CLEANmaxx 14974

CLEANmaxx Automatic Ironing Machine PRO User Manual

Model: 14974

INTRODUCTION

This manual provides detailed instructions for the safe and efficient operation of your CLEANmaxx Automatic Ironing Machine PRO. Please read this manual thoroughly before first use and keep it for future reference.

The CLEANmaxx Automatic Ironing Machine PRO is designed to automatically smooth and dry outerwear such as shirts, blouses, T-shirts, and sweaters, offering a convenient alternative to traditional ironing, ironing boards, and garment steamers. It utilizes intelligent hot air technology to deliver wrinkle-free results.

IMPORTANT SAFETY INSTRUCTIONS

Always follow basic safety precautions when using electrical appliances to reduce the risk of fire, electric shock, and personal injury.

- Read all instructions before using the appliance.
- Do not immerse the appliance, cord, or plug in water or other liquids.
- Keep the appliance out of reach of children.
- Do not operate the appliance with a damaged cord or plug, or if the appliance malfunctions or has been damaged in any manner.
- Use the appliance only for its intended purpose as described in this manual.
- Do not use the appliance on delicate textiles such as wool or other materials that may shrink or be damaged by heat.
- Ensure adequate ventilation around the appliance during operation.
- Unplug the appliance from the power outlet when not in use and before cleaning.
- Allow the appliance to cool completely before storing.

SETUP AND ASSEMBLY

The CLEANmaxx Automatic Ironing Machine PRO is designed for easy assembly.

1. Unpack all components from the packaging.
2. Assemble the main unit. The telescopic rod can be extended to adjust the height.

3. Ensure the mannequin body is securely attached to the base unit.

Image: Detail of the adjustable features, including the zipper for adapting to different garment sizes and the telescopic rod for length adjustment.

The mannequin body is expandable via a zipper and the telescopic rod, making it suitable for almost all sizes (S to XXL) and various lengths of garments.

OPERATING INSTRUCTIONS

Follow these steps for optimal results when using your CLEANmaxx Automatic Ironing Machine PRO:

- Prepare the Garment:** Ensure the garment is machine-spun (damp, not dripping wet). The appliance is suitable for dryer-safe textiles such as jeans, linen, cotton, and polyester. Do not use on delicate fabrics like wool that may shrink or be damaged by heat.
- Place on Mannequin:** Carefully pull the damp shirt, blouse, or T-shirt over the mannequin body.
- Secure with Weights:** Attach the 5 included weight clips to the hem of the garment at regular intervals. This helps to stretch the fabric and prevent wrinkles as it dries.
- Power On and Set Timer:** Plug the appliance into a suitable power outlet. Turn on the device and activate the timer. The timer can typically be set for 5 to 30 minutes, depending on the garment's material and dampness.
- Drying and Smoothing Process:** The mannequin body will inflate and emit hot air (up to 45°C). This intelligent hot air technology dries the garment gently and smooths out wrinkles.
- Completion:** Once the timer finishes, the appliance will turn off. Allow the garment to cool slightly before removing it from the mannequin.

CARE AND MAINTENANCE

- Cleaning:** Before cleaning, always unplug the appliance and allow it to cool down completely. Wipe the exterior surfaces with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- Storage:** Store the appliance in a dry, cool place when not in use. Ensure the power cord is neatly wrapped and not kinked.
- Regular Checks:** Periodically inspect the power cord and plug for any signs of damage. If damage is found, discontinue use and contact customer support.

TROUBLESHOOTING

If you encounter issues with your CLEANmaxx Automatic Ironing Machine PRO, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Appliance does not turn on.	Not plugged in, power outlet malfunction, damaged cord.	Ensure the plug is fully inserted. Test the outlet with another device. Check the power cord for damage.
Garment is still wrinkled after use.	Garment too dry, not properly secured, incorrect timer setting, unsuitable fabric.	Ensure garment is damp. Secure all 5 weight clips. Increase timer duration. Verify fabric is dryer-safe.
Appliance is noisy during operation.	Normal operation sound (fan), internal component loose.	A certain level of fan noise is normal. If the noise is unusual or excessive, discontinue use and contact customer support.
Garment takes too long to dry.	Garment too wet, thick fabric, low ambient temperature.	Ensure garment is well-spun. Increase timer duration.

PRODUCT SPECIFICATIONS

- Brand:** CLEANmaxx
- Model Number:** 14974
- Color:** Blue
- Dimensions (Mannequin Body):** 100 cm (Length) x 58 cm (Width)
- Weight:** 4.2 Kilograms
- Power:** 1800 Watts
- Special Features:** Fully automatic ironing, hot air technology, drying function, timer function, telescopic rod, size adjustment.
- Material:** Stainless Steel (base material)
- Recommended Use:** Dryer-safe textiles
- Country of Origin:** China
