This image displays the various components included in the replacement pack, such as valve assemblies, an aromatherapy box, filters, a cleaning brush, a gasket, an aroma diffuser spacer, and a sponge filter, illustrating their individual forms.

Setup and Filter Replacement

Proper installation of the replacement filter is crucial for optimal humidifier performance. Follow these steps to replace your humidifier filter:

1. **Turn off and unplug** your humidifier from the power source.
2. **Remove the water tank** from the humidifier base.
3. **Locate the filter cover** at the bottom of the water tank. Rotate it counterclockwise to remove it.
4. **Carefully remove the old filter** from its housing. Dispose of the old filter responsibly.
5. **Insert the new filter** into the filter housing. Ensure it is seated correctly.
6. **Replace the filter cover** by rotating it clockwise until it is securely fastened.
7. **Refill the water tank** with clean water and place it back onto the humidifier base.
8. **Plug in and turn on** your humidifier.

Operating Instructions

These accessories are designed to support the manual operation of your humidifier. Once the accessories are installed and the humidifier is filled with water, operate your humidifier according to its specific model instructions. The humidifier typically features a manual control for mist output.

Aroma Diffuser Function

The aromatherapy box accessory allows for the addition of essential oils to diffuse fragrance into your space. Refer to your humidifier's main manual for specific instructions on how to use the aroma diffuser feature with this accessory.

Maintenance

Regular maintenance of your humidifier accessories ensures optimal performance and extends their lifespan. The sponge filter should be replaced regularly, typically once a month, depending on water hardness and usage frequency. The included cleaning brush can be used to clean the humidifier's internal components and the aromatherapy box.

- **Filter Replacement:** Replace the sponge filter monthly or as needed. Signs of needing replacement include reduced mist output or discoloration of the filter.
- **Cleaning:** Use the provided cleaning brush to remove any mineral buildup or residue from the humidifier's water tank and internal parts. Ensure all parts are dry before reassembly.

Troubleshooting

If you encounter issues with your humidifier after installing these accessories, please refer to your humidifier's main instruction manual for troubleshooting steps. Ensure all accessories are correctly installed and that the humidifier is properly filled and powered.

Specifications

Brand	Coolfiqu
Special Feature	Aroma Diffuser
