GlocalMe T10-GPS-US

GlocalMe KeyTracker User Manual

Model: T10-GPS-US | Brand: GlocalMe

1. Introduction and Overview

The GlocalMe KeyTracker is an advanced global GPS tracking device designed for a wide range of applications, including tracking luggage, vehicles, cars, and even children. Utilizing GlocalMe's patented Cloud SIM technology, it offers worldwide positioning without distance limitations, ensuring you can locate your valuable items or loved ones wherever a carrier network is available.

This device stands out with its unique combination of six positioning technologies: GPS, AGPS, LBS, Bluetooth, Wi-Fi, and Active Radar. This multi-technology approach significantly enhances positioning accuracy, especially in environments where traditional GPS or Wi-Fi signals might be weak or absent. The KeyTracker also provides a global emergency assistance network service, offering 30 minutes of free internet access in emergencies to help you stay connected.

2. What's in the Box

Upon opening your GlocalMe KeyTracker package, you will find the following items:

- GPS Tracker Device (KeyTracker)
- Built-in Battery (pre-installed)
- User Manual (this document)

3. Setup Guide

To begin using your GlocalMe KeyTracker, follow these simple steps:

1. **Charge the Device:** Ensure your KeyTracker is fully charged before first use. Connect it to a power source using the provided charging cable.
2. **Download the GlocalMe App:** The GlocalMe KeyTracker operates in conjunction with the dedicated GlocalMe mobile application. Download the app from your device's app store (available on Google Play for Android and the App Store for Apple iOS products).
3. **Register and Pair:** Open the GlocalMe app and follow the on-screen instructions to create an account and pair your KeyTracker device.
4. **Select a Subscription Plan:** The KeyTracker requires a subscription plan for location services. After pairing, you will be prompted to choose a suitable plan within the GlocalMe app. A one-month trial location service is typically included.

4. Operating Instructions

4.1 Real-Time Tracking and Location

Once set up and with an active subscription, your GlocalMe KeyTracker provides real-time tracking capabilities. You can monitor the device's location directly through the GlocalMe app on your smartphone or tablet. The app displays the current location on a map and can show location history.

Image: A visual demonstrating the live tracking feature of the KeyTracker on a mobile app, showing a map with a tracked person, and a 'Safety Zone' feature for geofencing.

4.2 Locating Items with Active Radar and Sound

For precise location within the last 100 meters, especially in complex environments, the KeyTracker utilizes an innovative active radar search feature. The GlocalMe app will guide you to your target even without GPS. Additionally, you can remotely activate a signal from the KeyTracker via the app, causing the device to emit a sound, making it easier to pinpoint its exact location when nearby.

