Scosche CMAR-6PKRP

Scosche CMAR-6PKRP Cable Management Kit

User Manual

Product Overview

The Scosche CMAR-6PKRP Cable Management Kit provides a simple and effective solution for organizing cables in various environments. This kit includes six black adhesive cable clips designed to securely hold phone charging cables, charger cords, and other wires, preventing tangles and clutter. They are ideal for use on desks, nightstands, in cars, or any area requiring neat cable routing.

This image displays the complete set of six black round adhesive cable management clips included in the kit.

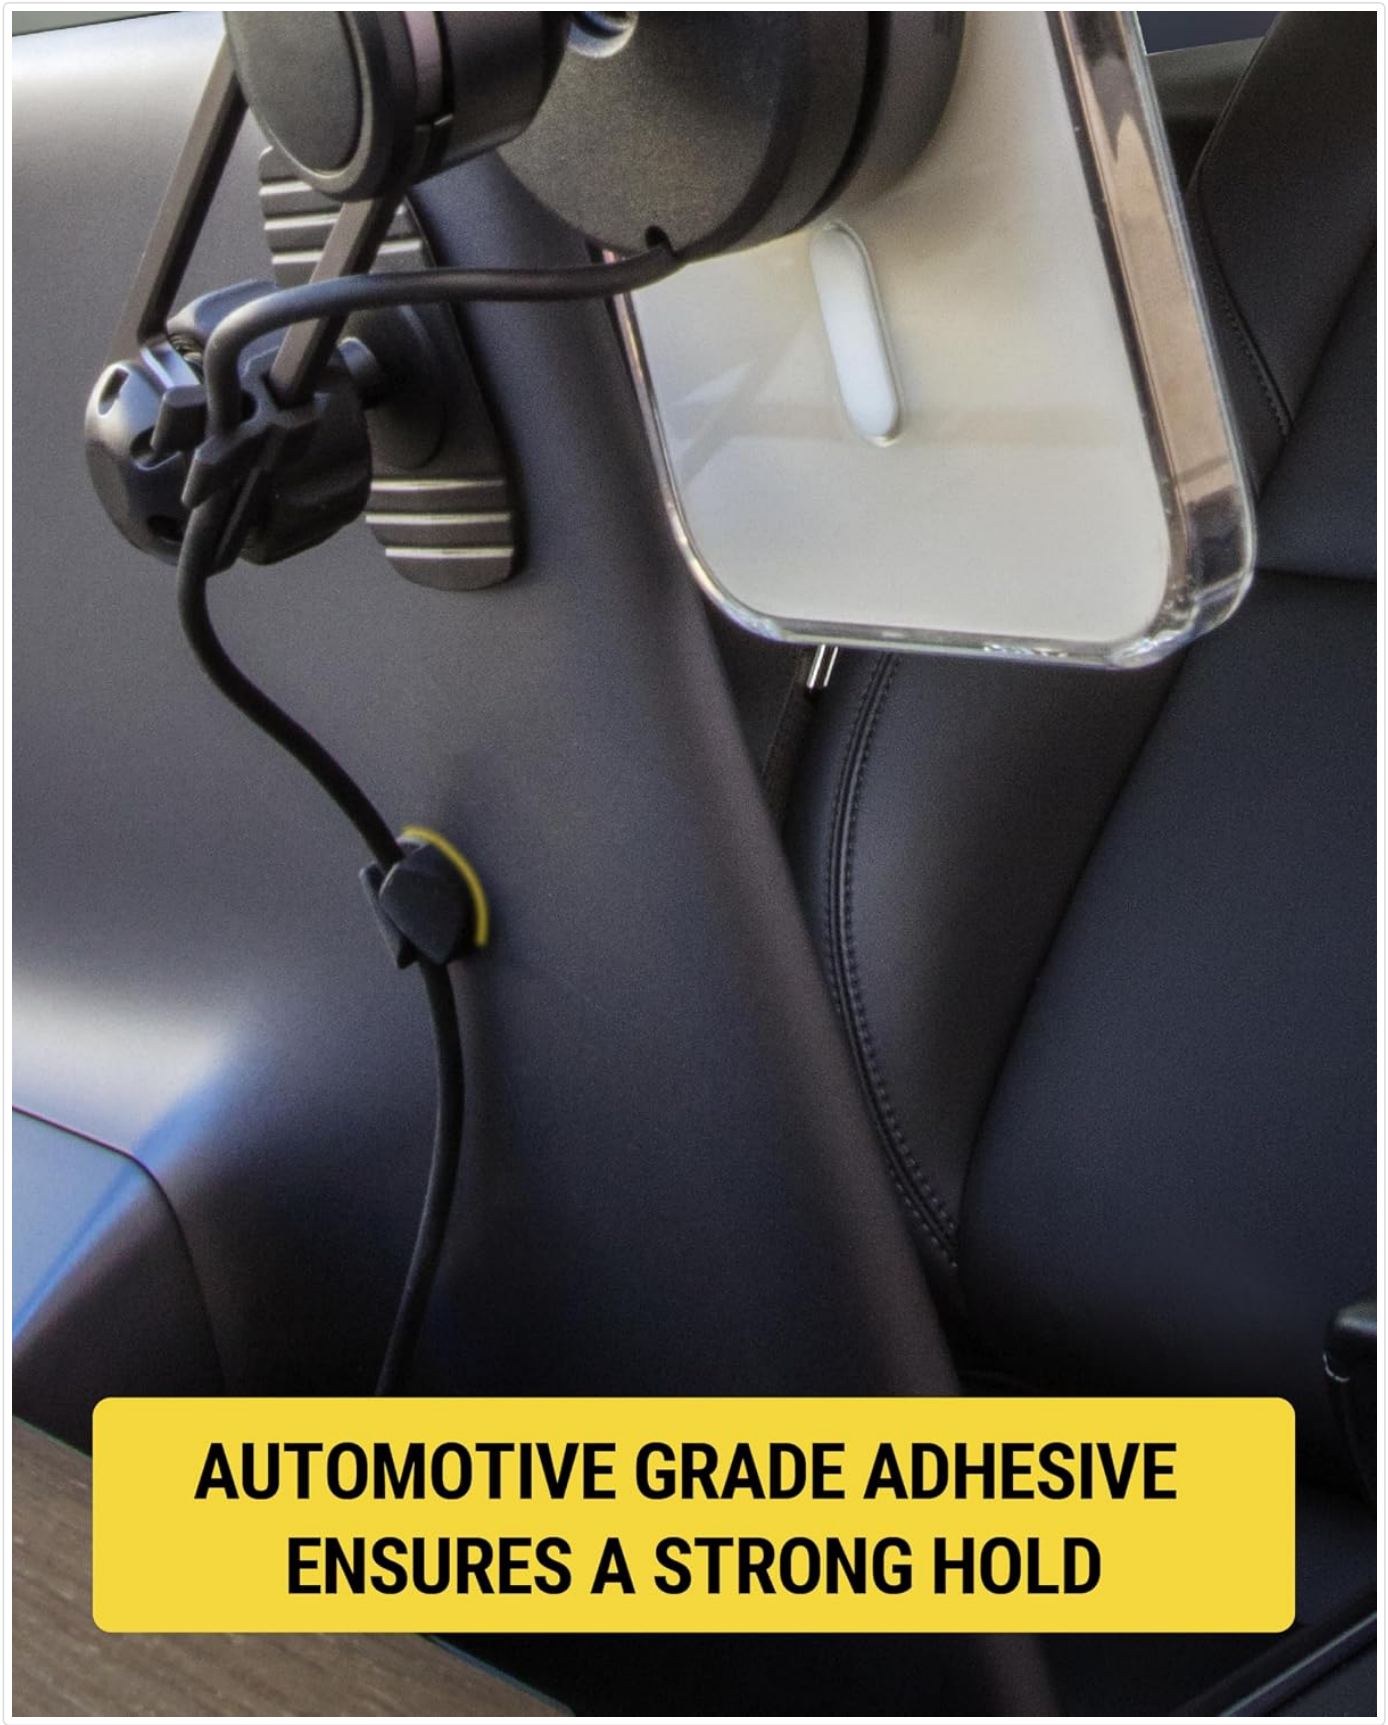

Key Features

- **Multi-Purpose Cable Organizer:** Equipped with automotive-grade adhesive, these cable holder clips securely attach to your car dash, desk, kitchen counter or nightstand. Eliminate tangled charging cables and cords without worrying about falling or detaching.
- **Eliminate Cable Clutter:** These adhesive cable management clips secure your charging cord in place, keeping them easily accessible and neatly routed. Perfect for your home office, desk, nightstand, car, or any space needing tangle-free cable organization.
- **Durable and Reliable:** Keep your phone charger cable secure with these cord management clips. Featuring a flexible dual-grip design, they firmly hold wires in place while allowing easy routing or removal, without moving the clips.
- **Cable Protector:** Keep your laptop charger, phone charging cord, mouse cable, and other cords within reach. Secure these adhesive cable clips on a smooth, clean surface, preventing unnecessary wear and tangling and extending the life of your cords.

