MAINTENANCE

Regular maintenance will help preserve the appearance and functionality of your vanity.

Engineered Quartz Countertop:

- **Daily Cleaning:** Wipe with a soft cloth and warm, soapy water. Rinse thoroughly and dry to prevent water spots.
- **Stain Removal:** For stubborn stains, use a non-abrasive household cleaner. Avoid harsh chemicals, abrasive pads, or highly acidic/alkaline cleaners, as these can damage the surface.
- **Heat Protection:** Although quartz is heat resistant, always use a trivet or hot pad under hot items to prevent potential damage.
- **Avoid Impact:** While durable, avoid dropping heavy objects on the countertop, which could cause chipping or cracking.

Ceramic Sink:

- **Cleaning:** Clean regularly with a soft cloth and mild, non-abrasive bathroom cleaner. Rinse thoroughly.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners, steel wool, or strong chemical solvents, as these can scratch or damage the ceramic glaze.

Wood Cabinet:

- **Cleaning:** Wipe with a soft, damp cloth. Dry immediately to prevent water damage.
- **Avoid Moisture:** Do not allow water to sit on wood surfaces for extended periods.
- **Hardware:** The metal hardware features a protective technology. Clean with a soft, dry cloth. Avoid abrasive cleaners.

TROUBLESHOOTING

If you encounter issues with your vanity, refer to the following common solutions:

- **Leaking Faucet/Drain:** Check all plumbing connections for tightness. Ensure plumber's tape or sealant was used correctly. If leaks persist, consult a professional plumber.
- **Uneven Vanity:** Adjust the leveling feet at the base of the cabinet until the vanity is stable and level.
- **Cabinet Doors Not Closing Properly:** Inspect hinges for any obstructions. The soft-close hinges are adjustable; refer to the hinge manufacturer's instructions for adjustment if needed.
- **Drawer Sticking:** Ensure the drawer is properly aligned on its glides. Check for any obstructions inside the drawer or along the glides.

- **Water Spots on Countertop:** Wipe immediately with a soft, dry cloth. For dried spots, use a mild cleaner as described in the Maintenance section.
