## 1. PRODUCT OVERVIEW

---

The Belkin BoostCharge Magnetic Wireless Charging Pad with Qi2 15W provides efficient and secure wireless charging for compatible devices. Featuring Qi2 technology, it delivers up to 15W of power, optimizing energy usage and protecting battery life. Its MagSafe-compatible design ensures precise alignment with a simple magnetic 'click'. This charging pad is designed for use with iPhones (14, 15, 16 series) and AirPods, offering a versatile charging solution with a non-slip base for stability.

Figure 1: Belkin BoostCharge Magnetic Wireless Charging Pad with Qi2 15W.

## 2. SETUP INSTRUCTIONS

---

1. **Unpack the Charger:** Carefully remove the BoostCharge Magnetic Wireless Charging Pad and the included 5ft USB-C to USB-C cable from its packaging.
2. **Connect to Power:** Insert one end of the USB-C to USB-C cable into the charging pad. Connect the other end of the cable to a compatible USB-C power adapter (*power adapter not included*). For optimal 15W fast charging, use a power adapter that supports PD3.1 (EPR) / PD3.0.
3. **Placement:** Place the charging pad on a flat, stable surface. The non-slip base is designed to keep the pad securely in position during use.

Charge up to 2x faster.†

Qi2

15W

†Based on internal testing. Belkin Qi2 15W wireless charger charges iPhone 15 from 0-50% up to 2x faster than a Qi 5W wireless charger and up to 1.5x faster than a Qi 7.5W wireless charger. Charge time varies with environmental factors; results may vary.

Figure 2: The Belkin BoostCharge Magnetic Wireless Charging Pad actively charging an iPhone, highlighting its 15W fast charging capability.

**Nonslip base  
keeps pad in place.**

### **3. OPERATING INSTRUCTIONS**

---

#### **3.1 Charging an iPhone**

To charge your iPhone, simply place it onto the center of the charging pad. The MagSafe-compatible technology will magnetically align your device, ensuring optimal charging. A 'click' sensation confirms proper placement. The charging indicator on your iPhone will confirm that charging has begun.

### **3.2 Charging AirPods**

Place your AirPods charging case (compatible with wireless charging) onto the center of the charging pad. Ensure the case is centered for effective charging. The indicator light on your AirPods case will show its charging status.

### **3.3 Fast Charging and Qi2 Technology**

This charging pad utilizes Qi2 technology to deliver up to 15W of power for fast charging compatible devices. Qi2 also helps optimize energy usage and protect your device's battery health. Charging speed may vary based on environmental factors and device battery status.

### **3.4 Case Compatibility**

The charging pad is compatible with MagSafe-compatible phone cases up to 3mm thick. Ensure your case is not excessively thick or contains metal objects that could interfere with wireless charging.

Figure 4: A close-up view of an iPhone magnetically attached to the charging pad, illustrating the strong magnetic connection.

## 4. MAINTENANCE

---

- **Cleaning:** Disconnect the charging pad from the power source before cleaning. Use a soft, dry, lint-free cloth to wipe the surface. Avoid using harsh chemicals, cleaning solvents, or abrasive cleaners.
- **Storage:** When not in use, store the charging pad in a cool, dry place away from direct sunlight and

extreme temperatures.

- **Safety:** Do not expose the charging pad to water or other liquids. Avoid dropping or subjecting the device to strong impacts.

## 5. TROUBLESHOOTING

Problem	Possible Cause	Solution
Device not charging	Incorrect placement; Power adapter not connected; Incompatible case; Device not Qi2 compatible.	Ensure device is centered on the pad; Verify power adapter is securely connected and functional; Remove phone case or use a MagSafe-compatible case (max 3mm thick); Confirm device supports Qi2 wireless charging.
Slow charging	Power adapter insufficient; Background apps; Environmental factors.	Use a PD3.1 (EPR) / PD3.0 compatible power adapter for 15W charging; Close unnecessary apps; Ensure charging in a moderate temperature environment.
Magnetic attachment weak	Phone case interference; Foreign objects.	Ensure phone case is MagSafe-compatible and not thicker than 3mm; Remove any metal objects or cards between the phone and charger.

## 6. SPECIFICATIONS

Feature	Detail
Brand	Belkin
Model Number	BEL-CHG-15-MAG
GTIN / UPC	745883887774
Wireless Charging Standard	Qi2 Certified, MagSafe Compatible
Output Wattage	Up to 15W
Connector Type	USB Type C
Input Voltage	100 Volts (requires compatible power adapter)
Output Current	3 Amps
Output Voltage	5 Volts

Feature	Detail
Compatible Devices	iPhones (14, 15, 16 Series), Qi2 compatible devices, AirPods (wireless charging case)
Special Features	Fast Charging, Magnetic Attachment, Non-Slip Design
Included Components	1 x BoostCharge Magnetic Charging Pad with Qi2, 1 x 5ft USB-C to USB-C cable
Material	Plastic (75% post-consumer recycled materials)
Item Weight	0.18 Kilograms

## 7. WARRANTY AND SUPPORT

---

### 7.1 Product Warranty

This Belkin BoostCharge Magnetic Wireless Charging Pad comes with a **2-year manufacturer limited warranty**. Please retain your proof of purchase for warranty claims.

### 7.2 Connected Equipment Warranty (CEW)

Belkin offers a **\$2,500 Connected Equipment Warranty (CEW)**. This warranty provides coverage for equipment properly connected to the Belkin product if it is damaged by a surge, spike, or lightning strike while connected to a Belkin surge protector or power product. Refer to the official Belkin website for full terms and conditions of the CEW.

### 7.3 Customer Support

For further assistance, technical support, or warranty inquiries, please visit the official Belkin support website or contact their customer service. You can find more information at [Belkin Support](#).
