MAINTENANCE

Regular maintenance will help prolong the life and performance of your ceiling fan.

- **Cleaning:** Periodically clean the fan blades and motor housing with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- **Blade Balance:** Check the fan blades for any wobbling. If wobbling occurs, ensure all blade screws are tightened and use the included balancing kit if necessary.
- **Light Kit:** The LED light is integrated and designed for long life. If replacement is ever needed, contact customer support.
- **Connections:** Annually check all electrical connections and mounting hardware for tightness.

TROUBLESHOOTING

If you experience issues with your fan, please refer to the following common troubleshooting steps:

Problem	Possible Cause	Solution
Fan does not start	No power to the fan; Loose wire connections; Remote control battery low.	Check circuit breaker; Ensure all wires are securely connected; Replace remote control batteries.
Fan wobbles	Loose blade screws; Unbalanced blades; Loose mounting bracket.	Tighten all blade screws; Use blade balancing kit; Ensure mounting bracket is securely fastened.
Light does not work	Loose wire connection to light kit; Faulty LED.	Check light kit wiring; Contact customer support for LED issues.
Remote control not working	Low or dead batteries; Remote not paired with fan.	Replace batteries; Refer to remote pairing instructions in the full manual (if applicable).

If the problem persists after attempting these solutions, please contact Fanbulous customer support for assistance.
