WinZo SM8005-2

WinZo Smart Bidet Toilet User Manual

Brand: WinZo

Model: SM8005-2

1. PRODUCT OVERVIEW

The WinZo Smart Bidet Toilet is an elongated, one-piece tankless toilet designed for modern bathrooms. It integrates advanced features such as an adjustable heated seat, automatic lid opening and flushing, instant warm water, and a warm air dryer for enhanced comfort and hygiene. This manual provides essential information for installation, operation, and maintenance.

2. SAFETY INFORMATION

Please read all safety instructions carefully before installation and use to prevent injury or damage. Keep this manual for future reference.

- Ensure the toilet is installed by a qualified professional in accordance with local plumbing and electrical codes.
- Connect the toilet only to a grounded 110V power supply. Do not use extension cords.
- Do not immerse the electrical components in water or spray water directly onto the control panel.
- Keep children and pets away from the toilet during operation, especially when the lid is opening/closing or flushing.

- Use only mild, non-abrasive cleaners for maintenance. Avoid harsh chemicals that may damage surfaces or internal components.
- If any unusual sounds, smells, or malfunctions occur, immediately unplug the toilet and contact customer support.

3. PARTS INCLUDED

Before beginning installation, verify that all parts are present and undamaged. The standard package includes:

- WinZo Smart Toilet with Integrated Bidet Seat
- Floor Mounted Bolts
- Wax Ring
- Washers and Nuts for securing the toilet
- Installation Manual (this document)

This video demonstrates the step-by-step installation process for the WinZo Smart Toilet, including the parts required.

4. SETUP & INSTALLATION

The WinZo Smart Bidet Toilet is designed for floor-mounted installation with a standard 12-inch rough-in. A 110V power supply is required.

Installation Steps:

1. **Prepare the Area:** Ensure the floor flange is properly installed and the area is clean and dry.
2. **Install Flange and Bolts:** Secure the toilet flange to the floor and insert the flange bolts.
3. **Apply Wax Ring:** Place the wax ring onto the toilet's waste outlet or directly onto the floor flange.
4. **Position the Toilet:** Carefully lift the toilet and align the waste outlet with the flange, lowering it over the flange bolts. Ensure a secure seal.
5. **Remove Bidet Seat:** Gently pull out the bidet seat from the toilet base to access the bolt areas.
6. **Secure with Washers and Nuts:** Place two washers over each bolt and tighten the nuts to secure the toilet to the floor. Do not overtighten.
7. **Reinstall Bidet Seat:** Carefully put the bidet seat back into its position and press down firmly until it clicks into place.
8. **Connect Water Supply:** Connect the flexible water supply line to the toilet's inlet valve and the main water supply.
9. **Connect Power:** Plug the toilet into a grounded 110V electrical outlet.
10. **Test Functionality:** Turn on the water supply and power, then test all functions as described in the Operating Instructions.

5. OPERATING INSTRUCTIONS

The WinZo Smart Bidet Toilet offers a range of intelligent features for a comfortable and hygienic experience.

Smart Control Functions

- **Automatic Lid Open/Close:** The intelligent toilet seat lid automatically opens when you approach and closes after you leave, providing a hands-free experience.
- **Off-Seat Auto Flushing:** The toilet automatically flushes after you leave the seat, eliminating the need for manual operation.
- **Side Knob Flushing:** A convenient side knob allows for manual flushing.
- **Foot Sensor Flushing:** Activate flushing with a simple foot gesture near the sensor.
- **Remote Control:** A dedicated remote control provides full access to all functions from a distance.

The toilet lid automatically opens upon approach for a touchless experience.

The side knob provides an intuitive way to control flushing and other functions.

A foot sensor allows for convenient, hands-free flushing.

Varied Cleaning Options

The smart toilet offers comprehensive cleaning options to suit various needs:

- **Bidet Wash:** Gentle front wash for feminine hygiene.
- **Rear Wash:** Thorough posterior cleansing.
- **Move Washing:** Oscillating nozzle for wider cleaning coverage.
- **Self-Cleaning:** The nozzle performs a self-cleaning cycle before and after each use.

