SETUP

1. Charging the Smartwatch

Before initial use, fully charge your SLuB ZW60 Smartwatch. Connect the magnetic charging cable to the charging contacts on the back of the watch and plug the USB end into a standard USB power adapter (not included) or a computer's USB port. The watch display will indicate charging status. A full charge typically takes approximately 2 hours.

2. App Installation: H Band

To unlock the full functionality of your smartwatch, download and install the dedicated "H Band" application on your smartphone. Search for "H Band" in your device's app store (Google Play Store for Android or Apple App Store for iOS).

APP

Dedicated App "H band"

Connect with the app to experience even more convenient features!

Multi-Menu Screen

Enter the menu, switch between your favorite menu styles to suit your preferences, and the high-performance sensor ensures ultra-smooth touch response.

3. Bluetooth Pairing

1. Ensure your smartwatch is charged and powered on.
2. Enable Bluetooth on your smartphone.
3. Open the "H Band" app.

4. Follow the in-app instructions to search for and connect to your SLuB ZW60 Smartwatch. The app will guide you through the pairing process.
5. Confirm the pairing request on both your smartphone and the smartwatch if prompted.

Once paired, the smartwatch will synchronize data with the app and enable features like call notifications and message alerts.

OPERATING INSTRUCTIONS

Basic Navigation

- **Touchscreen:** Swipe left, right, up, or down to navigate through menus and screens. Tap to select an item.
- **Side Button:** Typically used to wake the screen, return to the home screen, or access the app menu. Refer to the on-screen prompts for specific functions.

Calling Function

With the smartwatch connected to your smartphone via Bluetooth, you can make and receive calls directly from your wrist. The built-in speaker and microphone allow for hands-free communication.

- **Making Calls:** Access the dial pad or contacts list on your smartwatch to initiate a call.
- **Receiving Calls:** When a call comes in, the smartwatch will display the caller ID. Tap the green icon to answer or the red icon to reject.

Message Notifications

Once paired with your smartphone, the smartwatch can display notifications from various apps, including emails, social media, and messaging services. This allows you to stay informed without needing to check your phone constantly.

- Ensure app notifications are enabled in your smartphone's settings and within the "H Band" app.
- Swipe down on the watch face to view recent notifications.

Difficult to Miss Important Notifications

You can sync message notifications from WeChat, LINE, and other apps.

Health Management Functions

The SLuB ZW60 Smartwatch is equipped with multiple sensors to monitor various health metrics. Access these features through the watch menu or the "H Band" app.

- **Heart Rate Monitoring:** Continuously or periodically measures your heart rate.
- **Sleep Monitoring:** Tracks your sleep patterns, including deep sleep, light sleep, and wake times.

- **Calorie Consumption:** Estimates calories burned based on activity levels.
- **Exercise Data:** Records steps, distance, and other activity metrics.

Disclaimer: The data provided by these functions is for general wellness and fitness purposes only and should not be used for medical diagnosis or treatment.

Sports Modes

The smartwatch supports over 150 sports modes, allowing you to accurately track your workouts. Common modes include running, cycling, badminton, basketball, and football.

- Select your desired sport from the watch's sports menu.
- The watch will record duration, calories burned, and other relevant metrics for your activity.
- Review detailed statistics in the "H Band" app after your workout.

Music Player Control

Control music playback on your connected smartphone directly from your smartwatch. You can play, pause, skip tracks, and adjust volume.

AI Voice Assistant

Utilize the integrated AI Voice Assistant for quick commands and information retrieval. Activate the assistant via the watch interface and speak your commands.

Customizable Watch Faces

Choose from a variety of pre-installed watch faces or customize your own through the "H Band" app to match your style and display preferred information.

MAINTENANCE

Cleaning Your Smartwatch

Regular cleaning helps maintain the appearance and functionality of your device.

- Wipe the screen and body with a soft, lint-free cloth.
- For stubborn dirt, slightly dampen the cloth with water. Avoid using harsh chemicals or abrasive materials.
- Ensure the charging contacts are clean and dry before charging.

Water Resistance (IP67)

The SLuB ZW60 Smartwatch is rated IP67, meaning it is dust-tight and can withstand immersion in water up to 1 meter (3.3 feet) for up to 30 minutes. This makes it suitable for daily use, such as washing hands or light rain exposure.

- **Do NOT** use the watch for swimming, diving, or showering with hot water.
- **Avoid** exposing the watch to high-pressure water or steam.
- If the watch gets wet, dry it thoroughly before charging or operating.

Battery Life Tips

- Reduce screen brightness.
- Disable unnecessary notifications.
- Limit continuous heart rate monitoring if not required.
- Ensure the "H Band" app is running efficiently in the background on your phone.

TROUBLESHOOTING

Problem	Possible Solution
Watch does not turn on.	Ensure the watch is fully charged. Connect it to the charger for at least 30 minutes.
Cannot pair with smartphone.	- Ensure Bluetooth is enabled on your phone. - Make sure the "H Band" app is open. - Restart both the watch and your smartphone. - Forget the device in your phone's Bluetooth settings and try pairing again through the app.

Problem	Possible Solution
Notifications are not received.	• Check notification permissions for the "H Band" app in your phone's settings. • Ensure the app is running in the background. • Verify that notifications are enabled within the "H Band" app settings for specific applications.
Inaccurate health data.	• Ensure the watch is worn snugly on your wrist, not too tight or too loose. • Clean the sensor on the back of the watch. • Remember that data is for reference and not medical diagnosis.
Screen is unresponsive.	Try restarting the watch by pressing and holding the side button until it powers off, then power it back on.