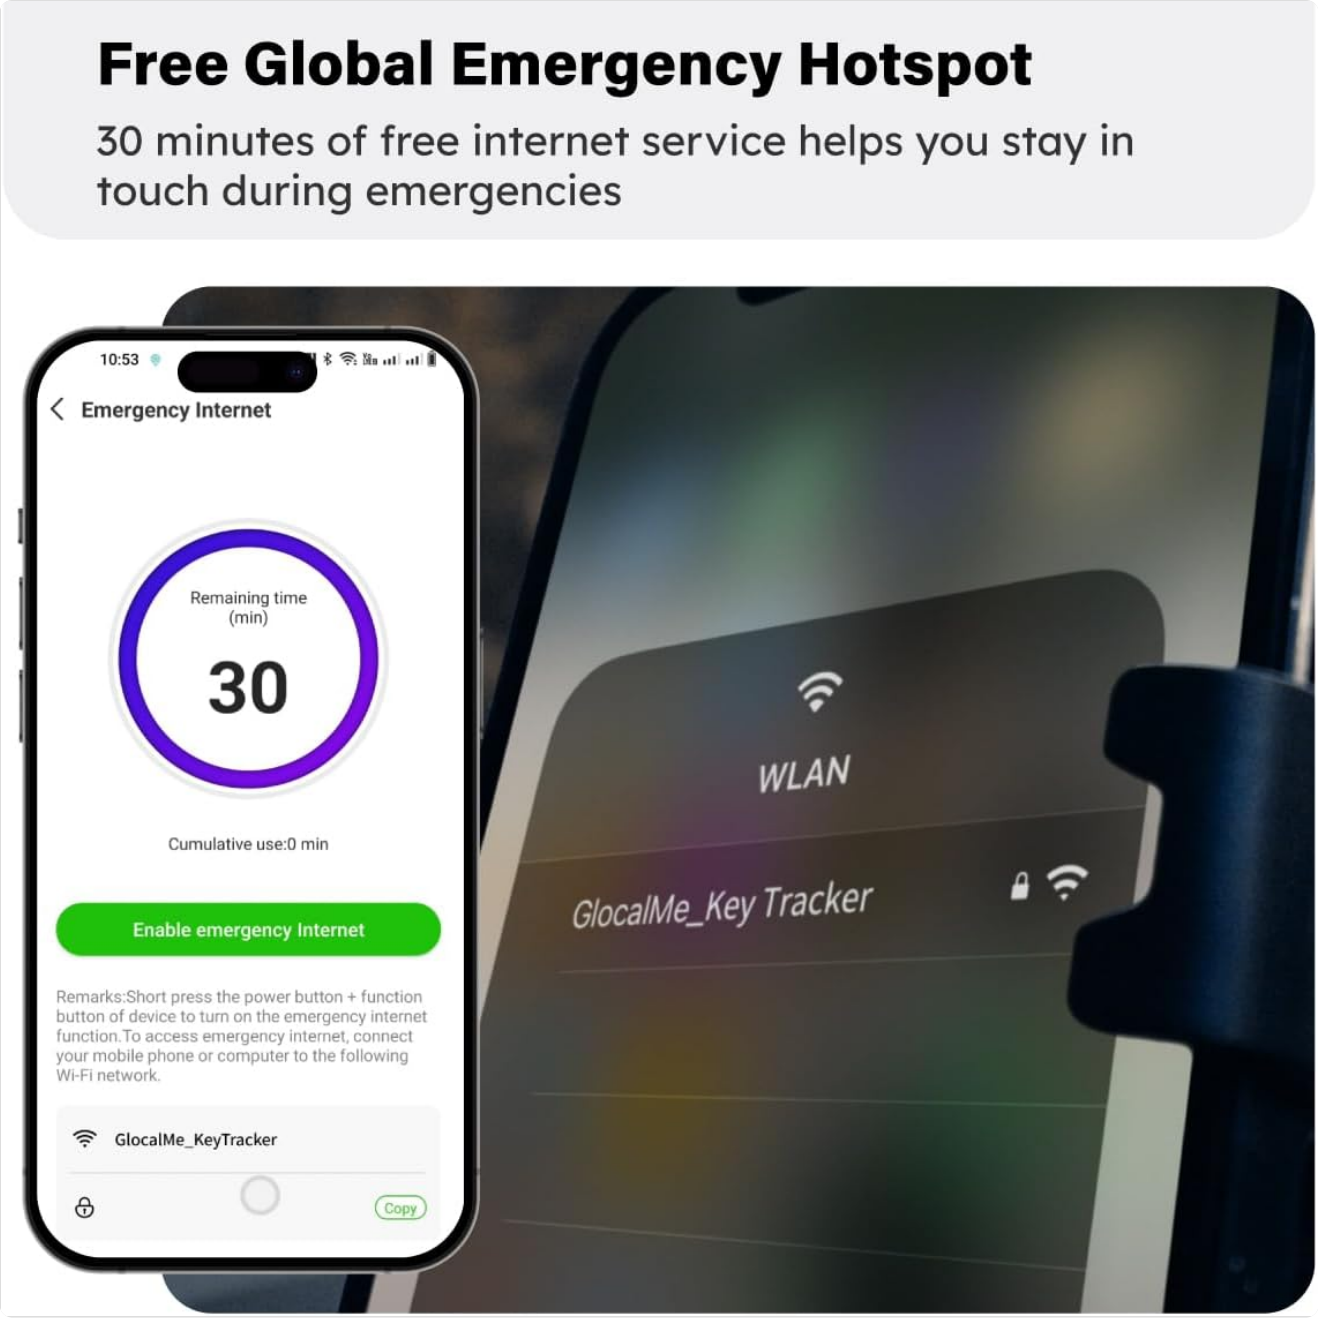

Image: Two panels illustrating how to track locations: the top panel shows a mobile app interface for terminal radar active scanning to find items within 100 meters, and the bottom panel shows the KeyTracker ringing to help locate it within 10 meters.

4.3 Emergency Internet Access

In emergency situations, the GlocalMe KeyTracker provides 30 minutes of free internet service. This feature allows you to stay connected when other options might not be available. To activate, short press the power button on the device to turn on the emergency internet function, then connect your mobile phone or computer to the KeyTracker's Wi-Fi network.