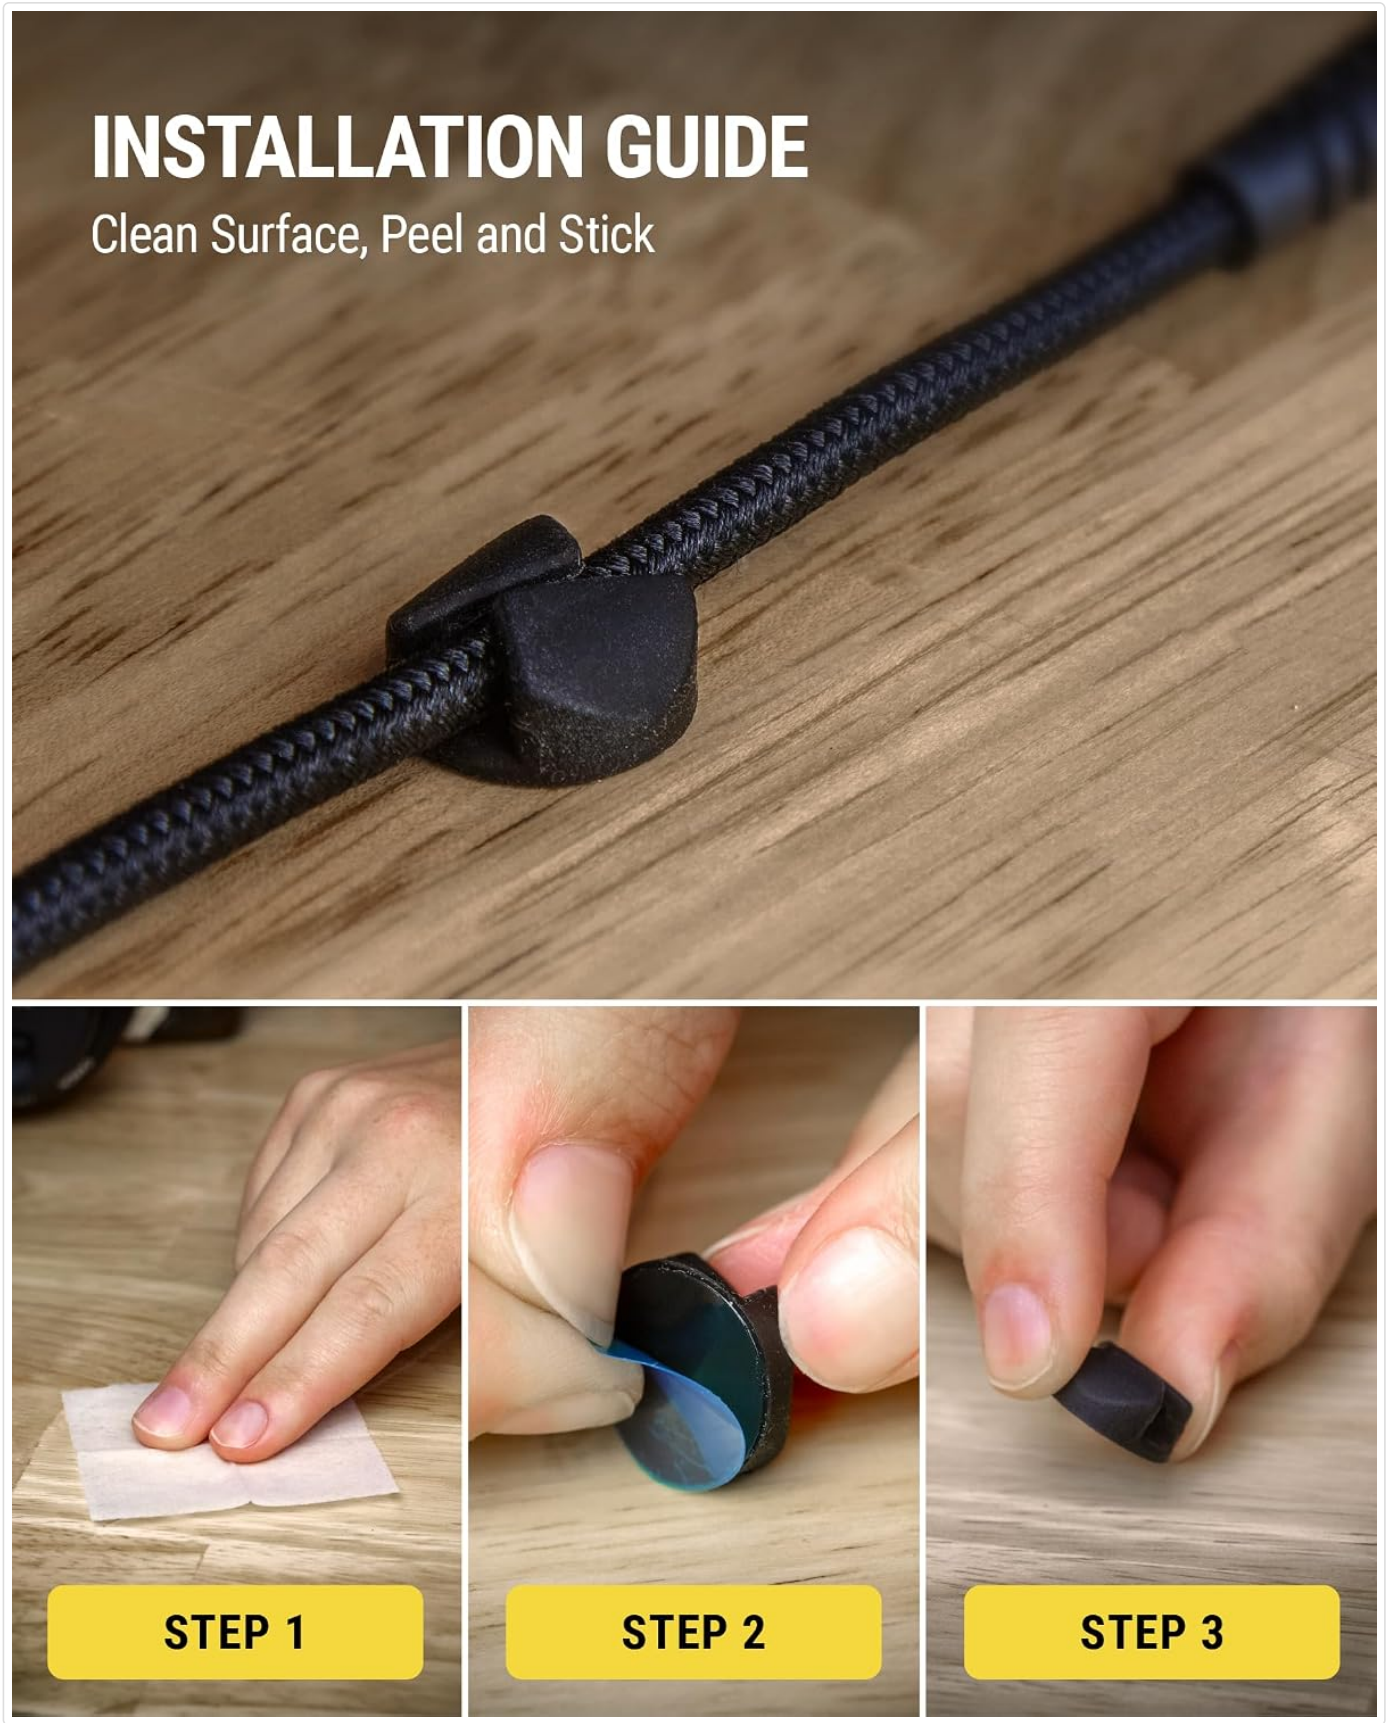

Setup and Installation

Installing your Scosche Cable Management Clips is a straightforward process. Follow these steps for optimal adhesion and cable organization:

