ASURE ASURE 4+64G

ASURE 4+64G Car Stereo Radio Instruction Manual for Nissan Rogue 2014–2018

Model: ASURE 4+64G

IMPORTANT COMPATIBILITY NOTE

This car stereo is designed for Nissan Rogue MK2 (X-Trail Qashqai) models from 2014 to 2018. **Please note:** If your factory radio includes an OEM navigation screen or a factory amplifier, an additional wiring kit may be required. Before purchasing or installing, please provide a photo of your factory radio and your vehicle's model and year to ASURE for compatibility confirmation.

SETUP AND INSTALLATION

This section provides general guidance for installing your ASURE car stereo. Professional installation is recommended.

Wiring Connections

Refer to the wiring diagram for proper connections. Ensure all cables are securely connected before powering on the unit. Incorrect wiring can lead to malfunctions or damage.

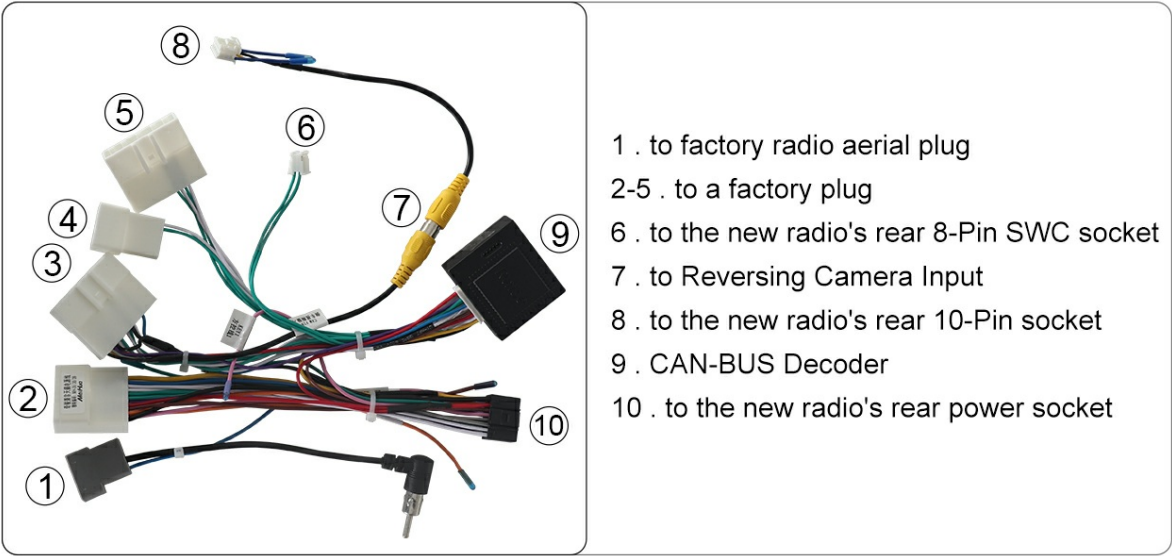

Image: Main wiring harness and connections.

Steering Wheel Control Connection

To enable steering wheel controls, connect the 8-Pin plug (integrated into the power harness) to the radio's rear 8-Pin socket. Ensure the CAN-BUS decoder is properly installed if your vehicle requires it.

Reversing Camera Installation

Follow the diagram for correct reversing camera wiring. Ensure the trigger wire is connected to the vehicle's reverse lamp power for automatic activation.

Wiring of Rear View Camera

1. Black power plug to the red socket
2. to the Negative - of your car's Reversing Lamp Power
3. the two Red wires, to the Positive + of your car's Reversing Lamp Power
4. the RCA female to the RCA male
5. the RCA male to the RCA female
6. to your head unit's "BACK"/"REVERSE" wire of reversing camera input trigger. The BACK/REVERSE trigger wire is usually in PINK or BROWN color. The trigger wire is next to the red ACC wire. If your radio comes with CAN-BUS box and it can control back camera properly, you don't have to cut and connect the Reverse Trigger Wire.
7. to your radio's rear 10-Pin socket

Compatible Vehicle Type	Nissan Rogue MK2 2014-2018
Included Components	Car stereo radio, mounting bezel, wiring kit, reversing camera, microphone, USB cables, GPS antenna

TROUBLESHOOTING

Common Issues and Solutions

- No Power / Unit Not Turning On:**

Check all power connections, especially the main power plug and the 8-Pin plug for steering wheel controls. Ensure the vehicle's ignition is on. If the issue persists, verify the wiring kit compatibility with your vehicle's factory setup.
- Steering Wheel Controls Not Working:**

Confirm the 8-Pin plug from the power harness is correctly connected to the radio's dedicated 8-Pin SWC socket. Ensure the CAN-BUS decoder is properly installed if your vehicle requires it.
- Wireless CarPlay/Android Auto Disconnections:**

Ensure your phone's Bluetooth and Wi-Fi are enabled and connected to the head unit. Check for any interference from other devices. Try restarting both the head unit and your smartphone.
- Backup Camera Not Displaying:**

Verify the reversing camera's video input (RCA) is securely connected to the head unit. Check the trigger wire connection to the vehicle's reverse lamp power. Ensure the camera itself is receiving power.
- Poor Sound Quality:**

Adjust the DSP settings to optimize audio output. Ensure all speaker wires are correctly connected. If using an external amplifier, verify its connections.

- **GPS Signal Issues:**

Ensure the GPS antenna is installed in a location with a clear view of the sky. Check the antenna connection to the head unit.

For persistent issues, refer to the "Warranty and Support" section for technical assistance.

MAINTENANCE

- **Screen Cleaning:** Use a soft, lint-free cloth to clean the touchscreen. Do not use abrasive cleaners or solvents, as these can damage the screen coating.
- **Software Updates:** Periodically check for software updates from ASURE to ensure optimal performance and access to new features. Updates can typically be performed via Wi-Fi.
- **General Care:** Avoid exposing the unit to extreme temperatures or direct sunlight for prolonged periods. Ensure proper ventilation around the unit.

WARRANTY AND SUPPORT

ASURE provides a **1-year warranty** for this product, covering manufacturing defects and malfunctions under normal use.

Additionally, **lifetime technical support** is available for assistance with installation, wiring, setup, and daily use. This support aims to help you resolve issues quickly and ensure long-term satisfaction with your product.

The warranty includes 30 days for free return and replacement, followed by 1 year for repair services.

For support or warranty claims, please contact ASURE customer service through their official website or the contact information provided in your product packaging.

ASK A QUESTION ABOUT THIS MANUAL

Ask about setup, troubleshooting, compatibility, parts, safety, or missing instructions. Manuals+ will review the question and use this page's manual context to help answer it.
