MAINTENANCE

- Keep the device dry. Avoid exposure to water or excessive humidity.
- Clean the screen and body with a soft, dry cloth. Do not use abrasive cleaners or solvents.
- Avoid dropping the device or subjecting it to strong impacts.
- Store the device in a cool, dry place when not in use for extended periods.

TROUBLESHOOTING

Device Not Turning On

- Ensure the battery is charged. Connect the device to a power source and allow it to charge for at least 30 minutes before attempting to power on again.
- Verify the power switch is in the "ON" position.

No Sound Output

- Check the volume level. Increase the volume using the device's controls.
- If using headphones, ensure they are properly plugged into the 3.5mm jack. Test with another pair of headphones if possible.
- Ensure the audio file format is supported (MP3, WAV, WMA, APE, Flac).

Slow or Unresponsive Operation

- Restart the device by powering it off and then on again.
- Ensure the memory card is not corrupted or full. Try removing the memory card to see if performance improves.
