5.2. Key Assembly Steps

1. **Unpack and Identify Parts:** Lay out all components on a clean, soft surface. Refer to the parts list in your printed manual to identify each piece.
2. **Assemble the Base Frame:** Attach the metal legs and connecting bars to form the cabinet's base. Ensure all screws are tightened securely.
3. **Construct the Cabinet Body:** Connect the side panels, bottom panel, and back panel using the provided hardware. Pay attention to the orientation of each panel.
4. **Install Adjustable Shelves:** Insert the shelf pins into the desired height holes. Place the adjustable shelves onto the pins. The shelves can be adjusted to three different heights, each spaced 2 inches apart.
5. **Attach Doors:** Secure the hinges to the cabinet doors and then attach the doors to the cabinet body. Adjust hinges as needed for proper door alignment.
6. **Install Anti-Tip Mechanism:** For safety, attach the anti-tip mechanism to the back of the cabinet and secure it to a wall stud.

6. OPERATING INSTRUCTIONS

The FiveWillowise Buffet Cabinet is designed for straightforward use.

6.1. Adjusting Shelves

The interior shelves are adjustable to accommodate items of various sizes. To adjust a shelf:

1. Empty the shelf of all contents.
2. Carefully lift the shelf and remove the four metal pins supporting it.
3. Reinsert the pins into the desired holes at the new height. Ensure all four pins are at the same level.
4. Place the shelf back onto the pins, ensuring it is stable and level before placing items on it.

7. MAINTENANCE

To keep your FiveWillowise Buffet Cabinet in excellent condition, follow these maintenance tips:

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners, as they may damage the laminate finish.
- **Spills:** Promptly clean up any spills to prevent staining or water damage to the engineered wood. The surface is waterproof and scratch-resistant, but immediate cleaning is always recommended.
- **Inspection:** Periodically check all screws and connections to ensure they remain tight. Retighten if necessary.
- **Sunlight Exposure:** Avoid prolonged exposure to direct sunlight to prevent fading or discoloration of the wood finish.

8. TROUBLESHOOTING

Here are solutions to common issues you might encounter:

- **Doors do not align properly:**

Adjust the hinges on the inside of the cabinet doors. Most hinges allow for vertical, horizontal, and depth adjustments using a screwdriver. Refer to the hinge adjustment section in your detailed manual.

- **Cabinet feels wobbly:**

Ensure all cam locks and screws are fully tightened. Verify that the cabinet is placed on a level surface. If the floor is uneven, use furniture glides or shims under the legs to stabilize. Confirm the anti-tip mechanism is correctly installed and secured to the wall.

- **Difficulty closing doors:**

Check for any obstructions inside the cabinet. Ensure the hinges are properly aligned and adjusted. Sometimes, loosening and re-tightening the hinge screws can resolve this.