5. Key Features and Technologies

- **Global Positioning, Unlimited Distance:** Leveraging Cloud SIM technology, the KeyTracker can locate globally wherever a carrier network exists, without any distance limitations.
- **Six Positioning Technologies:** The device supports GPS, AGPS, LBS, Bluetooth, Wi-Fi, and Active Radar, significantly improving positioning accuracy by over 50% compared to traditional trackers, especially in areas with no GPS or Wi-Fi signal.
- **Global Emergency Assistance Network:** Enjoy network access in over 200 countries/regions without a physical SIM card, including 30 minutes of emergency internet access.
- **Effortless Item Location:** The active radar feature guides you to your target within the last 100 meters, and the remote signal allows the device to emit a sound for easy finding within 10 meters.
- **Compact Design & Long Battery Life:** Weighing only 45g and smaller than a business card, the KeyTracker features a 960 mAh battery, offering up to 9 days of location tracking or 8 hours of internet usage.

- **Versatile Tracking:** Ideal for tracking luggage, vehicles, cars, and children, providing peace of mind for your belongings and loved ones.

6. Subscription Plans

The GlocalMe KeyTracker requires a subscription for its location services. A one-month trial is included. Various subscription packages are available to suit different needs, offering monthly, 3-month, and 1-year options. Pricing and features vary by plan (Basic, Lite, Premium).

