OPERATING INSTRUCTIONS

Using the Beds:

- Place a suitable mattress (max 10cm thickness) on each slatted base.
- Ensure the top bunk is only used by children aged 6 years or older.
- Always use the ladder to access the top bunk. Do not climb on the bed frame.

Using the Storage Drawers:

- The two drawers located under the lower bed provide convenient storage for toys, books, or bedding.
- Pull the drawers gently to open and push them firmly to close.
- The drawers are designed to be removable for easier transport or cleaning.

MAINTENANCE

- **Cleaning:** Wipe the bed frame with a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners, as they may damage the finish.
- **Hardware Check:** Regularly inspect all bolts, screws, and connections to ensure they are tight. Loose hardware can compromise the bed's stability and safety. Retighten as needed.
- **Slats:** Ensure all wooden slats are securely in place and not damaged. Replace any broken slats immediately.

- **Moving the Bed:** If you need to move the bed, lift it rather than dragging it to prevent damage to the frame and floor. For significant moves, it is recommended to partially disassemble the bed.
