Apple MA7D4ZM/A

Apple iPhone 16 Plus Clear Case with MagSafe User Manual

PRODUCT OVERVIEW

The Apple iPhone 16 Plus Clear Case with MagSafe is designed to protect your iPhone 16 Plus while maintaining its original aesthetic. This case is thin, light, and crafted from optically clear polycarbonate and flexible materials, ensuring a comfortable grip and full access to device buttons.

It integrates seamlessly with MagSafe technology for enhanced wireless charging and accessory attachment. The case also features a sapphire crystal for Camera Control functionality and a scratch-resistant coating on both interior and exterior surfaces to prevent yellowing over time.

INSTALLATION

1. **Prepare your iPhone:** Ensure your iPhone 16 Plus is clean and free of dust or debris before installing the case.
2. **Align the case:** Hold the case with the camera cutout aligned with your iPhone's camera system.
3. **Insert one side:** Gently push one side of your iPhone into the case, starting from the top or bottom edge.
4. **Snap into place:** Apply gentle pressure around the edges until the iPhone is fully seated and secured within the case. Ensure all buttons and ports align correctly with the case openings.

USAGE

MagSafe Compatibility

The case features built-in magnets that align precisely with your iPhone 16 Plus, enabling a secure attachment to MagSafe chargers and accessories. To charge wirelessly, simply place your iPhone (with the case on) onto a MagSafe charger or a Qi2- or Qi-certified wireless charger.

Button Functionality

The flexible materials of the case are designed to fit snugly over the iPhone's buttons, ensuring they remain fully functional and responsive without obstruction.

Camera Control Integration

This case is engineered to work with Camera Control features. It incorporates a sapphire crystal and a conductive layer to accurately transmit finger movements for camera operations.

CARE AND CLEANING

To maintain the clarity and appearance of your case, follow these cleaning instructions:

- Remove the case from your iPhone.
- Wipe the case gently with a soft, lint-free cloth.
- For stubborn marks, lightly dampen the cloth with water or a mild, non-abrasive cleaner. Avoid harsh chemicals or abrasive materials, as these can damage the case's finish and scratch-resistant coating.
- Allow the case to air dry completely before reattaching it to your iPhone.

TROUBLESHOOTING

Case Yellowing

The case is designed with materials and coatings optimized to prevent yellowing over time. If minor discoloration occurs, ensure regular cleaning as described in the "Care and Cleaning" section.

MagSafe Attachment Issues

If your MagSafe accessories are not attaching securely or wireless charging is inconsistent, ensure there is no debris between the case and the iPhone, or between the case and the MagSafe accessory. Realign the accessory to ensure proper magnetic connection.

SPECIFICATIONS

Brand	Apple
Model Name	iPhone Magsafe Cases
Model Number	MA7D4ZM/A
Compatible Phone Models	iPhone 16 Plus
Material	Polycarbonate
Color	Clear
Item Dimensions (L x W x H)	9.7 x 19.4 x 1.6 Centimeters