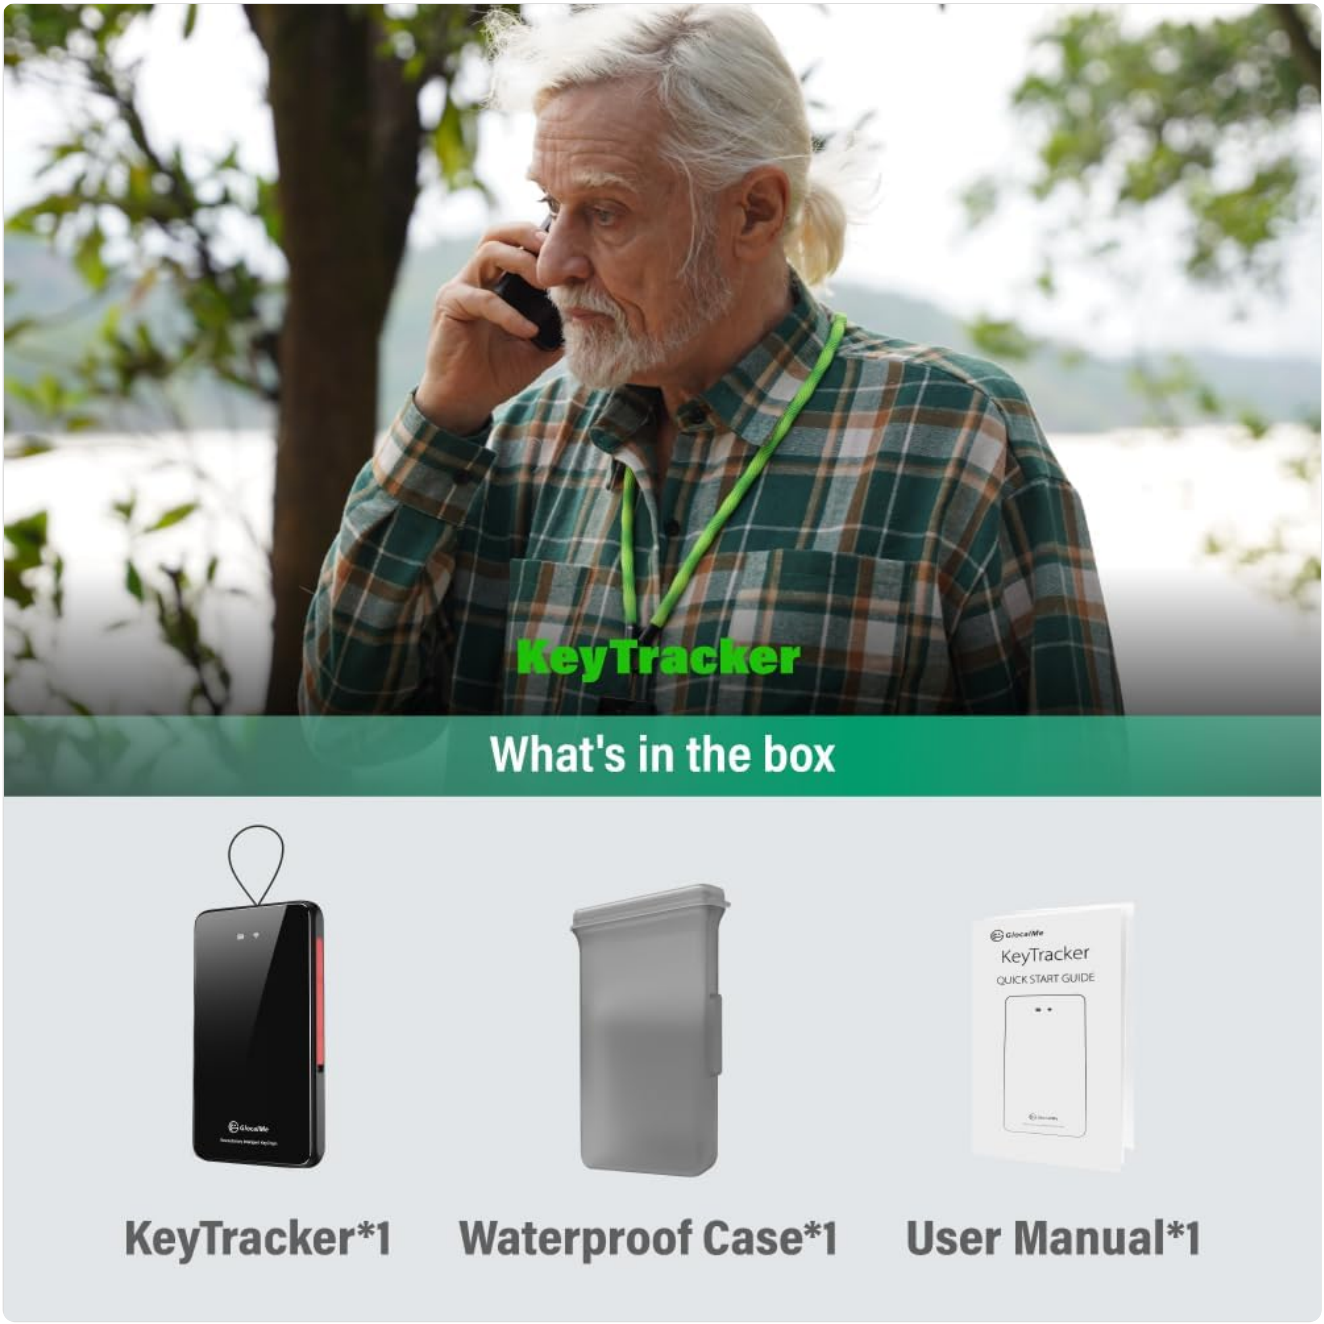

Image: A detailed overview of the GlocalMe KeyTracker's subscription plans (Basic, Lite, Premium) with their respective monthly, 3-month, and yearly pricing, along with included features like global positioning, real-time tracking, and emergency internet access.

7. Maintenance

The GlocalMe KeyTracker is designed for low maintenance. Keep the device clean and dry. Avoid exposing it to extreme temperatures or direct sunlight for prolonged periods. If the device comes with a waterproof case, ensure it is properly sealed when used in wet conditions.

8. Troubleshooting

If you encounter any issues with your GlocalMe KeyTracker, consider the following common troubleshooting steps:

- **Device Not Locating:** Ensure the device has an active subscription plan and is within an area with carrier network coverage. Check the battery level.
- **App Connectivity Issues:** Verify your smartphone's internet connection. Ensure the GlocalMe app is updated to the latest version. Try restarting both the KeyTracker and your smartphone.

- **Inaccurate Location:** While the KeyTracker uses multiple technologies for accuracy, environmental factors (e.g., dense urban areas, thick foliage, underground locations) can affect signal strength. Move to an open area if possible.
- **Battery Draining Quickly:** Usage patterns, especially continuous real-time tracking or hotspot use, can affect battery life. Ensure the device is fully charged before extended use.

For persistent issues, refer to the support section within the GlocalMe app or contact GlocalMe customer support.

9. Specifications

Feature	Detail
Product Dimensions	3.31 x 1.81 x 0.36 inches
Item Weight	1.59 ounces
Item Model Number	T10-GPS-US
Batteries	1 Lithium Polymer batteries required (included)
Connectivity Technologies	Bluetooth, Wi-Fi, AGPS, GPS, LBS
Special Features	Unlimited Distance, WiFi Mobile Hotspot, Six Relocation Technology, Real Time Tracking
Color	Black
Manufacturer	GlocalMe
Country of Origin	China
Supported Application	Find My Phone
Specific Uses For Product	Tracker for Kids, Tracker for Car, Tracker for Luggage

10. Warranty and Support

Specific warranty details are typically provided with your purchase documentation or can be found on the official GlocalMe website. For technical support, customer service, or further inquiries, please utilize the support features within the GlocalMe mobile application or visit the GlocalMe official support channels.
