KUST KUST00152

KUST Floor Mats for Honda HR-V (2023-2026) Instruction Manual

1. Product Overview

This manual provides instructions for the KUST full set of all-weather TPE rubber floor mats and cargo liner, specifically designed for the Honda HR-V models from 2023 to 2026. These mats offer comprehensive protection for your vehicle's interior, including front and rear floor areas, rear seat backrests, and the cargo trunk.

The full set includes 3 pieces for the 2-row floor, 2 pieces for the rear seat backrests, and 1 piece for the rear cargo area, totaling 6 individual mats.

2. Setup and Installation

The KUST floor mats are custom-fit for your Honda HR-V (2023-2026) using precise laser scanning technology to ensure accurate dimensions and full coverage. Follow these steps for proper installation:

1. **Preparation:** Before installation, if the mats are curled due to folding and transport, place them in the sun for one to two days or use a heat gun to help them flatten and return to their original shape.
2. **Clean Vehicle Interior:** Ensure the vehicle's floor and cargo areas are clean and free of debris before placing the new mats.
3. **Install Front Floor Mats:** Place the driver's side and passenger's side front floor mats. Align them with the vehicle's contours and secure them using any existing factory retention clips or the fixed buckles integrated into the mats.
4. **Install Rear Floor Mat:** Position the rear floor mat, ensuring it covers the entire rear footwell area from side to side.

5. **Install Rear Seat Backrest Protectors:** Carefully place the two rear seat backrest mats onto the backrests. These are designed to protect the seat backs when the seats are folded down.
6. **Install Rear Cargo Mat:** Lay the cargo mat in the trunk area. The high edges are designed to contain spills and debris.
7. **Customization (Optional):** Some mats may have reserved slot cutting positions for specific vehicle features. If needed, carefully cut along the designated lines.

3. Operating and Usage

Once installed, your KUST floor mats provide continuous all-weather protection for your Honda HR-V's interior. The TPE material is odorless and free from plastic and chemical smells, ensuring a clean and fresh environment inside your car.

- **All-Weather Protection:** The mats are designed to withstand various weather conditions, protecting your vehicle's carpet from dirt, mud, snow, and spills.
- **High Edge Design:** The tall sides of the mats effectively contain liquids and debris, preventing them from reaching the underlying carpet.
- **Anti-Slip Surface:** The textured bottom ensures the mats remain securely in place, preventing sliding and enhancing safety during driving. The deep ribs also contribute to a non-slippery surface for your feet.

4. Maintenance

Maintaining your KUST floor mats is simple due to their TPE material and unique textured design. Regular cleaning will ensure their longevity and continued effectiveness.

- **Easy Cleaning:** To clean the mats, simply remove them from your vehicle.
- **Rinse:** Spray them down with a hose to remove dirt, mud, and debris. For stubborn stains, a mild soap and brush can be used.
- **Dry:** Allow the mats to air dry completely before placing them back into your vehicle.
- **Avoid Harsh Chemicals:** Do not use harsh chemicals or abrasive cleaners, as these may damage the TPE material.

5. Troubleshooting

- **Mats are Curled or Not Lying Flat:** If the mats appear curled or do not lie perfectly flat after unpacking, this is typically due to packaging and transport. Place the mats in direct sunlight for one to two days, or use a heat gun on a low setting to gently warm them. This will help the TPE material relax and return to its intended flat shape.
- **Mats Do Not Fit Perfectly:** Double-check that you have the correct model (Honda HR-V 2023-2026) and that each mat is placed in its designated position (driver's side, passenger's side, rear, cargo). Ensure no obstructions are preventing a proper fit.
- **Mats are Slipping:** Verify that the mats are correctly aligned with any factory retention posts or the integrated fixed buckles. Ensure the vehicle's carpet underneath the mats is clean and dry to allow the anti-slip texture to function effectively.

6. Specifications

Feature	Detail
Brand	KUST
Model Number	KUST00152
Material	Thermoplastic Elastomer (TPE)
Color	Black
Vehicle Service Type	Fit for 2023-2026 Honda HR-V
