

PurSteam PUR0017

PurSteam SteamTech Elite 1750W Steam Iron User Manual

Model: PUR0017

1. IMPORTANT SAFETY INSTRUCTIONS

Please read all instructions carefully before using your PurSteam SteamTech Elite iron. Keep this manual for future reference.

- Always unplug the iron from the electrical outlet when filling with water, emptying, or when not in use.
- Do not operate the iron with a damaged cord or if the iron has been dropped or damaged. Contact customer support for assistance.
- To protect against the risk of electric shock, do not immerse the iron in water or other liquids.
- Use the iron only for its intended household use.
- Never iron clothing while it is being worn.
- Keep the iron and its cord out of reach of children.
- Always place the iron on a stable, heat-resistant surface when resting.

2. PRODUCT OVERVIEW

The PurSteam SteamTech Elite iron is designed for efficient and effective garment care. Familiarize yourself with its key features:

Figure 1: Key Features of the PurSteam SteamTech Elite Iron

- **Digital Temperature Control & LED Display:** For precise fabric selection.
- **Ceramic Soleplate:** Non-stick for smooth gliding.
- **Water Tank:** Large capacity (14.5 fl oz / 430 ml) for extended use.
- **Steam Trigger & Spray Function:** For adjustable steam and mist.
- **Self-Clean, Anti-Calc, Anti-Drip:** Integrated maintenance features.
- **Auto Shut-Off:** Enhanced safety feature.

3. SETUP

3.1 Filling the Water Tank

Before first use, or when the water level is low, fill the iron's water tank:

1. Ensure the iron is unplugged from the power outlet.
2. Open the water inlet cover located at the front of the iron.

3. Using the provided filling cup, carefully pour distilled or purified water into the tank up to the 'MAX' fill line. Avoid overfilling.
4. Close the water inlet cover securely.

Figure 2: Filling the Water Tank

3.2 Initial Use

For the first use, it is recommended to iron an old piece of fabric to ensure any manufacturing residues are removed.

4. OPERATING INSTRUCTIONS

4.1 Powering On and Temperature Selection

1. Plug the iron into a suitable electrical outlet. The LED display will illuminate.
2. Use the digital temperature control (dial or buttons near the display) to select the appropriate fabric setting (e.g., Nylon, Silk, Blend, Wool, Cotton, Linen). The selected setting will be shown on the LED display.
3. Allow the iron to heat up. The indicator light will stop blinking when the desired temperature is reached.

Figure 3: LED Indicator and Fabric Selection

4.2 Steam Functions

The iron offers various steam options for effective wrinkle removal:

- **Continuous Steam:** Adjust the steam level using the steam trigger.
- **Burst of Steam:** Press the 'Burst of Steam' button for an extra powerful shot of steam, ideal for stubborn wrinkles or vertical steaming.
- **Spray Function:** Use the spray button to lightly mist fabrics before ironing for easier wrinkle removal.

Figure 4: Powerful Burst of Steam

4.3 Ironing Techniques

- Always iron fabrics according to their care labels.
- For delicate fabrics, use a lower temperature setting or iron on the reverse side.
- Move the iron smoothly over the fabric, applying even pressure.

Figure 5: Ironing in Progress

4.4 Auto Shut-Off Feature

For safety, the iron is equipped with an auto shut-off feature. It will automatically turn off if left unattended for a period of time, either horizontally or vertically.

AUTO SHUT-OFF

Our iron safety shuts off when unused for set time periods

5. MAINTENANCE

5.1 Self-Clean Function

Regularly use the self-clean function to remove mineral deposits and maintain optimal performance:

1. Fill the water tank to the 'MAX' line with water.
2. Plug in the iron and set the temperature to the highest setting.
3. Once the iron reaches temperature, unplug it and hold it horizontally over a sink.
4. Press and hold the self-clean button (refer to product diagram for location). Hot water and steam will flush out mineral deposits.
5. Release the button when the tank is empty. Repeat if necessary.

5.2 Anti-Calc System

The integrated anti-calc system helps prevent limescale buildup. For best results, always use distilled or purified

water.

5.3 Anti-Drip System

The anti-drip system prevents water from leaking from the soleplate when the iron is not hot enough for steam. If you notice dripping, ensure the iron has reached the correct temperature for your selected fabric.

5.4 Cleaning the Soleplate

To clean the ceramic soleplate, allow the iron to cool completely. Wipe the soleplate with a soft, damp cloth. Do not use abrasive cleaners or scouring pads, as these can damage the surface.

6. TROUBLESHOOTING

Problem	Possible Cause	Solution
Iron not heating up.	Not plugged in; Auto shut-off activated; Power outlet issue.	Check power connection; Move iron to reactivate; Test outlet with another appliance.
No steam or insufficient steam.	Water tank empty; Temperature too low for steam; Steam vents clogged.	Fill water tank; Increase temperature setting; Perform self-clean cycle.
Water dripping from soleplate.	Temperature too low for steam; Overfilled water tank.	Allow iron to heat fully; Do not overfill water tank.
White flakes on clothes.	Mineral deposits in the tank/soleplate.	Perform self-clean cycle; Use distilled water.

7. SPECIFICATIONS

Feature	Detail
Brand	Pursteam World's Best Steamers
Model Name	PurSteam SteamTech Elite
Model Number	PUR0017
Wattage	1750 watts
Base Material	Ceramic
Special Feature	LED Display
