5. MAINTENANCE

Regular maintenance will help preserve the appearance and longevity of your bed frame.

- **Cleaning Metal Parts:** Wipe metal surfaces with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals that could damage the finish.
- **Cleaning Rattan:** Gently dust the rattan headboard and footboard with a soft brush or cloth. For deeper cleaning, a slightly damp cloth can be used, followed by immediate drying. Avoid excessive moisture.
- **Fasteners:** Periodically check all bolts and screws to ensure they remain tight. Re-tighten as necessary to maintain stability and prevent squeaks.
- **Avoid Direct Sunlight:** Prolonged exposure to direct sunlight may cause the rattan to fade or become brittle over time.

6. TROUBLESHOOTING

If you encounter any issues with your bed frame, refer to the following common solutions:

6.1 Squeaking Noises

- **Loose Bolts:** The most common cause of squeaking is loose fasteners. Re-tighten all bolts on the frame, especially where the side rails connect to the headboard and footboard, and along the central support.
- **Slats:** Ensure all metal slats are properly seated and not rubbing against the frame.

6.2 Instability or Wobbling

- **Uneven Assembly:** Verify that all parts are correctly aligned and assembled according to the instructions.
- **Loose Connections:** Re-tighten all bolts.
- **Uneven Floor:** If your floor is uneven, consider placing shims under the bed frame legs to level it.

6.3 Missing or Damaged Parts

- If you find any parts missing or damaged upon opening the package, please contact CHABUILDREARK customer support immediately for assistance.
