## anyloop ALK1

# anyloop ALK1 Kids Smartwatch Instruction Manual

Model: ALK1 | Brand: anyloop

## INTRODUCTION

---

Thank you for choosing the anyloop ALK1 Kids Smartwatch. This device is designed to help children aged 6-16 track their activities, monitor health metrics, and enjoy interactive features. This manual provides essential information on how to set up, operate, maintain, and troubleshoot your smartwatch to ensure optimal performance and a positive user experience.

## PACKAGE CONTENTS

---

- 1 x anyloop ALK1 Kids Smartwatch
- 1 x Charging Cable
- 1 x User Manual

## SETUP

---

### 1. Initial Charging

Before first use, fully charge the smartwatch. Connect the charging cable to the watch's charging port and a standard USB power adapter (not included). A full charge typically takes approximately 2 hours. The watch has a 300 mAh Lithium-ion battery, providing 5-7 days of usage and up to 30 days of standby time, depending on usage patterns.

## 2. App Installation and Pairing

To unlock the full potential of your smartwatch, download the compatible mobile application on a smartphone or tablet. The app supports Android 6.0+ and iOS 9.0+ devices.

1. Scan the QR code in the manual or search for the app name (usually provided in the quick start guide) in your device's app store.
2. Install the application.
3. Open the app and follow the on-screen instructions to create an account and pair your smartwatch via Bluetooth. Ensure Bluetooth is enabled on your smartphone/tablet.
4. Once paired, you can manage settings, view health data, and customize watch faces through the app.

## OPERATING INSTRUCTIONS

### 1. Basic Navigation

The smartwatch features a 1.52-inch TFTLED touchscreen display. Swipe left, right, up, or down to navigate through menus and functions. Tap to select an option.

### 2. Activity Tracking

The watch automatically monitors daily activities, including step count, distance traveled, calories burned, and active minutes. This data helps children understand their activity levels.

## 20+Sport Modi

## Gesundes Ziel

Image: The smartwatch displaying activity tracking data, including steps, calories, and distance, with children exercising in the background.

### 3. Sport Modes

The smartwatch supports 20 different sport modes, such as walking, running, cycling, swimming, and basketball. Select the appropriate mode before starting an activity for more accurate tracking.

### 4. Health Monitoring

- **Heart Rate Monitor:** The watch provides 24/7 heart rate monitoring, accurately tracking heart rate data.
- **Sleep Monitor:** It automatically monitors sleep patterns, offering a comprehensive analysis of sleep quality (deep sleep, light sleep, wake time) to promote healthier habits.
- **Silent Alarm:** A vibrating alarm can wake children gently without disturbing others.

## 5. Other Features

The ALK1 smartwatch includes a variety of useful functions:

- **Games:** Enjoy 19 built-in games for entertainment.
- **Notifications:** Receive alerts for calls, messages, and app notifications when connected to a smartphone.
- **Weather:** Check current weather conditions.
- **Time Display:** Digital and analog time display options.
- **Calculator:** A basic calculator for quick computations.
- **Do Not Disturb Mode:** Silence notifications during specific times.
- **Alarm:** Set multiple alarms.
- **Find My Phone:** Locate a paired smartphone.
- **Sedentary Reminder:** Prompts to move after periods of inactivity.
- **Drink Water Reminder:** Reminds users to stay hydrated.
- **Flashlight:** A simple light function.

## MAINTENANCE

### 1. Cleaning

Regularly clean the smartwatch and strap with a soft, dry cloth. If necessary, use a slightly damp cloth with mild soap, then wipe dry. Avoid harsh chemicals or abrasive materials.

### 2. Water Resistance (IP68)

The smartwatch has an IP68 waterproof rating, meaning it is resistant to dust and can withstand immersion in water up to 1.5 meters for 30 minutes. It is suitable for swimming and other water activities. However, avoid hot water, steam, or prolonged immersion in saltwater.

Image: A child wearing the smartwatch while playing in a swimming pool, demonstrating its IP68 waterproof capability.

### 3. Charging Port Care

Keep the charging contacts clean and dry to ensure efficient charging. Do not force the charging cable into the port.

### 4. Storage

When not in use for extended periods, store the smartwatch in a cool, dry place. Charge it periodically to maintain battery health.

## TROUBLESHOOTING

If you encounter issues with your anyloop ALK1 Kids Smartwatch, please refer to the following common solutions:

- **Watch not turning on:** Ensure the watch is fully charged. Connect it to the charger for at least 30 minutes.
- **Cannot pair with phone:** Make sure Bluetooth is enabled on your phone and the watch. Restart both

devices and try pairing again. Ensure the app is installed and updated.

- **Inaccurate health data:** Ensure the watch is worn snugly on the wrist, not too tight or too loose. Clean the sensors on the back of the watch.
- **Screen unresponsive:** Try restarting the watch. If the issue persists, ensure the screen is clean and dry.
- **Short battery life:** Reduce screen brightness, disable unnecessary notifications, and limit continuous health monitoring if not required.

If these steps do not resolve the issue, please contact customer support.

## SPECIFICATIONS

Feature	Description
Model Number	ALK1
Brand	anyloop
Screen Size	1.52 Inches
Display Type	TFTLED
Battery Capacity	300 mAh Lithium-ion
Average Battery Life	5-7 days (usage), 30 days (standby)
