4. SETUP

Follow these steps to set up your new Pomya laptop.

4.1 Unpacking and Placement

1. Carefully remove the laptop and all accessories from the packaging.
2. Place the laptop on a stable, flat surface with adequate ventilation.

4.2 Connecting the Power Adapter

1. Connect the power adapter cable to the charging port on the laptop.
2. Plug the power adapter into a grounded electrical outlet.
3. Allow the laptop to charge for at least 30 minutes before initial use, or until the battery indicator shows sufficient charge.

4.3 Initial Boot-Up and Operating System Setup

1. Press the power button to turn on the laptop.
2. Follow the on-screen instructions to complete the operating system setup, which typically includes language selection, network connection, user account creation, and privacy settings.

5. OPERATING INSTRUCTIONS

5.1 Power On/Off

- **To Power On:** Press the power button located on the keyboard deck.
- **To Power Off:** Navigate to the operating system's power options and select 'Shut down'. Avoid forced shutdowns unless necessary to prevent data loss.

5.2 Using the Touchpad

- **Single Tap:** Functions as a left-click.
- **Two-Finger Tap:** Functions as a right-click.
- **Two-Finger Scroll:** Drag two fingers up or down to scroll content.
- **Pinch-to-Zoom:** Use two fingers to zoom in or out on content.

5.3 Connecting Peripherals

- **USB Devices:** Insert USB devices into the available USB ports. The operating system will typically install necessary drivers automatically.
- **Wi-Fi:** Access network settings in your operating system to connect to a wireless network.

5.4 Fingerprint Reader

The integrated fingerprint reader allows for quick and secure login. To set up:

1. Go to your operating system's 'Sign-in options' or 'Accounts' settings.
2. Locate the fingerprint setup option and follow the on-screen prompts to register your fingerprints.

6. MAINTENANCE

Proper maintenance ensures the longevity and optimal performance of your laptop.

6.1 Cleaning

- **Screen:** Use a soft, lint-free cloth specifically designed for electronics. Dampen the cloth slightly with water or a screen cleaner, then gently wipe the screen.
- **Keyboard and Chassis:** Use a soft, dry cloth. For stubborn dirt, a slightly damp cloth can be used, ensuring no liquid enters openings. Compressed air can remove debris from between keys.
- Always power off and unplug the laptop before cleaning.

6.2 Battery Care

- Avoid fully discharging the battery frequently.
- Store the laptop in a cool, dry place if not used for extended periods.
- Do not expose the battery to extreme temperatures.

6.3 Software Updates

Regularly check for and install operating system and driver updates to ensure security and performance.

7. TROUBLESHOOTING

This section addresses common issues you might encounter.

7.1 Laptop Does Not Power On

- Ensure the power adapter is securely connected to both the laptop and a working electrical outlet.
- Verify the power outlet is functional by plugging in another device.
- Allow the battery to charge for at least 30 minutes before attempting to power on again.

7.2 Wi-Fi Connectivity Issues

- Check if Wi-Fi is enabled in your operating system settings.
- Restart your router and modem.
- Ensure you are within range of a Wi-Fi network and have the correct password.

7.3 Slow Performance

- Close unnecessary applications running in the background.
- Ensure your operating system and drivers are up to date.
- Check for malware or viruses using reputable security software.
