the humidification filter. Clean the water reservoir and base thoroughly.

Problem	Possible Cause	Solution
Filter does not fit properly	Incorrect filter model or improper installation.	Ensure you have the genuine InvisiClean AquaNova Replacement Humidification Filter (Model: AquaNova-Water-Filter). Re-read installation steps and ensure correct orientation.

For issues not related to the filter or for further assistance, please refer to the main InvisiClean AquaNova 2-in-1 Air Purifier and Humidifier user manual or contact InvisiClean customer support.

6. SPECIFICATIONS

- **Brand:** InvisiClean
- **Model Number:** AquaNova-Water-Filter
- **Product Dimensions:** 7.3"D x 7.3"W x 10"H
- **Item Weight:** 0.6 Kilograms (approximately 1.31 pounds)
- **Product Benefits:** Removes Impurities
- **Unit Count:** 1.0 Count
- **Number of Items:** 1
- **Manufacturer:** InvisiClean
- **ASIN:** B0DG3G2P29
- **Date First Available:** September 4, 2024

7. WARRANTY AND SUPPORT

This InvisiClean AquaNova Replacement Humidification Filter is designed for durability and performance. Specific warranty details for replacement parts are typically covered under the warranty of the main InvisiClean AquaNova 2-in-1 Air Purifier and Humidifier unit, or can be found on the official InvisiClean website.

For technical support, warranty claims, or to purchase additional genuine replacement filters, please visit the official InvisiClean website or contact their customer service department. Always ensure you are using genuine InvisiClean replacement parts to maintain product performance and warranty validity.
