3. Product Components

Familiarize yourself with the main parts of your MS09 Selfie Stick Tripod:

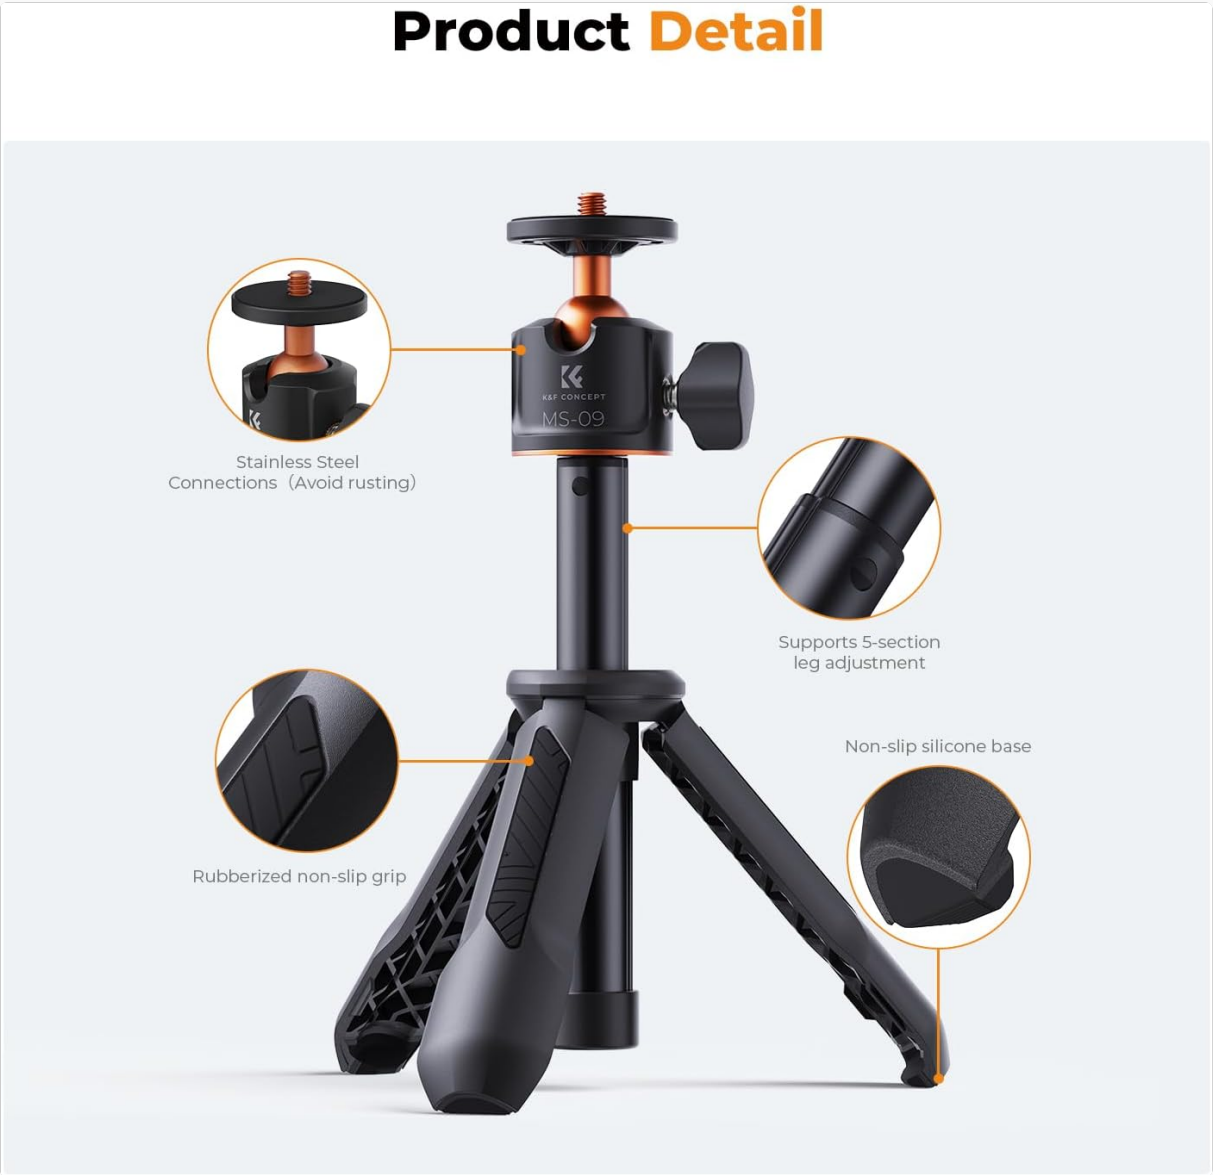

Image: Key components of the MS09 tripod.

