

Gaimoo GM200

Gaimoo GM200 Mini Projector User Manual

Model: GM200 | Brand: Gaimoo

1. INTRODUCTION

Thank you for choosing the Gaimoo GM200 Mini Projector. This device is designed to provide a versatile and high-quality projection experience, supporting 1080P FHD and 4K content. With its built-in Android Smart TV OS, WiFi 6, and Bluetooth 5.2, it offers seamless entertainment and connectivity. Please read this manual thoroughly to ensure proper setup and operation.

Package Contents

- 1x Gaimoo GM200 Projector
- 1x Wireless Mouse
- 1x HDMI Cable
- 1x Remote Control
- 1x User Manual

2. INITIAL SETUP

2.1 Power Connection

Connect the power adapter to the projector's power input and then to a wall outlet. The projector will power on automatically or can be turned on using the power button on the device or remote control.

2.2 Placement and Projection

The GM200 projector features a 180° rotatable design, allowing for flexible placement. It can be placed on a desktop, mounted on a tripod (1/4-inch screw hole at the bottom), or ceiling-mounted. Ensure the projection surface is flat and clear for the best image quality. The optimal projection distance is 3-18 feet, yielding a projection size of 35-240 inches.

Easy To Carry 180° Rotatable

Carry a movie with you, and immerse yourself in the world of audiovisual entertainment anytime anywhere

2.3 Connecting Devices

The projector offers multiple connectivity options:

- **HDMI Port:** Connect TV sticks, laptops, PS5, or other HDMI-enabled devices.
- **USB Port:** Connect USB drives for media playback.
- **3.5mm Headphone Jack:** Connect external speakers or headphones for enhanced audio.

3. OPERATING INSTRUCTIONS

3.1 Control Modes

The GM200 supports dual control modes: the included wireless mouse and the remote control. The mouse provides more convenient navigation, especially within the built-in Android TV OS.

3.2 Android Smart TV OS & Built-in Apps

The projector comes with a built-in Android TV OS, allowing direct access to streaming services like YouTube, Netflix, and Prime Video without an additional TV stick. Navigate using the remote or mouse to select your desired application.

Your browser does not support the video tag.

3.3 Image and Display Settings

- **Resolution:** Supports 4K and 1080P video playback for clear and vibrant images.
- **Auto Keystone Correction:** The projector automatically adjusts the image shape to correct trapezoidal distortion, ensuring a rectangular picture even if the projector is not perfectly aligned.
- **Digital Zoom:** Adjust the screen size between 35%-100% using the digital zoom function.
- **Focus Adjustment:** Use the focus wheel on the projector to achieve the sharpest image.

3.4 Wireless Connectivity (WiFi 6 & Bluetooth 5.2)

- **WiFi 6:** Connect to your home network for internet access and streaming. WiFi 6 offers faster speeds and less interference.

- **Two-way Bluetooth 5.2:** Connect wireless speakers or headphones to the projector for enhanced audio. The built-in HIFI speaker also provides quality sound.

4. MAINTENANCE

To ensure the longevity and optimal performance of your Gaimoo GM200 projector, follow these maintenance guidelines:

- **Cleaning the Lens:** Use a soft, lint-free cloth specifically designed for optical lenses. Do not use abrasive cleaners or cloths that could scratch the lens.
- **Cleaning the Exterior:** Wipe the projector's exterior with a soft, dry cloth. For stubborn marks, a slightly damp cloth can be used, but ensure no moisture enters the device.
- **Ventilation:** Ensure the projector's ventilation openings are not blocked. The sealed optical motor and dual

cooling fans are designed to extend service life, but proper airflow is crucial.

- **Storage:** When not in use for extended periods, store the projector in a cool, dry place, away from direct sunlight and extreme temperatures.

5. TROUBLESHOOTING

If you encounter issues with your Gaimoo GM200 projector, please refer to the following common problems and solutions:

Problem	Possible Solution
No image or distorted image	Check power connection. Adjust focus wheel. Use auto keystone correction or manually adjust projector angle. Ensure input source is correctly selected.
No sound or low sound	Adjust volume on projector and connected device. Check audio cable connection (if using 3.5mm jack). Ensure Bluetooth speakers are properly paired.
Cannot connect to Wi-Fi	Ensure Wi-Fi is enabled on the projector. Check Wi-Fi password. Restart your router and the projector. Ensure you are within range of your Wi-Fi network.
Remote control not working	Check battery levels and replace if necessary. Ensure there are no obstructions between the remote and the projector's IR receiver.
Projector overheating	Ensure ventilation openings are clear and not blocked. Operate in a well-ventilated area.