Multiple Wash Modes

Meets the needs of all your family members

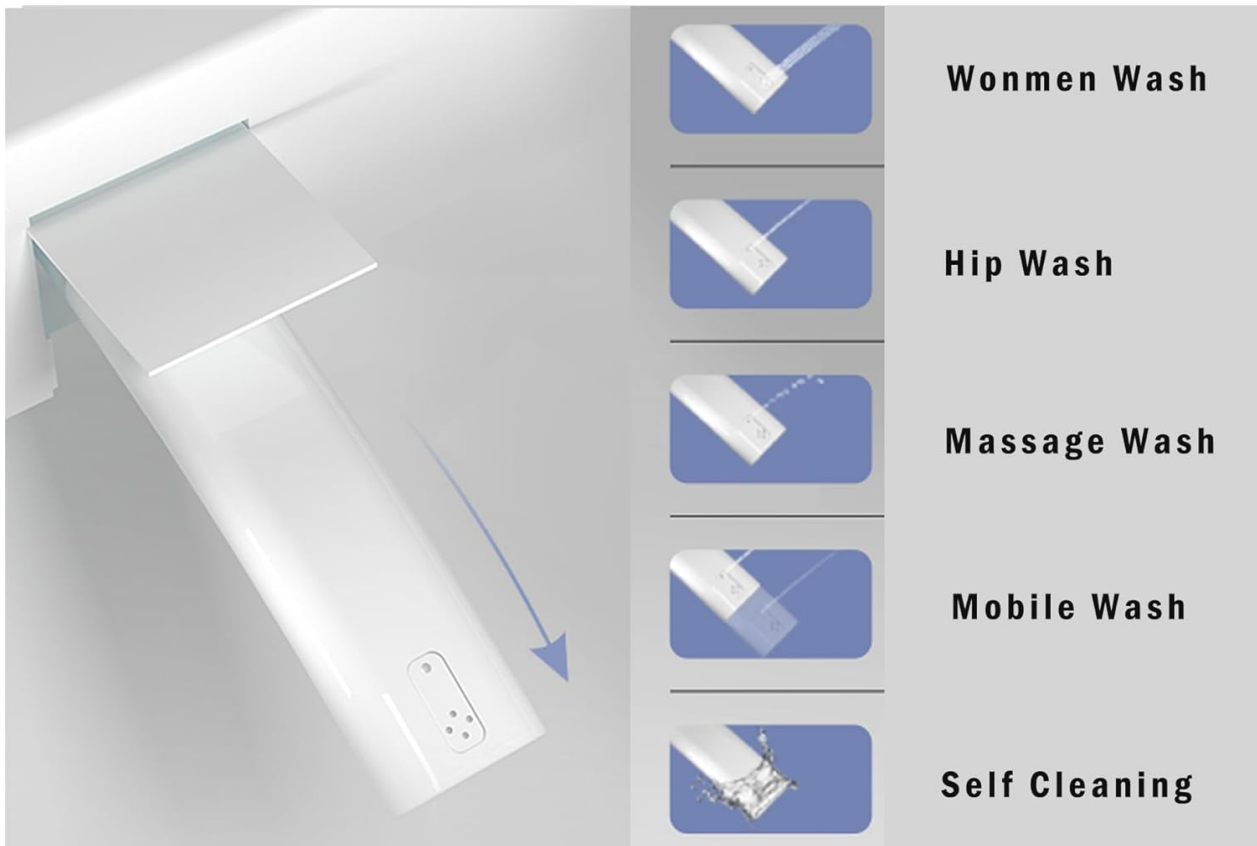

Illustration of the various wash modes available, including feminine, hip, massage, and mobile wash.

Temperature Adjustable Features

Customize your comfort with adjustable temperature settings for the seat, water, and air dryer.

- **Heated Seat:** Three different temperature levels can be set for the toilet seat.
- **Instant Warm Water:** Enjoy instant warm water for washing, with adjustable temperature and spraying intensity.
- **Warm Air Dryer:** Adjustable warm air for drying after washing.

The heated seat provides comfort, with multiple temperature settings to choose from.

The warm air dryer provides a comfortable and hygienic drying experience.

LED Display

An integrated LED display shows current settings and status, including water and seat temperatures.

The clear LED display provides real-time information on temperature and other settings.

6. MAINTENANCE

Regular cleaning and maintenance will ensure the longevity and optimal performance of your WinZo Smart Bidet Toilet.

Cleaning the Exterior

- Wipe the exterior surfaces with a soft, damp cloth and a mild, non-abrasive cleaner.
- Avoid using harsh chemicals, abrasive pads, or strong detergents, as these can damage the finish.
- Ensure no water or cleaning solution enters the electrical components or openings.

Nozzle Cleaning

The bidet nozzle features a self-cleaning function. For additional cleaning:

- Refer to your remote control or side knob instructions to manually extend the nozzle.
- Gently wipe the nozzle with a soft cloth or brush and mild soap. Do not use excessive force.
- Retract the nozzle after cleaning.

7. TROUBLESHOOTING

If you encounter any issues with your WinZo Smart Bidet Toilet, please refer to the following common troubleshooting steps. If the problem persists, contact customer support.

No Power / No Functionality

- Check if the power cord is securely plugged into a working 110V outlet.
- Verify that the circuit breaker for the bathroom is not tripped.
- Ensure the toilet's main power switch (if present) is in the 'ON' position.

Weak or No Water Spray

- Confirm that the main water supply valve to the toilet is fully open.
- Check for any kinks or obstructions in the water supply hose.
- Clean the nozzle as described in the Maintenance section, as mineral buildup can affect spray.

Lid Not Opening/Closing Automatically

- Ensure there are no obstructions around the toilet that might interfere with the sensor.
- Wipe the sensor area clean to remove any dust or debris.
- Confirm the auto-open/close feature is enabled via the remote control or side panel.
