2. SAFETY INFORMATION

This product is a collectible model and not a toy. It contains small parts and may have sharp edges.

- **Recommended Age:** Suitable for individuals aged 16 and above.
- **Parental Supervision:** Younger teens should use or handle the model under parental supervision due to potential sharp edges.

- **Placement:** Place the model on a stable, flat surface to prevent accidental falls and damage.
- **Handling:** Handle with care to avoid bending or breaking delicate components.

3. SETUP

The MechPuConToy 3D Metal Nautilus Bionic Mechanical Model is provided as a finished version, requiring minimal setup.

1. **Unpacking:** Carefully remove the model from its packaging. Retain packaging for future storage or transport.
2. **Placement:** Position the model on a stable, level surface. Ensure the display stand is securely placed.
3. **Power Connection (if applicable):** If the model includes integrated lighting, locate the power input (e.g., USB port, battery compartment) and connect it according to the instructions provided with the power source (not included).

4. OPERATING FEATURES

The Nautilus Bionic Mechanical Model features several interactive elements.

- **Integrated Lighting:** The model includes internal lighting. Locate the power switch, typically on the base or discreetly on the model itself, to activate the lights. The main eye and tentacle tips may illuminate.
- **Movable Joints:** Certain components of the model feature movable joints. Gently manipulate these parts to adjust their position. Avoid excessive force to prevent damage.

5. MAINTENANCE

Proper care will ensure the longevity and appearance of your metal model.

- **Cleaning:** Dust the model regularly with a soft, dry cloth or a soft brush. Avoid abrasive cleaners or harsh chemicals, which can damage the metal finish or painted surfaces.
- **Storage:** When not on display, store the model in its original packaging or a protective container to prevent dust accumulation and accidental damage.
- **Environment:** Keep the model away from direct sunlight, extreme temperatures, and high humidity to prevent material degradation or discoloration.

6. TROUBLESHOOTING

If you encounter any issues with your model, refer to the following common problems and solutions.

- **Lights Not Working:**
 - Ensure the power source is correctly connected and functional.
 - Check if the power switch on the model is in the "ON" position.

- If battery-operated, verify batteries are correctly inserted and not depleted.

- **Movable Parts Stiff:**

- Gently attempt to move the joint. Do not force it.
- Ensure no foreign objects are obstructing the movement.

- **Model Instability:**

- Verify the model is placed on a completely flat and stable surface.
- Ensure the model is correctly seated on its display stand.

7. SPECIFICATIONS

Feature	Detail
