TROUBLESHOOTING

If you encounter issues with your EUQQ Q92-W headphones, refer to the following common solutions:

- Earbuds not charging:**
Ensure the charging cable is securely connected to both the case and a working power source. Check that the earbuds are properly seated in the charging case. If using a multi-port charger, ensure it provides sufficient voltage/wattage; some low-power devices may not trigger charging on certain stations. Try charging with a dedicated phone charger or by charging your phone simultaneously.
- Only one earbud working:**
Try resetting the earbuds. Place both earbuds back into the charging case, close the lid, then open it again. Re-pair them with your device. Ensure both earbuds have sufficient charge.
- Earbuds not pairing or disconnecting frequently:**
Ensure the earbuds are fully charged. Turn off Bluetooth on your device, then turn it back on. Forget "YYK-Q92" from your device's Bluetooth list and attempt to pair again. Move closer to your device to avoid interference.
- Low sound volume or poor call quality:**
Adjust the volume on both your device and the earbuds. Ensure the earbuds are worn correctly and securely. Clean any debris from the earbud speakers and microphones.
- Touch controls not responding:**
Ensure your fingers are clean and dry. Try restarting the earbuds by placing them in the case and taking them out again.