- **1/4" Screw Mount:** Universal screw for attaching cameras or the phone clip.

- **Ball Head:** Allows for 360° rotation and 90° tilt.
- **Extension Rod:** 5-section adjustable rod for height extension.
- **Tripod Legs:** Foldable legs with anti-slip silicone pads for stability.
- **Handle/Grip:** Ergonomic design for comfortable handheld use.
- **Phone Clip:** Adjustable clip to secure smartphones.
- **Bluetooth Remote:** Detachable remote for wireless control.

4. Setup Instructions

4.1 Attaching Your Device

1. **For Cameras:** Screw your camera directly onto the 1/4" screw mount at the top of the tripod. Ensure it is securely tightened.
2. **For Smartphones:** Attach the provided phone clip to the 1/4" screw mount. Open the phone clip and carefully insert your smartphone, ensuring it is centered and held firmly.

4.2 Pairing the Bluetooth Remote

1. Ensure the Bluetooth remote has a working AAA battery installed.
2. Turn on the remote control (usually by pressing and holding a button until an indicator light flashes).
3. On your smartphone, go to Bluetooth settings and search for available devices.
4. Select the device named 'AB Shutter 3' or similar (refer to remote for exact name) to pair. No password is required.
5. Once paired, the indicator light on the remote will stop flashing or show a steady light.

5. Operating Instructions

5.1 Switching Between Modes (Selfie Stick & Tripod)

The MS09 offers a two-in-one design, allowing seamless transition between selfie stick and tripod modes.

- **Selfie Stick Mode:** Keep the tripod legs folded together to form a comfortable handle. Extend the rod to your desired length.
- **Tripod Mode:** Unfold the three legs at the base until they are fully extended and stable on a flat surface.

5.2 Adjusting Height

The extension rod features 5 sections. To adjust the height:

1. Gently pull the top section upwards to extend.
2. Push down to retract. The sections will lock into place at various lengths, from 13cm (5.11in) to 34cm

(13.38in).

Image: Adjustable height from 13cm to 34cm.

5.3 Adjusting Shooting Angle

The integrated ball head allows for precise angle adjustments:

1. Loosen the locking knob on the side of the ball head.
2. Adjust your device to the desired horizontal (360°) or vertical (90°) angle.
3. Tighten the locking knob to secure the position.

5.4 Using the Bluetooth Remote

Once paired, simply press the button on the Bluetooth remote to trigger your device's camera shutter. This allows for remote photography and video recording from a distance of up to 10 meters.

Image: The MS09 is ideal for travel shooting.

6. Maintenance

- **Cleaning:** Wipe the tripod and remote with a soft, dry cloth. Avoid using harsh chemicals or abrasive materials.
- **Storage:** Store the tripod in a cool, dry place away from direct sunlight and extreme temperatures. Ensure it is fully retracted and the legs are folded for compact storage.
- **Battery Replacement:** If the Bluetooth remote's indicator light does not turn on or it fails to pair, replace the AAA battery.
- **Load Capacity:** Do not exceed the maximum load capacity of 2kg (4.4 lbs) to prevent damage to the tripod and your device.

7. Troubleshooting

- **Remote Not Pairing:**
  - Ensure the remote is turned on and within 10 meters of your device.
  - Check if the remote's battery needs replacement.
  - Delete the remote from your device's Bluetooth history and attempt to re-pair.
- **Tripod Instability:**
  - Ensure the tripod legs are fully extended and placed on a flat, stable surface.
  - Verify that your device's weight does not exceed the 2kg (4.4 lbs) load capacity.
  - Check that the ball head locking knob is securely tightened.
- **Extension Rod Not Extending/Retracting Smoothly:**
  - Ensure no debris is lodged in the rod sections.
  - Avoid forcing the rod; it should extend and retract with moderate effort.

8. Specifications
