Beetel G30

Beetel G30 Corded Landline Phone User Manual

Model: G30

Brand: Beetel

INTRODUCTION

Thank you for choosing the Beetel G30 Corded Landline Phone. This manual provides detailed instructions for setting up, operating, and maintaining your new telephone. Please read this manual thoroughly before use to ensure proper functionality and to take full advantage of its features.

Key Features:

- TEC Certified: Ensures compliance with technical standards.
- 2-Way Speaker Phone: Adjustable volume for hands-free communication.
- LCD Display: Clear screen for caller ID, date, and time with 3-level contrast adjustment.
- DTMF/FSK Compatible: Supports various caller ID transmission methods.
- Adjustable Handset/Ringer Volume: Customize audio levels.
- Music on Hold: Keeps callers engaged during hold.
- Desk/Wall Mountable: Flexible installation options.
- Ringer LED: Visual alert for incoming calls.

What's in the Box:

- Beetel G30 Landline Phone Unit
- Handset
- Coiled Handset Cord
- Line Cord
- User Manual

SETUP INSTRUCTIONS

Follow these steps to set up your Beetel G30 landline phone.

1. Connecting the Handset

Connect one end of the coiled handset cord to the handset and the other end to the port labeled**HANDSET**

on the side of the phone base unit.

Image: The Beetel G30 phone with its handset properly connected via the coiled cord.

2. Connecting the Line Cord

Connect one end of the line cord to the port labeled**LINE** on the back of the phone base unit. Connect the other end to your telephone wall jack.

3. Powering On (Battery Installation for LCD)

While the phone is corded, the LCD display requires batteries for full functionality, including caller ID and display contrast. Open the battery compartment on the underside of the phone and insert the required batteries (typically AAA, refer to the compartment for exact type and quantity). Ensure correct polarity.

4. Desk or Wall Mounting

The G30 can be placed on a desk or mounted on a wall. For wall mounting, use the integrated keyhole slots on the back of the unit and appropriate screws (not included).

OPERATING INSTRUCTIONS

Making a Call

1. Lift the handset or press the **SPEAKER** button to activate the speakerphone.
2. Listen for a dial tone.
3. Dial the desired phone number using the keypad.
4. To end the call, replace the handset or press the **SPEAKER** button again.

Receiving a Call

1. When the phone rings and the Ringer LED flashes, lift the handset or press the **SPEAKER** button to answer.
2. The LCD display will show caller ID information (if available from your service provider and enabled).

Adjusting LCD Contrast

The LCD display has 3 levels of contrast. Use the dedicated contrast adjustment buttons (refer to the phone's physical buttons, usually near the display) to set your preferred visibility.

Music on Hold

During a call, press the **HOLD** button to place the caller on hold. Music will play for the caller. Press **HOLD** again to resume the conversation.

Do Not Disturb Function

The phone features a Do Not Disturb function. Consult the specific button or menu option on your device to activate/deactivate this feature, which typically silences incoming calls for a set period.

MAINTENANCE

To ensure the longevity and optimal performance of your Beetel G30 phone, follow these maintenance guidelines:

- **Cleaning:** Wipe the phone's surface with a soft, damp cloth. Do not use harsh chemicals or abrasive cleaners.
- **Avoid Liquids:** Keep the phone away from water and other liquids. If liquid spills on the phone, immediately disconnect it from the wall jack and allow it to dry completely before reconnecting.
- **Temperature:** Store and operate the phone in a moderate temperature environment. Avoid extreme heat or cold.
- **Battery Replacement:** If the LCD display becomes dim or functions intermittently, replace the batteries in the compartment on the underside of the phone.

TROUBLESHOOTING

If you encounter issues with your Beetel G30 phone, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
No dial tone	Line cord is disconnected or faulty.	Ensure the line cord is securely connected to both the phone and the wall jack. Test with another phone if possible.
LCD display is blank or dim	Batteries are low or incorrectly installed.	Replace the batteries in the battery compartment on the underside of the phone. Ensure correct polarity.
No caller ID displayed	Caller ID service not activated by your provider or phone settings are incorrect.	Contact your telephone service provider to ensure Caller ID service is active. Check phone settings for Caller ID display options.
Cannot hear caller or caller cannot hear you (speakerphone)	Speaker volume is too low or mute function is active.	Adjust the speaker volume using the **VOL**/**VIP** buttons. Ensure the **MUTE** button is not active.
Phone does not ring	Ringer volume is set to minimum or Do Not Disturb is active.	Adjust the ringer volume. Deactivate the Do Not Disturb function if it is enabled.