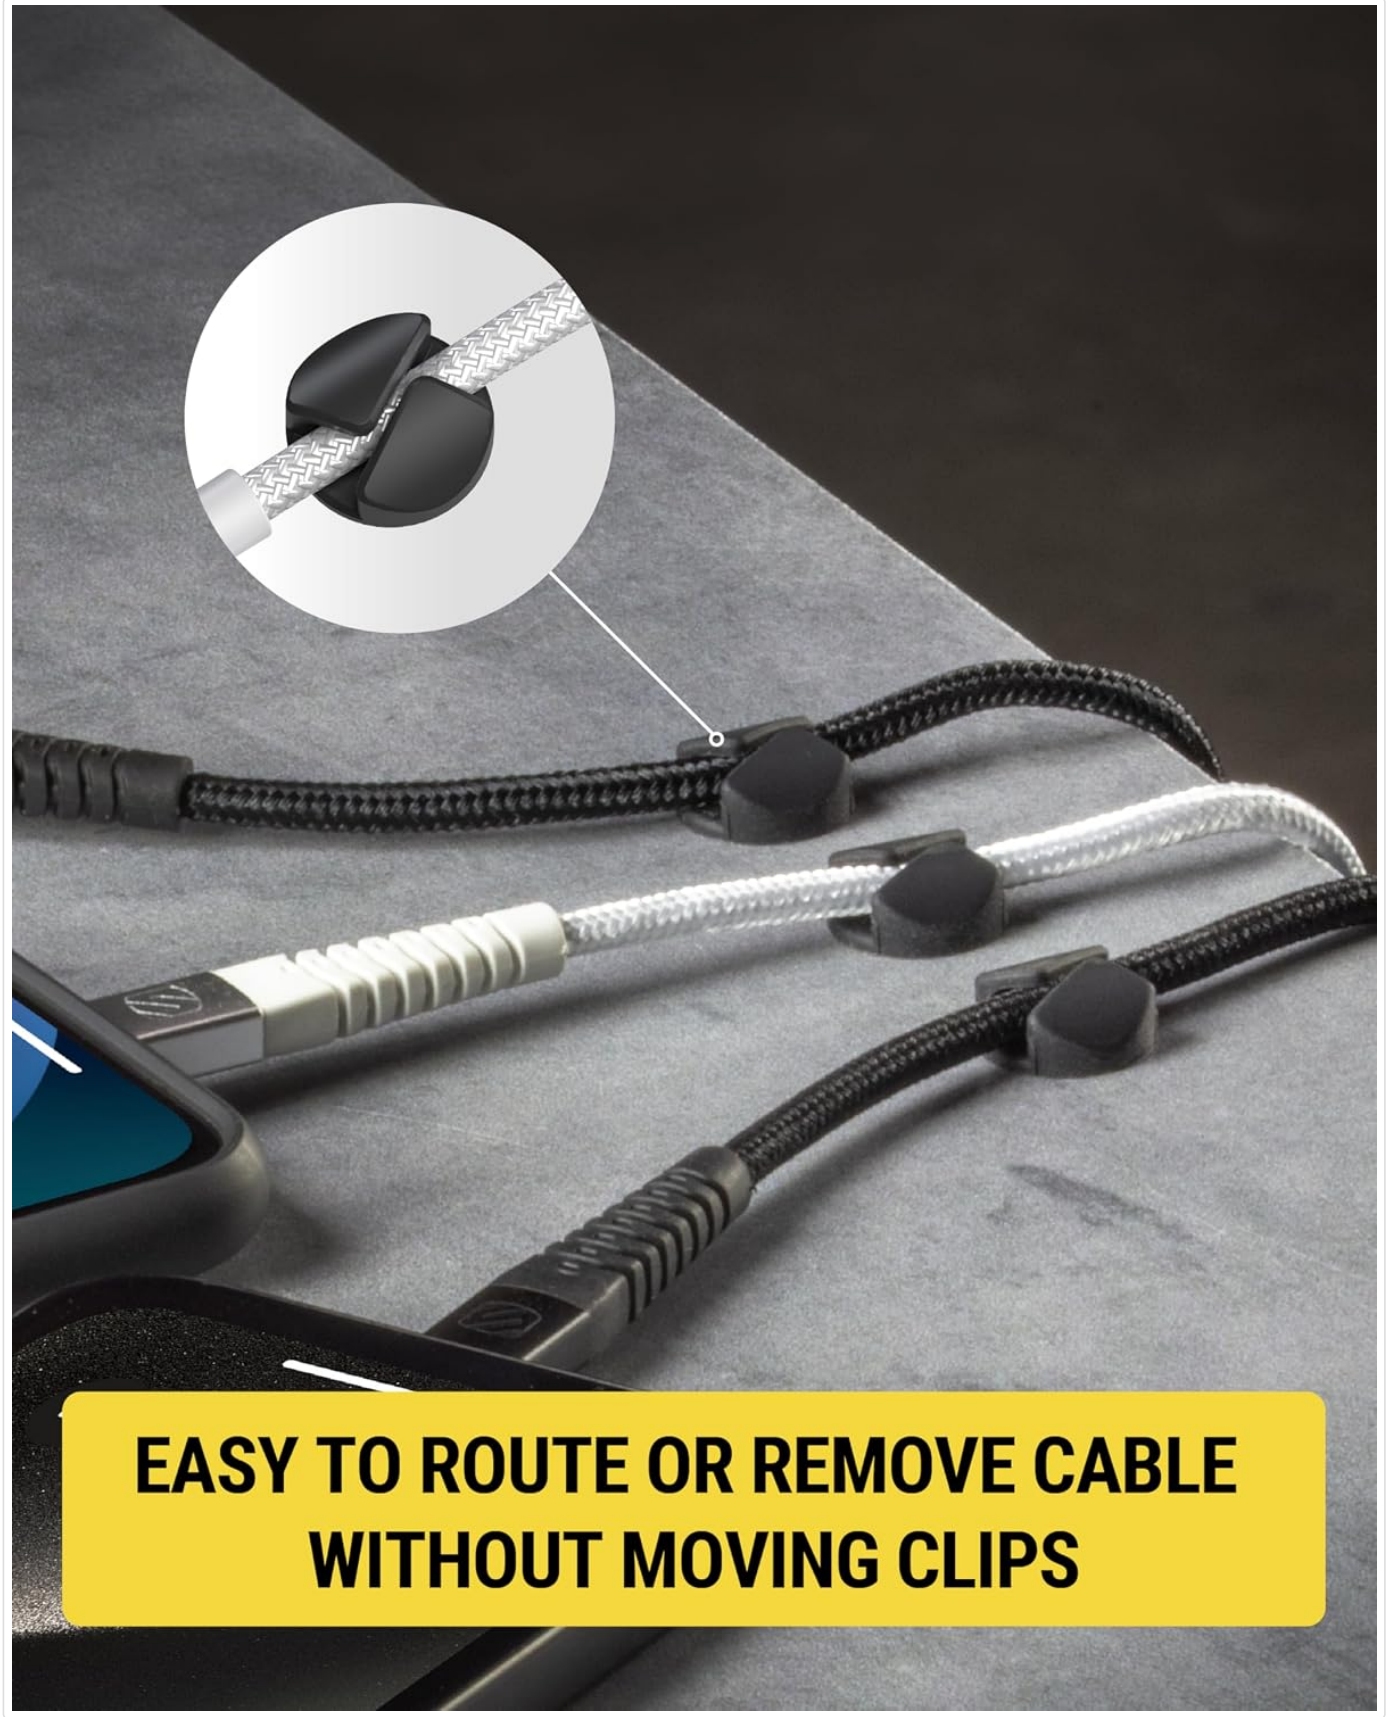

1. **Prepare the Surface:** Ensure the surface where you intend to place the clip is clean, dry, and smooth. Wipe away any dust, dirt, or oils.
2. **Peel the Adhesive:** Carefully peel off the protective backing from the automotive-grade adhesive on the back of the clip.
3. **Apply the Clip:** Press the clip firmly onto the desired surface for at least 30 seconds to ensure a strong bond. Allow the adhesive to set for a few hours before placing cables.
4. **Route Your Cables:** Once the clip is securely attached, gently push your cable into the flexible dual-grip opening. The design allows for easy insertion and removal of cables without dislodging the clip.

A visual guide detailing the simple three-step installation process: 1. Clean the desired surface. 2. Peel off the adhesive backing. 3. Firmly stick the clip in place.

The cable clip is shown organizing a charging cable on a car dashboard, illustrating how it helps maintain a clean and organized vehicle interior.

