Step-by-Step Assembly:

1. **Prepare Components:** Unpack all parts and hardware. Identify each piece using the provided labels and the exploded diagram (refer to the assembly video for visual guidance). Ensure all necessary tools are at hand.
2. **Assemble Base Panels:** Attach the side panels to the bottom panel using cam locks and pins. Ensure they are securely fastened.
3. **Install Internal Dividers:** Insert the internal vertical and horizontal dividers into their designated slots, securing them with the appropriate hardware.
4. **Attach Drawer Slides:** Secure the drawer slides to the internal cabinet walls using screws. Ensure they are level and aligned for smooth drawer operation.
5. **Assemble Drawers:** Construct the three drawers by attaching the sides, front, and back panels. Install the drawer handles and the glass top panels. Insert the internal grid classification dividers into the drawers.
6. **Insert Drawers:** Carefully slide the assembled drawers onto the installed drawer slides.
7. **Assemble and Attach Door:** Attach the hinges to the door panel and then secure the door to the cabinet frame. Adjust hinges for proper alignment and smooth opening/closing.
8. **Install Shelves:** Place the glass shelves into the designated shelf pins within the open compartments.
9. **Assemble Bench:** Attach the bench components together, ensuring stability. Secure the soft seat cushion to the top of the bench.
10. **Attach Charging Station:** Install the charging station (2 AC outlets, 2 USB ports) into the pre-cut opening on the side panel. Connect the power cord.
11. **Install LED Light Strips:** Adhere the multi-color RGB LED light strips to the interior of the glass showcase compartments and under the top panel as shown in the video. Connect them to the power source.
12. **Secure with Anti-Tip Hardware:** Attach the anti-tip hardware to the back of the cabinet and to a wall stud to

prevent accidental tipping.

OPERATING INSTRUCTIONS

LED Lighting System:

The cabinet is equipped with multi-color RGB LED light strips. These lights can be controlled via a button located underneath the top panel or through a dedicated app (if applicable, refer to separate app instructions if provided).

- **Power On/Off:** Press the control button once to turn the LED lights on or off.
- **Change Colors/Modes:** Short presses of the button will cycle through various colors and lighting modes (e.g., solid colors, flashing, music sync).
- **App Control:** For advanced control, including specific color selection, brightness adjustment, and timing modes, download and connect to the recommended mobile application (details typically found in a separate leaflet or QR code).

Charging Station:

The integrated charging station provides convenient power access for your devices.

- **AC Outlets:** Two 125V/12A AC outlets are available for standard electronic devices.
- **USB Ports:** Two 5V/2A USB ports are provided for charging mobile phones, tablets, and other USB-powered devices.
- **Usage:** Simply plug your devices into the appropriate outlets. Ensure the main power cord of the cabinet is plugged into a wall outlet.

MAINTENANCE

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners that could damage the finish. For glass surfaces, use a glass cleaner.
- **Dusting:** Regularly dust all surfaces to prevent buildup.
- **Hardware Check:** Periodically check all screws and fasteners to ensure they are tight. Re-tighten if necessary.
- **LED Lights:** The LED strips are designed for long-term use. If a strip malfunctions, contact customer support for replacement options.
- **Charging Station:** Ensure the charging station is kept dry. Do not overload the outlets.

TROUBLESHOOTING

Problem	Possible Cause	Solution
LED lights not turning on.	Power cord not plugged in; loose connection; faulty LED strip.	Ensure the main power cord is securely plugged into a wall outlet. Check the connection of the LED strips to the power source. If still not working, contact customer support.
Drawers are stiff or do not close smoothly.	Improperly installed drawer slides; loose screws; obstruction.	Verify that the drawer slides are installed correctly and all screws are tightened. Check for any obstructions in the drawer tracks.
Charging station not working.	Power cord not plugged in; device not compatible; faulty outlet/port.	Ensure the main power cord is plugged in. Test with a different device. If the issue persists, contact customer support.
Cabinet feels unstable.	Uneven floor; loose connections; anti-tip hardware not installed.	Adjust the cabinet's position on a level surface. Tighten all assembly screws. Install the anti-tip hardware as instructed.
