Converting Between Modes

The Gizoon Sofa Bed Chair offers three versatile modes: chair, lounge, and bed. Follow these steps to convert between them:

1. **From Chair to Lounge/Bed:** Locate the pull-out tab at the front of the seat cushion. Gently pull it outwards to extend the ottoman section. The ottoman is equipped with wheels for smooth movement.
2. **Adjusting the Backrest:** The backrest can be adjusted to 4 different angles (108°, 126°, 144°, 162°). To adjust, push the backrest forward until you hear a click, then recline it to your desired angle. To lay it completely flat for bed mode, push it all the way forward until it releases, then lower it.
3. **From Lounge/Bed to Chair:** To retract the ottoman, lift the front edge slightly and push it back underneath the main chair body until it is fully concealed. Adjust the backrest to the upright chair position.

Using the Side Features

- **Side Pockets:** The armrests feature integrated pockets for convenient storage of magazines, remote controls, or other small items.
- **USB Charging Ports:** Located on the side of the armrest, the chair includes USB charging ports to keep your devices powered. Connect the power cord to an outlet to activate this feature.