This image demonstrates the flexible dual-grip design, allowing cables to be easily routed or removed from the clips without dislodging the adhesive base.

Official product video demonstrating the versatility and ease of use of Scosche Cable Management Clips in various environments such as cars, homes, and offices, showcasing their effectiveness in organizing cables.

Operating Instructions

Once installed, the Scosche Cable Management Clips are designed for effortless use. Simply guide your desired cable into the clip's opening. The flexible dual-grip design will securely hold the cable in place, preventing it from slipping or becoming tangled. To remove or adjust the cable, gently pull it out of the clip. The clips are designed to remain adhered to the surface, allowing for repeated cable adjustments.

Maintenance

To ensure the longevity and continued effectiveness of your Scosche Cable Management Clips, occasional maintenance is recommended. Keep the clips and the surrounding area clean from dust and debris. If the clips become dirty, gently wipe them with a damp cloth. Avoid using harsh chemicals or abrasive cleaners, as these may damage the material or compromise the adhesive. Regularly check the adhesive bond to ensure the clips remain securely attached to the surface.

Troubleshooting

Adhesive Not Sticking Properly

- **Ensure Surface Cleanliness:** The most common reason for adhesive failure is an unclean surface. Before application, thoroughly clean the surface with an alcohol wipe and allow it to dry completely.
- **Apply Firm Pressure:** When applying the clip, press it firmly for at least 30 seconds to activate the adhesive.
- **Allow Cure Time:** For best results, allow the adhesive to cure for several hours (ideally 24 hours) before placing any cables in the clips.
- **Surface Compatibility:** While designed for most smooth surfaces, some textured or porous materials may not provide optimal adhesion. Test in an inconspicuous area first if unsure.

Specifications

Feature	Detail
Package Dimensions	7.87 x 4.13 x 0.55 inches
Item Weight	0.88 ounces
Item Model Number	CMAR-6PKRP
Color	Black
Material	Plastic
Style	6 Round
Installation Type	Self-Adhesive
